Foreword

The New Jersey Department of Education is pleased to publish the 2007 Special Education Student Data Handbook v 1.0. Because quality information requires student data elements that are uniform, consistent and easy to understand, this reference guide defines and maintains a set of standards for educational data. The Special Education Student Data Handbook is intended to support the December 1st NJ SMART data submission, which reports on 1) students classified as eligible for special education and related services; as well as 2) students who have been referred for a special education evaluation during the previous school year, whether or not they were determined eligible for special education. Students served by Part C who were referred to Part B for evaluation are included in this submission set.

Much of the student data required for the December 1st snapshot data submission is consistent with the core data set requirements (demographic data) for NJ SMART. This supports the linking of student data across time and submissions, and also ensures accurate validation of Statewide Student Identifiers (SIDs).

Executive Summary

Accurate, consistent and timely information is necessary to make informed decisions about the performance of New Jersey’s school system. The 2007 Special Education Student Data Handbook was developed to assist school districts in providing education information to the New Jersey Department of Education (NJ DOE) in a standardized format to comply with state and federal requirements. For education information to be used effectively, it needs to be identified and captured as a fundamental data element or a specific bit of data that can be defined and measured. This Special Education Student Data Handbook provides the definition and syntax for these data elements. The standards outlined in the Handbook will help produce a consistent body of information upon which all stakeholders can draw.

NJ Standards Measurement and Resource for Teaching (NJ SMART) was developed for three primary reasons. First, New Jersey’s public education system must become more evidence-based where progress toward instructional goals are measured, and where the effectiveness and efficiency of educational programs are monitored. To achieve this goal, education data must be collected, managed and reported in a fashion that is more useful, accurate, consistent and timely. Second, major regulatory changes, such as the federal No Child Left Behind Act (NCLB), are compelling Local Education Agencies (LEAs) and State Education Agencies (SEAs) to collect greater quantities of data to meet increasingly intensive reporting requirements. The NJ DOE hopes to ease this burden over time by maintaining information in a more powerful and flexible way. Third, the NJ DOE is committed to becoming more service-oriented to LEAs and the public. By providing better information to LEAs and other stakeholders, and by simplifying the burdensome data reports to the state, the NJ DOE hopes to increase administrative efficiency through the use of technology.
**Data Elements and Definitions**

This *Special Education Student Data Handbook* includes data elements that are currently collected and maintained by schools, districts, and the NJ DOE. Not all data elements are relevant to each student (e.g., a student may not have a middle name or a student who has not exited special education will not have an exit date). It is important to understand how each definition is implemented. In those situations where the implementation of a definition is not clear it should be reported to NJ SMART so that a collaborative resolution can be reached.

The following information is provided for each data element in the *Special Education Student Data Handbook*:

<table>

Privacy and Security

Privacy of student records is required by the *Family Educational Rights and Privacy Act (FERPA)*. FERPA requires state and local education agencies to protect the privacy of education records that contain “information directly related to a student” and which are maintained by an educational agency or institution. Education data stored in NJ SMART qualify as education records within the limits of *FERPA*. Absent written consent from the parent or student, or a valid court order, *FERPA* prohibits the release of education records to anyone other than local school officials, or federal and state education agencies with legitimate educational interests for the information.

NJ DOE takes privacy and security concerns extremely seriously. To ensure confidentiality of student records, NJ SMART is designed with the following features: First, an audit trail of all logins, changes and logouts are recorded for all registered and authorized users. The audit trail allows for early notification of potential security breaches. It also encourages legal and appropriate use of student information since all activities on NJ SMART are monitored. Persons who illegally access or download information will be prosecuted to the fullest extent of the law. Second, information in NJ SMART is segmented or compartmentalized with security rights set up by the district so that only registered and authorized users have access to information where they have a legitimate educational interest.
Data Elements Outline

The following is an outline of the data elements included in the NJ SMART special education data submission, categorized by their appropriate headings. Note that some data elements apply to certain students (Active, US-born, etc.) as well as certain snapshot dates (i.e. December 1, 2006).

STUDENT INFORMATION

Identification
**Name of Data Element:**
LocalIdentificationNumber

**Definition:** A number assigned and maintained by the local school district that is unique for each student in the district (LID).

**Functional, Policy or Legal Description:** Two student identifiers are used to track students within and across districts over time and to keep student information secure and confidential – one is assigned by the district where the student is enrolled and one is assigned by NJ DOE. Districts must assign the Local Identification Number for each student in order to receive a State Identification Number (SID). This provides an additional matching field and an efficient way for NJ DOE to provide Sides to districts. This data element is used to verify the unique identification of the student.

**Snapshot Dates:** October 15, December 1, End of Year or June 30

<tbody>
<tr>
<td>Alphanumeric</td>
<td>1</td>
<td>20</td>
<td>Resident</td>
</tr>
</tbody>
</table>

**Range of Values:** N/A

**Required element?** Yes. **Mandatory** for all students

**Format:** Type and length can vary based on a series of numbers and letters used by a school district. A student’s LID must be unique throughout the student’s enrollment in the district even when the student withdraws and re-enrolls. For school districts without a LID, a LID scheme must be created and assigned for all students so that DOE can uniquely identify all students in a particular district.

**Additional Notes:** For a LID that includes leading zeros, be sure when extracting and storing the data for transmission that the zeros are maintained. This is accomplished by creating the field as an alphanumeric data element.

It is important that for confidentiality purposes, the local identification numbers do not contain any embedded meaning linked to student-specific information.

Error will occur if multiple students within the district with the same LID are reported.

Error will occur if field is **NULL**.
**Name of Data Element:** StateIdentificationNumber

**Definition:** A unique number (SID) assigned and maintained by the New Jersey Department of Education that is unique for each student over time and across districts.

**Functional, Policy or Legal Description:** In order to track students within and across districts over time, NJ DOE will assign a unique 10-digit number to all students enrolled in New Jersey public schools. After the initial assignment of identification numbers, districts will be required to verify or obtain an identification number whenever a new student enrolls in the district.

SID will be a new number assigned by NJ SMART. The initial batch assignment of the SID occurred in March 2007. After initial assignment, districts must use the SID on all student-level data submitted to the New Jersey Department of Education and annually resolve all duplicate students within the district prior to the beginning of the school year.

**Snapshot Dates:** October 15, December 1, End of Year or June 30

**Type:** Numeric  **Min Length:** 10  **Max Length:** 10  **Reporting District:** Resident

**Range of Values:** N/A

**Required Element?** Yes, **Mandatory for all students with SIDs**  **NCES**

**Format:** 10-digit state identification number. SIDs must be valid SIDs as issued by NJ SMART or an error will occur.

**Additional Notes:** This field should be left NULL for new students entering NJ public schools. Example: Transfer students from out-of state, transfer students from out-of-country, and first time pre-school students.

All submission files must include SIDs for students who have had SIDs issued; if a file submission does not include SIDs, it will not be accepted by NJ SMART.

**Range of Values:** N/A

**Required Element?** Yes. **Mandatory** for all students

**Format:** First name, middle name and last name must be reported as three separate fields.

Students with multiple last names should include multiple last names in this field and not in the middle name field. Hyphens are acceptable if they are part of the student’s legal name; place both last names in this field. Example: Jenny R. Smith-Jones would be last name = “Smith-Jones” while John F. Kennedy Smyth would be last name = "Kennedy Smyth".

**Additional Notes:** Error will occur when student’s name is spelled differently from the previous data submission. Error will occur when field is NULL.
# Name of Data Element:
GenerationCodeSuffix

**Definition:** An appendage, if any, used to denote an individual’s generation in his family (e.g., Jr, Sr, III). This data element should correspond to the child’s birth certificate or other legal documentation.

**Functional, Policy or Legal Description:** This data element is used to verify the unique identification of the student.

**Snapshot Dates:** October 15, December 1, End of Year or June 30

**Type:** Alpha

**Reporting District:** Resident

**Range of Values:** N/A

**Required Element?** No. **Optional** for all students

**Format:** No punctuation should be included.

**Additional Notes:** Leave NULL if not available or does not exist.

*While Generation Code/Suffix is an optional data element, the district should use this data element to differentiate among students who would otherwise have the same name and birth information such as twins, triplets, etc.*
**Name of Data Element: Gender**

**Definition:** The student’s gender.

**Functional, Policy or Legal Description:** This data element is used to verify the unique identification of the student.

**Format:** Gender should be specified as: "F" for Female, "M" for Male.

**Additional Notes:** Error will occur if field is left **NULL**.
**Name of Data Element: DateOfBirth**

**Definition:** The year, month and day on which an individual was born. This data element should correspond to the child’s birth certificate or other legal documentation.

**Functional, Policy or Legal Description:** This data element is used to verify the unique identification of the student.

**Snapshot Dates:** October 15, December 1, End of Year or June 30

**Type:** Alpha  
**Min Length:** 8  
**Max Length:** 8  
**Reporting District:** Resident

**Range of Values:** N/A

**Required Element?** Yes. **Mandatory** for all students  
**NCES**

**Format:** Date must be in YYYYMMDD format. Do not include any separators such as "/" or "."

**Additional Notes:** Error will occur if format does not include a four digit year followed by a zero-filled two position month, followed by a zero-filled two position day (i.e. 20010128).

Error will occur if data element falls outside of reasonable parameters (date occurs in future, date ages student outside legal limits of education system).

Error will occur if field is left **NULL**.
**Name of Data Element:** CityOfBirth  

**Definition:** The name of the city or town (or comparable unit) in which the student was born. This data element should correspond to the child’s birth certificate or other legal documentation.

**Functional, Policy or Legal Description:** This data element is used to verify the unique identification of the student.

**Snapshot Dates:** October 15, December 1, End of Year or June 30

**Type:** Alpha  
**Min Length:** 1  
**Max Length:** 30  
**Reporting District:** Resident

**Range of Values:** N/A

**Required Element?** Yes, Mandatory for all US-born students. Optional for all foreign-born students.

**Format:** N/A

**Additional Notes:** This attribute should contain the name of the city where the student was born (typically recorded on a birth certificate or passport). The city may be within the US or any country. Do not include country of birth or state of birth in this field. Do not include any abbreviations.

An error will occur if CityOfBirth, StateOfBirth, and CountryOfBirth are left NULL, for a student. For US-born students, CityOfBirth and StateOfBirth are required. For foreign-born students CountryOfBirth is required and CityOfBirth is optional. StateOfBirth must be left NULL for foreign-born students.

An error will occur if punctuation is included in CityOfBirth.
**Name of Data Element:** StateOfBirth

**Definition:** The name of the state (within the United States) or extra-state jurisdiction (e.g. province, territory) in which an individual was born. This data element should correspond to the child’s birth certificate or other legal documentation.

**Functional, Policy or Legal Description:** This data element is used to verify the unique identification of the student.

**Required Element?** Yes, **Mandatory for all foreign-born students.** Not required for US-born students.

**NCES Format:**

Codes must conform to the NCES list cited above or an error will occur.

**Additional Notes:** Enter country of birth as it appears on a birth certificate or other legal document presented at time of enrollment. Do not include the foreign city of birth in this field; it should be entered in the CityofBirth field if available. Foreign born students must have a country of birth listed but do not require CityofBirth or StateofBirth.

An error will occur if CityOfBirth, StateOfBirth, and CountryOfBirth are all left NULL for a student. For US-born students, CityOfBirth and StateOfBirth are required. For foreign-born students CountryOfBirth is required and CityOfBirth is optional. StateOfBirth must be left NULL for foreign-born students.

**Name of Data Element:** Ethnicity

**Definition:** The ethnic category which most clearly reflects the individual's recognition of his or her community or with which the individual identifies.

**Functional, Policy or Legal Description:** The categories reflect the revised Standards for the Classification of Federal Data on Race and Ethnicity by the US Office of Management and Budget – Statistical Policy Directive No. 15 (1997). The revised standards have two categories for data on ethnicity. The revised Standards are the following:

- Hispanic or Latino
- Not Hispanic or Latino

**Snapshot Dates:** October 15, December 1, End of Year or June 30

**Type:** Alpha  
**Min Length:** 1  
**Max Length:** 1  
**Reporting District:** Resident

**Range of Values:**

- **Y** = Hispanic or Latino - A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.
- **N** = Not Hispanic or Latino

**Required element?** Yes, **Mandatory** for all students

**Format:** Only “Y” or “N” responses will be accepted. Each student must have a Y or an N response.

**Additional Notes:** If positive identification of Hispanic or Latino is not possible, “N” should be entered.

If Ethnicity = “N,” at least one Race category must be identified as “Y.”

Error will occur if field is left NULL.
Name of Data Element: RaceAmericanIndian

Definition: The racial category, which clearly reflects the individual's recognition of his or her community or with which the individual most identifies. More than one race category may be reported for an individual.

Functional, Policy or Legal Description: The categories reflect the revised Standards for the Classification of Federal Data on Race and Ethnicity by the US Office of Management and Budget – Statistical Policy Directive No. 15 (1997). The revised standards have five minimum categories for data on race and two categories for data on ethnicity. More than one race category may be reported for an individual. The revised Standards are the following:
  - American Indian or Alaska Native
  - Black or African American
  - Asian
  - Native Hawaiian or Other Pacific Islander
  - White

Snapshot Dates: October 15, December 1, End of Year or June 30

Type: Alpha
Min Length: 1  Max Length: 1  Reporting District: Resident

Range of Values:
Y = Yes to American Indian or Alaska Native - A person having origins in any of the original people of North and South America (including Central America) and who maintains a tribal affiliation or community attachment.

N = No to American Indian or Alaska Native

Required Element? Yes. Mandatory for all students

Format: Only “Y” or “N” responses will be accepted. Each student must have a Y or an N response.

Additional Notes: Multiple race categories may be identified for a student. All race categories that are not applicable to a student should be marked as “N”.

Error will occur if field is left NULL.

Definition: The racial category, which clearly reflects the individual's recognition of his or her community or with which the individual most identifies. More than one race category may be reported for an individual.

Functional, Policy or Legal Description: The categories reflect the revised Standards for the Classification of Federal Data on Race and Ethnicity by the US Office of Management and Budget – Statistical Policy Directive No. 15 (1997). The revised standards have five minimum categories for data on race and two categories for data on ethnicity. More than one race category may be reported for an individual. The revised Standards are the following:

- American Indian or Alaska Native
- Asian
- White
- Black or African American
- Native Hawaiian or Other Pacific Islander

Snapshot Dates: October 15, December 1, End of Year or June 30

Type: Alpha

Min Length: 1

Max Length: 1

Reporting District: Resident

Range of Values:

Y = Yes to Black or African American - A person having origins in any of the black racial groups of Africa.

N = No to Black or African American

Required Element? Yes. Mandatory for all students

Format: Only “Y” or “N” responses will be accepted. Each student must have a Y or an N response.

Additional Notes: Multiple race categories may be identified for a student. All race categories that are not applicable to a student should be marked as “N”.

Error will occur if field is left NULL.

**Range of Values:**

- 01 = Incomplete Residency/Enrollment Information: Parent failed to complete the residency/enrollment information in a timely manner (more than 15 days) after receipt of the forms.

- 02 = Additional Evaluations Needed (After Initial Evaluation Plan): After the initial evaluation plan, it was determined that additional assessments were needed.

- 03 = Specialized Evaluations Needed: Evaluations by specialists not employed by the district were not completed within required timelines.

- 04 = Delays in Scheduling Evaluation/Assessments: The child or parent was unavailable due to illness, vacation, etc.

- 05 = Missed Appointments by the Child or Parent: The parent repeatedly missed or cancelled scheduled appointments/interviews/meetings.

- 06 = Vacancies of Child Study Team or Related Services Personnel: The school district had child study team or related services personnel vacancies that delayed the completion of the assessments within required timelines.

- 07 = Child Study Team or Related Services Personnel were Unavailable: Child study team or related services personnel were not able to complete assessments within the required timelines due to vacation, illness, or large numbers of evaluations to be completed.

- 12 = Student transferred into the district after a consent for the initial evaluation was obtained but before the initial evaluation was completed. The parents and district signed off on an extended timeline.

**The following code applies only to students with disabilities ages 6-21:**

- 08 = Mediation or a Due Process Hearing: A request for mediation or a due process hearing was filed with the Office of Special Education Programs after the school district received consent to evaluate but before the 90th day.
The following three additional codes apply ONLY for children served in Early Intervention Programs (Part C), reasons for delays beyond 3rd birthday in eligibility determination process:

09 = Late Referral: if the written referral for the initial evaluation was made fewer than 120 days prior to age 3

10 = Delay in Receipt of Consent to Evaluate: Parent failed to attend the identification/evaluation planning meeting and/or did not provide consent in a timely manner (more than 15 days) after the meeting.

11= Mediation or a Due Process Hearing: A request for mediation or a due process hearing was filed with the Office of Special Education Programs after the school district received the referral but before the child’s 3rd birthday.

Required Element?: Yes, for all students who have an EligibilityDeterminationDate after the required due date.

Additional Notes: Leave NULL if not applicable.

Do not report delay reason for students who moved out of the school district prior to completion of the evaluation, or B) students whose evaluations were completed according to an extended timeline pursuant to N.J.A.C. 6A:14-3.4(e) [If the student enrolls after initial evaluation was undertaken by the previous district but prior to the completion of the initial evaluation, the parent and district may agree to a specified modified timeframe for completing the evaluation] –DELETED (SpecialEducationProcessDelay code 12 should be used)

An error will occur when a student is 6-21 years of age, the EligibilityDeterminationDate is more than 90 days from the ParentalConsentDate, the ParentalConsentDate has occurred after June 30, 2006, and SpecialEducationProcessDelayReason is NULL, or blank.

An error will occur when the ReferralDate occurs before a student’s third birthday, the ReferralDate occurs after June 30, 2006, the EligibilityDeterminationDate occurs after the student’s third birthday, and SpecialEducationProcessDelayReason is NULL, or blank.

If a student is four years of age or older, SpecialEducationProcessDelay codes 09, 10 and 11 are invalid and will result in an error.

If a student is younger than six years of age and older than 21 years of age, SpecialEducationProcessDelay code 08 is invalid and will result in an error.
Name of Data Element: SpecialEducationPlacement

Definition: The placement group in which the student with the disability is currently receiving special education and related services.

Functional, Policy or Legal Description: NJ DOE, Division of Finance, Office of Special Education, IDEA Part B

Snapshot Dates: December 1

Type: Alpha
Min Length: 2
Max Length: 2
Reporting District: Resident

Range of Values:

For Age 3-5:

01 = 80% or more of the school day in the presence of regular education students (students who attend a regular Early Childhood program or kindergarten that includes at least 50% nondisabled children for at least 80% of their school day. Early Childhood programs include, but are not limited to: Head Start; kindergarten; privately operated general education preschool; preschool classes offered to an eligible pre-kindergarten population by the public school system; and group childcare.)

02 = Between 40-79% of the school day in the presence of regular education students (students who attend a regular Early Childhood program or kindergarten that includes at least 50% nondisabled children for between 40%-79% of their school day. This does not include children who are reported as receiving education programs in public or private separate schools or residential facilities)

03 = Less than 40% of the school day in the presence of regular education students (students who attend a regular Early Childhood program or kindergarten that includes at least 50% nondisabled children for less than 39% of their school day. This includes students who are in out-of-district placements including public and approved private school programs that are operated in public school buildings with regular education grades. This does not include children who are reported as receiving education programs in public or private separate schools or residential facilities)

04 = Separate class (students who attend a special education program in a class with less than 50% nondisabled children. Does not include children who also attend a regular early childhood program)

05 = Separate school (students receiving special education and related services for greater than 50% of the school day in public or private separate schools)

06 = Residential facility (students who receive education programs and live in public or private residential facilities during the school week. Includes children receiving special education and related services for greater than 50% of the school day in public or private residential facilities)

07 = Home (students who receive special education and related services in the principal residence of the child’s family or caregivers/babysitters, and who DID NOT attend an early childhood program or a special education

**Required Element:** Yes, for all students with a valid IEP as of the snapshot date.
Additional Notes:

Determining time in presence of regular education students:

**For Age 3-5:**
When determining whether to report a child in a general early childhood program, you must calculate the percentage of time the child spends in a regular early childhood program. A regular early childhood program includes at least 50% nondisabled students. The numerator for this calculation is the amount of time per week the child spends in a regular early childhood program. The denominator for this calculation is the total number of hours the child spends in a regular early childhood program PLUS any time the child spends receiving special education and related services outside of a regular early childhood program. The result is multiplied by 100.

**For Age 6-21:**
To calculate the percentage of time in the presence of general education students:
Divide the number of minutes per day in the presence of general education students by the total number of minutes in the entire school day (between the first and last bell) and multiply times 100.

If a student’s schedule varies from day to day, calculate the percentage on a weekly basis:
Divide the number of hours per week in the presence of general education students by the total number of hours in the entire school week and multiply times 100.

Special education and related services provided in the regular education classroom should be counted as time spent in the presence of regular education students.

Additional Notes:
Leave NULL if student is not classified as special education eligible.

If a SpecialEducationPlacement is listed, either an EligibilityDeterminationDate OR a ReevaluationDate is required.

An error will occur when SpecialEducationClassification has a value and SpecialEducationPlacement is NULL, or blank. **DELETED**

An error will occur when IEPBeginDate has a value and SpecialEducationPlacement is NULL, or blank.
