Dear NJ BPU:

I would like to submit the following documents for consideration by the public, all formal Stakeholders, and the Board in developing the Murphy Administration's Energy Master Plan. Please make these documents part of the public record on Energy Master Plan and for the BPU's role in re-negotiating the RGGI agreement.

1. Global Shale Gas and the Anti-Fracking Movement

I assume that Board staff transmit all stakeholder comments that are submitted to all other participating stakeholders. This facilitates collaboration and transparency, and builds trust.

If you do not engage in this information sharing practice, I request that you do so. I would be very interested in reading the views of other stakeholders and would like them to read mine.

Respectfully,

Bill Wolfe
