Open Enrollment – Week 5 Snapshot

November 1-December 5, 2020

- **Get Covered New Jersey**, the state’s official health insurance marketplace operated by the **New Jersey Department of Banking and Insurance**, opened on Nov. 1, 2020. **New Jersey’s state-based exchange** was created by a law signed by **Governor Murphy** on June 28, 2019.
- Open Enrollment runs **November 1, 2020 to January 31, 2021**, more than double the six-week open enrollment period held last year under the federal government (Healthcare.gov). Residents must enroll by December 31, 2020 for coverage beginning January 1, 2021. For those who enroll in January, coverage will start on February 1, 2021.
- The **Health Exchange (or “Marketplace”)** is the only place where individuals can apply for financial help to reduce the cost of health insurance plans. The Marketplace provides a **streamlined transfer to Medicaid and Children’s Health Insurance Program (CHIP)**.
- The **Governor signed P.L.2020, c.61 on July 31, 2020 to create funding for state subsidies for qualified individuals** to further improve affordability and demonstrate the value of operating a state Marketplace.

Key Data Caveats

- This document is intended to show directional trends to indicate overall consumer activity.
- Caution should be taken when trying to compare numbers across categories for a variety of reasons:
 - Some numbers are at a household level (i.e., account transfers) where others are at an individual level (i.e., plan selections).
 - Duplication may exist at some steps and consumers may show up in multiple places (i.e., mixed household eligibility will show up in account transfer and plan selection).
- This document is inclusive of medical plan information only, it excludes dental plan information.
- The data represents a snapshot in time and calculations are subject to change. Changes in the figures will occur as individuals update applications and plan selections throughout the open enrollment period.
