Temperatures rise fast, even with the windows down. Call 911 if you see a pet in a hot car.

- Even with the windows cracked, the inside of a car can heat up to 120 degrees.
- DO NOT leave animals outside for extended periods in the heat.
- If your pets are outside, keep them in shaded areas.
- Refill your dog’s water bowl more often than usual on hot days. Add ice cubes to cool down your pup and prevent vomiting.
