

New Jersey Resident Deaths by Year, Month, and County of Residence 2015-2020 Final Data 2021-2022 Provisional Data

Caveats for 2021 - 2022 Death Counts Presented In This Document

Provisional means "temporary." These counts will change.

The "as of" dates on the graph and 2021-2022 tables show when those data files were last updated.

Beginning in May 2022, the 2021-2022 data in this document will be updated once a month, instead of weekly.

Annual death data files are finalized about 15 months after the end of the data year. (i.e., *spring 2023 for 2021 deaths*)

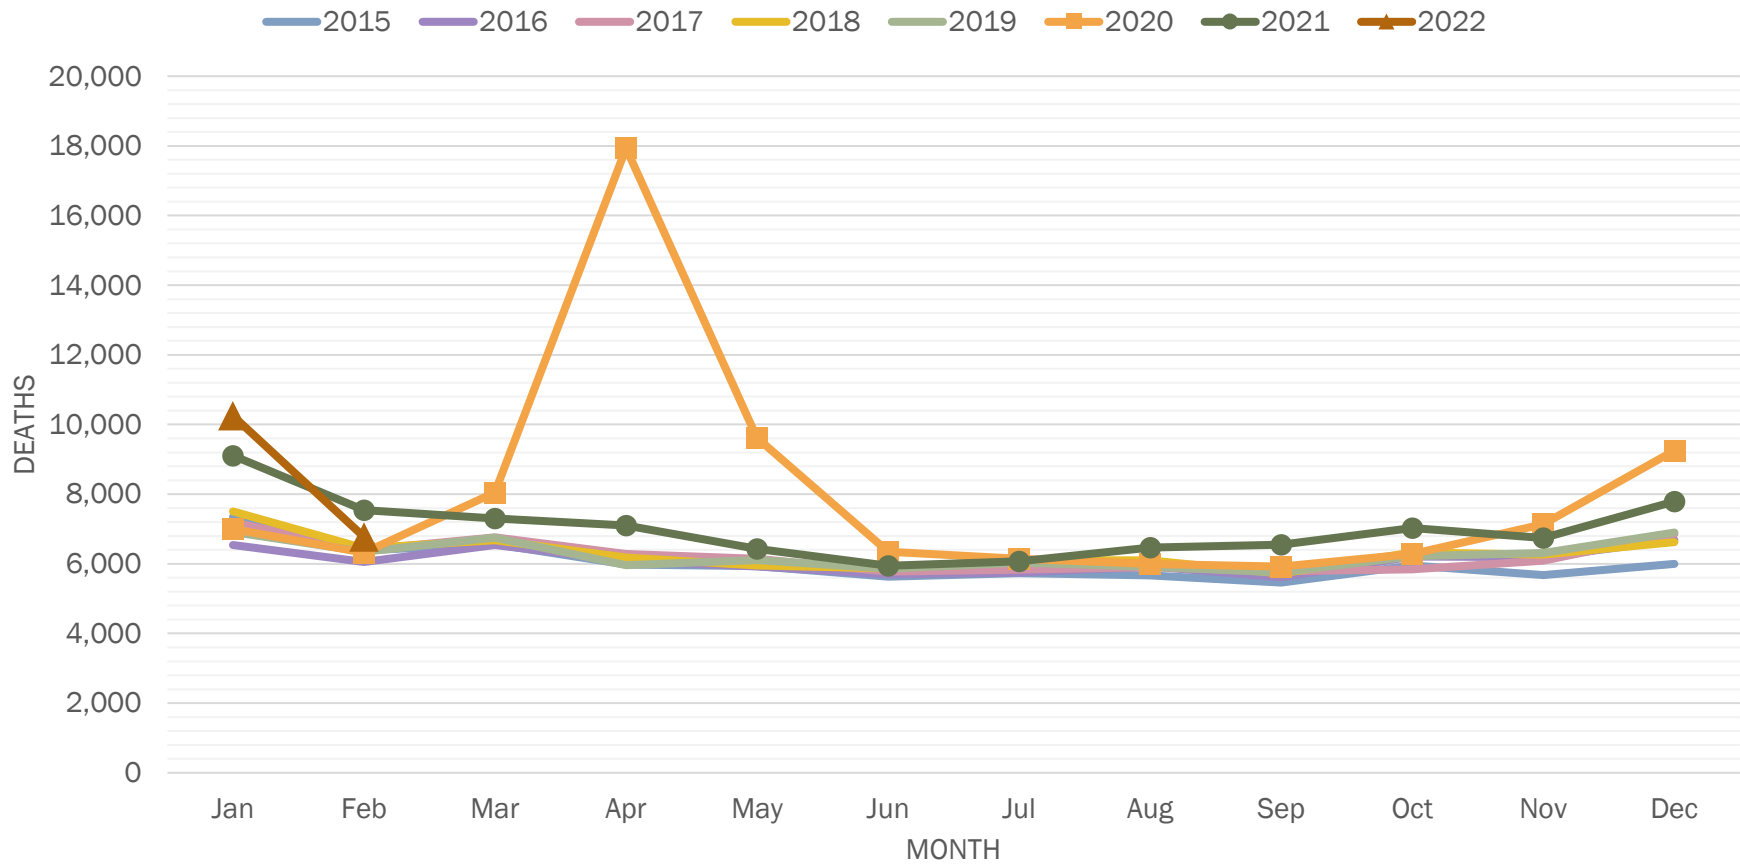

The purpose of this document is to show the effect of COVID-19 on monthly all-cause death counts for each New Jersey county and to compare those counts to monthly counts from previous years.
