

Office of Institutional Planning & Assessment

ANNUAL

INSTITUTIONAL PROFILE

SEPTEMBER 2016

PREFACE

This is the College's 22nd institutional profile. The profile fulfills the 1994 Higher Education Restructuring Act mandate to "prepare and make available to the public an annual report on the condition of the institution." The indicators were originally established by the New Jersey Commission on Higher Education. These include accreditation status, students served, characteristics of undergraduate students, degrees conferred, student outcomes, characteristics of faculty, characteristics of the trustees, a profile of the institution, and public service and major capital projects underway.

This profile is one indicator of our accomplishments and contributions to our community. Our annual Fact Book and Outcomes contains more information and may be obtained from the Office of Institutional Planning and Assessment at Essex County College.

Dr. A. Zachary Yamba Acting President

FOREWORD

This report is the College's 22nd Excellence and Accountability report now known as the *Institutional Profile*. As in the past, this report contains all mandated accountability indicators. These indicators include accreditation status, students served, characteristics of undergraduate students, degrees conferred, student outcomes, faculty characteristics, characteristics of the trustees, a profile of the institution, and major capital projects.

During the Fall 2015 semester, the College served 5,628 full-time students (51.4%) and 5,326 part-time students (48.6%) for a total of 10,954 students. This is a decrease of 514 students or 4.5% from Fall 2014. Our unduplicated head count for FY 15 (July 2014 – June 2015) – which includes Summer II 2014, Fall 2014, Winter Intersession 2014, Spring 2015, and Summer I 2015 – was 15,395 students. The College also served a total of 8,528 non-credit students during FY 15.

The College recognizes that graduation rate and third-semester (Fall-to-Fall) retention rate are important outcome measures. The three-year graduation rate of First-time, Full-time Degree/Certificate Seeking (FTFTDS) students increased from 7.9% to 10.4%. The third-semester retention rate of FTFTDS students decreased slightly from 58.4% to 56.5%.

Essex County College continues to increase its number of graduates. 1,356 degrees and certificates were conferred in FY 15, a decrease of 77 degrees/certificates from FY 14. The largest number of degrees granted was in General Science (201 degrees), followed by Social Sciences (130), Business Administration (123), Education (114), Liberal Arts (98), and Criminal Justice (84). Nationally, the College continues to rank high in the number of minority Associate Degrees awarded. According to the September 7, 2015 issue of *Community College Week*, the College ranked 17th among two-year colleges in the total number of Associate Degrees awarded to African Americans in the 2013-14 academic year.

The demographic characteristics of the student body remained fairly constant compared to prior years. In Fall 2015, the student body was 48.9% Black, 25.6% Hispanic, 8.3% White and 3.3% Asian (unknown and other = 13.9%). The male-to-female ratio was 41.4% male and 58.6% female. 4.8% of our students were less than 18 years old, 18.9% were 18-19, 19.8% were 20-21, 16.4% were 22-24, 14.6% were 25-29, and 25.5% were 30 and older.

Other information such as Spring enrollment, degrees and certificates conferred by program and gender, freshman profile, and licensure pass rate are not presented in this report but may be found in the College's annual *Fact Book and Outcomes*.
