Institutional Profile

2021-2022
Preface

New Jersey City University (NJCU) has been in existence for more than 90 years, and throughout the decades, has stayed true to its mission of access to quality education for a diverse population. The institution has remained an enduring presence within Jersey City and continues to provide educational and economic impact for our students and our communities.

Located in a city that has been named the most diverse in the nation — and ranked among the best public schools in New Jersey for ethnic diversity by U.S. News & World Report — NJCU’s cultural richness provides an ideal environment for creativity and nurturing talent. Students are stimulated and challenged by the wide array of ideas stemming from different cultures, customs, and ways of life, learning firsthand from each other in an intercultural exchange that prepares them to be critical thinkers in a global landscape.

NJCU continues its tradition of encouraging student academic success and is a game changer in the lives of our nearly 7,000 undergraduate, graduate, and doctoral students. We offer one of the most affordable tuitions and the lowest student debt among New Jersey public colleges and universities. Recognized as one of the top colleges in the nation for improving students' upward economic mobility, NJCU is a great return on investment. In fact, 10 years after graduation, students earn 22% more than the national average income.

While studying in one of our 50 undergraduate, 28 graduate and three doctoral degree programs, students receive unparalleled support from highly accomplished professors who bring out and refine students’ academic talents. Those enrolled at the NJCU School of Business benefit from the proximity to Wall Street and study with a Dean and finance professor who was a governor of the New York Stock Exchange (NYSE) and others who have high-level corporate or Wall Street experience. Music, Dance and Theatre students can learn from Grammy-winning musicians, concert pianists, Broadway performers, jazz greats, and opera personalities. NJCU education faculty includes Fulbright scholars, accomplished authors, and professors with international experience. Once they graduate, our students go on to become game changers in their own right—often remaining in New Jersey—as influencers of industry, impactful civic leaders, and inspiring role models in fields ranging from music to nursing and media to education.

Beyond campus, students have opportunities to explore the world and gain invaluable, hands-on experience through study abroad offerings and internships in the most in-demand fields. The Honors Program in the William J. Maxwell College of Arts and Sciences serves high-achieving students who collaborate in a learning community to pursue rigorous study that emphasizes in-depth investigation as well as independent research and a study abroad experience. NJCU offers an accelerated nursing program and the No. 1 Preliminary Bachelor of Science in Nursing (BSN) program in the state, undergraduate STEM research in an overhauled, cutting-edge Science Building, and doctoral programs in national security studies, educational technology leadership, and community college leadership.

The athletics department has developed one of the fastest-growing NCAA Division III athletic programs in the country and continues to be trailblazers on and off the competition surface. NJCU, which has previously been a pioneer in the introduction of women’s sports, became the first college or university in the state and the tristate area to sponsor women’s wrestling. Meanwhile, NJCU’s Rising Knight Institute (RKI), entering its fifth year of existence, has already reached nationally recognized prominence as a holistic student development program for NJCU student-athletes.

NJCU’s School of Business continues to receive statewide attention from the business community for its NJCU New Jersey 50 Index — an index of publicly-traded equity securities designed to be a barometer of the New Jersey economy. Developed by the NJCU School of Business and calculated by S&P Dow Jones Indices, the
NJCU New Jersey 50 Index is a first for New Jersey and the larger tristate area that is the country’s financial hub, and it puts the New Jersey City University School of Business at the forefront of the exchange trader product industry.

Furthermore, the School of Business and Colleges of Arts and Sciences, Education, and Professional Studies consistently provide NJCU students with a world-class, interdisciplinary education in well-established disciplines, but also in launching forward-looking academic programs, such as the first M.S. in Financial Technology in the state, a B.S. in Business Analytics and Data Science, a B.S. in Cybersecurity Studies, and a M.S. in School Nursing with a Specialization in School Nursing. Starting in Fall 2021, NJCU’s School of Business made a groundbreaking change to offer graduate courses in yearlong seven-week (7) sessions instead of the traditional fall, spring and summer semesters. This streamlined, accelerated format allows us to offer more courses and help its graduate students complete their degrees quickly.

NJCU’s role as a game changer took on a new meaning in 2021, when it entered a partnership with the New Jersey Economic Development Authority to create a Sports Wagering and Financial Technology Workforce Development and Innovation Center, which will build upon the school’s expertise in sports management, financial technology, and data analytics to put our students and the state at the forefront of this exciting new field.

NJCU has maintained a presence in Monmouth County for more than 15 years and in August 2021, NJCU launched a new location — NJCU @ Fort Monmouth. As the educational partner in the revitalization of Fort Monmouth, NJCU’s new location will expand bachelor’s and master’s degree offerings along the Jersey Shore, giving the university the only four-year public higher education program in the area.

As the entire world faced the unprecedented challenge of the COVID-19 global pandemic, NJCU was nimble and creative in continuing to provide its students with a high-quality educational experience. We stayed focused on our core mission and made adjustments to pivot to remote delivery while our faculty deftly adjusted their teaching. In the spring of 2021, we offered safe, secure, and robust learning with a mix of in-class, hybrid, hyflex, and online teaching modalities, and while we have since returned to primarily in-person classes, continue to offer academic modality flexibility to best meet the diverse needs of our students.

Even in times of financial uncertainty and no matter the challenges we face, NJCU drives its mission forward in seeking innovative opportunities while preparing for a sustainable and prosperous future. Thus, as we approach our centennial later this decade, we will enable the University to continue its path of providing transformational education for another 100 years and beyond.

Jason Kroll  
Acting President, NJCU

H. MAJOR RESEARCH AND PUBLIC SERVICE ACTIVITIES

In 2022, NJCU announced its participation in the Grow with Google HSI Career Readiness Program. The initiative will help Latino students at 35 Hispanic Serving Institutions (HSIs) prepare for the workforce through digital skills training and career workshops. Through a $2 million investment in the Hispanic Association of Colleges and Universities (HACU), the program will train 200,000 Latino students by 2025. NJCU was selected as one of 20 HACU schools to participate in the program.

In late 2021, NJCU signed a memorandum of understanding (MOU) with the New Jersey Economic Development Authority (NJEDA) to help advance New Jersey’s leadership in the online sports wagering technology and financial technology (fintech) sectors. The MOU will support the creation of a Sports Wagering and Financial Technology Workforce Development and Innovation Center, aligning with
Governor Phil Murphy’s vision for a stronger, fairer New Jersey economy by supporting and growing one of the state’s emerging, innovative industries, with a focus on ensuring diversity and equity.

The NJCU College of Arts and Sciences was awarded a STEM success grant from the U.S. Department of Education specifically for developing Hispanic-Serving Institutions. The college also won a Frontier Set Grant from the American Association of State Colleges & Universities in partnership with the Bill & Melinda Gates Foundation. NJCU is the only university in the state and among only 6 in the nation identified as leaders in transformational change for student success to earn funding under this program.

The NJCU School of Professional Studies continues to be one of the few in the nation with federal designations in both cyber security and intelligence. As such, the school has earned multiple grants from the Defense Intelligence Agency and the National Security Agency (NSA). The most recent award is from the NSA under its Intelligence Community Centers for Academic Excellence (IC CAE) for a Cybersecurity Education Diversity Initiative Coalition (CEDI) with partner Fordham University.

The NJCU College of Education was awarded the Minority Teacher Development Grant (deferred from 2020) to address the critical need to hire and retain a more diverse teacher workforce.

The NJCU School of Business announced a historic partnership with Bank of America, whereby the company will invest $560,000 in the NJCU School of Business and its Career Services Center. This unique grant is the largest single corporate gift and most significant investment in career development in NJCU’s history. The investment is in the form of a four-year grant that will address racial, ethnic, and income inequality and help students of color successfully complete the education and training necessary to enter the workforce and embark on a path to success.

| Table II.H.1.: Research and Development Expenditures |
|-----------------------------------------------|-----|
| Expenditure                                    | Amount |

I. MAJOR CAPITAL PROJECTS

While work continues on University Place — the public-private partnership (P3) redevelopment project that will revitalize the city’s West Side, including the future Guarini Performing Arts Center — the University is conducting an analysis and evaluation of the university’s real estate holdings and how they may relate to the university’s educational mission. As the future of NJCU’s real estate holdings is being determined, no additional major capital initiatives are currently being planned.

As part of its focus on its main campus, the university has requested at least $35 million in capital expense funding from the New Jersey State Legislature’s Joint Budget Oversight Committee. Of this, NJCU has identified at least $25.93M in critical infrastructure needs and another $479,500 in basic
capital and infrastructure needs. Additionally, NJCU has identified another $8,595,500 in strategic capital and infrastructure needs.
