**10:71-4.8 Institutional eligibility; resources of a couple**

(a) In the determination of resource eligibility for an individual requiring long term care, the county board of social services shall establish the combined countable resources of a couple as of the first period of continuous institutionalization beginning on or after September 30, 1989. This determination shall be made upon request for a resource assessment in accordance with N.J.A.C. 10:71-4.9 or at the time of application for Medicaid benefits. The total countable resources of the couple shall include all resources owned by either member of the couple individually or together. The county board of social services shall establish a share of the resources to be attributed to the community spouse in accordance with this section. (No community spouse's share of resources may be established if the institutionalized individual's current continuous period of institutionalization began at any time before September 30, 1989.)

1. The community spouse's share of the couple's combined countable resources is based on the couple's countable resources as of the first moment of the first day of the month of the current period of institutionalization beginning on or after September 30, 1989 and shall not exceed [[$115,920.00] $117,240.00] unless authorized in (a)4 or 5 below. The community spouse's share of the couple's resources shall be the greater of:

   i.  [$23,184.00] $23,448.00;
   
   ii. One half of the couple's combined countable resources.

Persons not determined to be “living in the household of another” who receive in-kind support and maintenance shall be considered to have income in the amount of:
