

DMHAS Opioid Overdose Prevention Programs

The Division of Mental Health and Addiction Services (DMHAS) contracts with three organizations that have established regional (North, Central and South) Opioid Overdose Prevention Programs (OOPP) operating in all of NJ's twenty-one counties for the purpose of providing education to participants so that they can recognize an opioid overdose and subsequently be equipped to provide life-saving rescue measures to reverse the effects of an opioid overdose. Funded OOPPs provide individuals at-risk for overdose, their family members, friends, and loved ones with naloxone rescue kits and educate and train them on how to prevent, recognize and respond to an opioid overdose.

Morris County Prevention is Key (Northern Region)
