

Disabled Adult Children (§1634 DAC)

Eligibility Group Requirements*: An individual who was receiving Supplemental Security Income (SSI) benefits and who meets the following:

- Is at least 18 years of age;
- Has blindness or a disability which began before the age of 22;
- Has been receiving Supplemental Security Income (SSI) based on blindness or disability; and
- Has lost Supplemental Security Income (SSI) due to the receipt of Social Security benefits on a parent's record due to the retirement, death or disability of a parent.

*If the person meets **all** of the above criteria, they may qualify as a Disabled Adult Child under Section 1634 of the Social Security Act (regarding DAC). This designation comes from the Social Security Administration. Eligibility for Medicaid may continue as long as the person is determined blind or disabled. However, if the person receives income from another source or exceeds the resource limits, they may become ineligible for Medicaid coverage

What should an individual do if they lose their SSI benefits and Medicaid coverage because they are now receiving Social Security Disabled Adult Child (DAC) benefits, resulting in their income exceeding the SSI income limit?

You should have received a letter from the Social Security Administration (SSA) verifying that you may continue to be eligible for Medicaid coverage under this eligibility group (§1634 DAC). If you have not received this letter, or no longer have this letter, contact your Social Security Representative by calling 1-800-772-1213 (available Monday – Friday from 7am - 7pm) to request a Benefit Award letter verifying Social Security benefits as a Disabled Adult Child or Disabled Dependent Child who received SSI in the past.
