I. PURPOSE OF FUNDING

The New Jersey Department of Human Services (DHS), Division of Family Development (DFD), the lead agency for the Child Care Development Fund (CCDF), administered through United States Department of Health and Human Services (HHS), Administration for Children and Families (ACF), Office of Child Care (OCC), is charged with improving families’ access to high quality child care services, as well as ensuring the health and safety of children receiving a subsidy. The accessibility of high quality services also means supporting the child care workforce by providing a system of progressive professional development training, education, and scholarships.

Furthermore, with the implementation of Grow NJ Kids, New Jersey's Quality Rating and Improvement System (QRIS), and award of a federal grant called Race to the Top; New Jersey is broadening awareness of the components of quality and is helping to benchmark quality for consumers. New Jersey is also providing additional incentives and resources to programs and creating a stronger infrastructure to support and sustain the quality of programs, regardless of their setting.

DHS/DFD is issuing this Request for Proposals (RFP) for the purpose of making an award to one contractor to provide and manage a high-quality innovative comprehensive Workforce Registry System and related technical assistance services. The system and services will meet and support the unique needs of early childhood, school-age, family child care providers and administrators. This RFP also seeks a contractor with the capacity to manage the enrollment, data collection verification process, as well as manage and monitor the provision of scholarships and grants. The successful bidder will provide:

A. A registry that includes, but is not limited to:

   2. A career lattice – career information and resources; and
   3. An instructor and technical assistance approval process.

The overall goals of the RFP are to (1) implement a statewide comprehensive workforce professional development system to support professional development for early childhood, school-age, and family child care providers, as well as administrators; (2) create a mechanism and online presence concerning the early childhood workforce that allows the user to obtain and access information that will inform program support, system-level professional development planning, policy, and delivery of resources; and (3) create a system that works jointly with Grow NJ Kids, the Department of Children and Families, Office of Licensing and other key partners.

B. The comprehensive system will serve as the foundation for professional development offerings, continuous and progressive professional development and capture early childhood data, trends, and quality improvement activities across program sectors and providers. This will allow a user to evaluate the development of the early childhood workforce and the impact of that development on early childhood practices involving parents, providers, communities, and children.

Budget

The applicant is required to complete the DHS budget utilizing the excel template - Annex B. This will provide details of the proposed budget for the program, including direct and indirect costs and the allocation method proposed for all indirect costs.

The Annex B is available on the website at:

http://www.state.nj.us/humanservices/dfd/info/standard/index.html

The DHS Contract Manuals, also available on this website, include detailed discussion, direction and guidance on completing the Annex B.

The Department will consider the cost efficiency of the proposed budget as it relates to the anticipated level of services. Therefore, applicants must clearly indicate how this funding will be used to meet the project goals and/or requirements. In addition to the required Annex B - Budget, provide a budget narrative for the total annual costs of the proposed project.

The budget should be reasonable and reflect the scope of responsibilities required to accomplish the goals of this project. The budget should reflect the eleven (11) month contract and program operating schedule. Column of the Annex B should be the annual costs of the budget category; column 2 should reflect the proposed program costs for the twelve (12) month period of contract performance. The difference between the annual costs and the program costs (i.e. the 1 month not funded under the contract) should be reflected as unallowable.

All costs associated with the completion of the project must be delineated and the budget narrative must clearly articulate budget items including a description of miscellaneous expenses and other costs.

Note: Charges for G &A expense may not exceed 10% of the total direct service costs of the project. Start-up costs may be available for new agencies.

All requested information must be provided in its entirety - information not completed may negatively impact the review of the proposal and result in overall score

If you have questions regarding the completion of the budget forms, contact the person listed in the RFP for technical assistance.
