FROM:  John J. Hoffman, Acting Attorney General

SUBJECT: Directive to Ensure Uniform Statewide Enforcement of the “Overdose Prevention Act”

DATE:  June 25, 2013

1. Introduction and Overview

    On May 2, 2013, Governor Christie signed into law the “Overdose Prevention Act” as P.L. 2013, c. 46. A copy of the new law is attached. Pursuant to my authority and responsibility under the Criminal Justice Act of 1970, N.J.S.A. 52:17B-97 et seq., to ensure the uniform and efficient enforcement of the criminal laws, I hereby issue this Directive to ensure that all police and prosecuting agencies comply with the requirements of the new law.

    The provisions of the Overdose Prevention Act that are most relevant to law enforcement officers and agencies are codified at N.J.S.A. 2C: 35-30 and 2C:35-31. The overarching purpose of the statute is to encourage persons to seek immediate medical assistance whenever a drug overdose occurs. In the past, there have been instances where persons were reluctant or unwilling to call authorities for help for fear that this might lead to an arrest or prosecution for illegal drug use or possession. It is vitally important that medical assistance be rendered as quickly as possible to
persons who are experiencing a drug overdose. The Governor and Legislature have thus determined that lives can be saved by alleviating the fear of arrest and prosecution that might discourage or delay a call for help. To accomplish this vital goal, the new law provides legal protection in the form of immunity from arrest, prosecution, or conviction for a use or simple possession drug charge when a person, in good faith, seeks medical assistance for him/herself or for another. The request for medical assistance that triggers the law's immunity feature may be made by means of the 9-1-1 telephone emergency system or by any other means.

In order to achieve the salutary goal of the Drug Overdose Prevention Act, all law enforcement officers and prosecutors must be familiar with the new law and take steps to ensure that the legal protections afforded under the statute are respected and uniformly enforced throughout the State.

2. **Specific Crimes and Offenses That Are Subject to Immunity From Arrest and Prosecution**

The Overdose Prevention Act specifically provides that when a person, in good faith, seeks medical assistance for a person believed to be experiencing a drug overdose, whether the person is seeking assistance for him/herself or for another, the person calling for help and the person experiencing the overdose shall not be arrested, charged, prosecuted, or convicted for certain specified criminal offenses. The specified crimes and offenses are as follows:

1) obtaining, possessing, using, being under the influence, or failing to make lawful disposition of any controlled dangerous substance or analog in violation of subsection a., b., or c. of N.J.S.A. 2C:35-10;

2) inhaling the fumes or possessing a toxic chemical in violation of subsection b. of N.J.S.A. 2C:35-10.4;

3) using, obtaining, attempting to obtain, or possessing any prescription legend drug or stramonium preparation in violation of subsection b., d., or e. of N.J.S.A. 2C:35-10.5;

4) acquiring or obtaining a controlled dangerous substance or analog by fraud in violation of N.J.S.A. 2C:35-13;

5) unlawfully possessing a controlled dangerous substance that was lawfully prescribed or dispensed in violation of N.J.S.A. 2C:35-24; and

6) using or possessing with intent to use drug paraphernalia in violation of N.J.S.A. 2C:36-2, or having under control or possessing a hypodermic syringe or other instrument for using a controlled dangerous substance or analog in violation of subsection a. of N.J.S.A. 2C:36-6.
3. **Crimes That Are Not Subject to the Statutory Immunity Feature**

   It is important to note that the immunity from arrest, prosecution, and conviction afforded under the statute applies only to those crimes and offenses that specifically are enumerated in N.J.S.A. 2C:35-30(a)(1-6) and 2C:35-31(a)(1-6), and that are comprehensively set forth in Section 2 of this Directive. These specified drug-related offenses commonly are referred to as “simple possession” offenses. It is critical to note that the statute does not apply to or in any way limit the authority or discretion of law enforcement officers or prosecutors to investigate, arrest or prosecute an offense involving the manufacture, distribution, or possession with intent to distribute an illicit substance or paraphernalia. The legislative findings set forth in the statute make clear in this regard that, “[i]t is not the intent of the Legislature to protect individuals from arrest, prosecution or conviction for other criminal offenses, including engaging in drug trafficking....” N.J.S.A. 24:6J-2.

   Nor does the statute preclude an arrest, prosecution or conviction for the crime of strict liability for drug-induced death in violation of N.J.S.A. 2C:35-9, or the offense of driving while under the influence of an intoxicating substance in violation of N.J.S.A. 39:4-50 or any related drunk/dragged driving offense or indictable crime.

4. **Uniform Statewide Enforcement Policy Where Multiple Persons Collaborate in a Request for Medical Assistance**

   The literal text of the statute affords immunity only to the specific individual who actually sought medical assistance (e.g., the person who placed a 9-1-1 telephone call) and to the person who experienced a drug overdose and was the subject of a good faith request for medical assistance made by another. There may be situations, however, where two or more persons are present when the request for medical assistance is made. Consistent with the spirit of the law and its overriding purpose to reduce disincentives to seeking prompt medical help, where it can reliably be determined that two or more persons were present at the time that the request for medical assistance was made and were aware of and participating in that request, police and prosecutors should proceed as if those persons had collaborated in making the request for medical assistance, even though only one of them actually placed the call to the 9-1-1 emergency system or otherwise made the request for medical assistance. Persons who in this manner collaborated in making the request for medical assistance should not be arrested or prosecuted for an offense enumerated in Section 2 of this Directive.

   This enforcement policy, while arguably not required by the literal terms of the statute, is hereby adopted for sound policy reasons. Persons present at the scene of a drug overdose might be chilled from making a request for medical assistance for fear that such a call to authorities might subject friends, family, or colleagues to arrest or prosecution for drug use or possession. It therefore makes sense to refrain from arresting and/or prosecuting persons who reasonably appear to be associated and collaborating with the person who actually places the call for medical help. This policy is not intended, however, to insulate from arrest and prosecution all persons who happen, for
example, to be in a “crack house” or at a party at which a person experiences an overdose. Rather, it is intended to apply only to those individuals who were aware of and collaborated in the request for medical assistance. For example, police should refrain from arresting a person who was aware that someone else had placed a 9-1-1 call for medical assistance and stayed with the person who was experiencing an overdose until help arrived. This enforcement policy would also apply where a person can demonstrate that he or she left the presence of the overdose victim for the purpose of seeking medical assistance, such as by going to a neighbor’s house to make a 9-1-1 call. It would not apply, however, to those who flee the scene to avoid apprehension without collaborating in a good-faith effort to seek medical assistance, or to any person who had in any way or by any means discouraged others from making a call for assistance.

This enforcement policy is intended to effectuate the goal of encouraging persons to initiate timely requests for medical assistance to the greatest extent feasible. It must be recognized that as a practical matter, police investigating an incident may not be able to establish who is entitled to immunity from arrest and prosecution under the statute (e.g., who placed a 9-1-1 call), much less to establish who may have collaborated in the request for medical assistance for purposes of applying the foregoing enforcement policy. Law enforcement officers and prosecutors are expected to apply the law and this enforcement policy in good faith, recognizing that for practical reasons, persons who seek the benefit of the law’s immunity feature must bear responsibility for establishing the factual basis for immunity from arrest or prosecution.

Nothing herein shall be construed to create any rights, privileges, or immunities beyond those expressly established in the Overdose Prevention Act. Nor does the enforcement policy established in this section in any way limit the authority of prosecutors to argue in litigation that the statutory immunity feature does not apply to any individual.

5. **Inapplicability of Statutory Immunity When Offense is Discovered Independent of a Request for Medical Assistance**

The immunity provisions of the statute apply only when the evidence for an arrest, charge, prosecution or conviction had been obtained as a result of the seeking of medical assistance. N.J.S.A. 2C:35-30(b)(2) and 2C:35-31(b). The immunity feature thus does not extend to simple possession drug offenses that come to the attention of law enforcement by any independent means. Thus, for example, a prosecution for a simple possession drug offense may proceed if the evidence of that offense had been discovered and seized prior to the call for medical assistance (e.g., where police during an encounter see a controlled dangerous substance in plain view and a person on the scene thereafter tells police that he/she or another person is experiencing an overdose and needs medical assistance).
6. Authority to Seize Contraband Even When Immunity Feature Applies

The statute makes clear that it in no way limits the authority of law enforcement officers to seize evidence or contraband, even if the person from whom the evidence was seized is immune from arrest or prosecution for possession of that evidence or contraband. See N.J.S.A. 2C:35-30(c) and 2C:35-31(c).

7. Effective Date and Application to Pending Cases

The new law took effect immediately upon its enactment on May 2, 2013. Any pending prosecution for a covered offense should be dismissed on motion of the prosecutor in any case where the evidence necessary to prove the offense had been discovered or learned about as a result of a good faith call for medical assistance, notwithstanding that the arrest occurred before the effective date of the statute. It is important to note in this regard that the law clearly precludes not only an arrest, but also an ensuing prosecution or conviction. However, any other pending charges relating to evidence seized before May 2, 2013 (e.g., distribution or possession with intent to distribute charges) are not affected by the new law, and such prosecutions involving charges that are not specifically enumerated in N.J.S.A. 2C:35-30(a) or 2C:35-31(a) should be pursued in the normal course.

8. Questions and Controversies

Any questions by police officers or agencies or municipal prosecutors concerning the meaning or implementation of the Overdose Prevention Act should be directed to the appropriate County Prosecutor. Any questions by County Prosecutors concerning the statute should be directed to the Director of the Division of Criminal Justice, or his designee.

If a court invokes the statutory immunity feature over the prosecutor's objection (i.e., in circumstances where the feature should not apply according to the explanation of the law provided in this Directive), the municipal or county prosecutor shall, through the appropriate chain of authority, promptly alert the Director of the Division of Criminal Justice or his designee and should take such actions as may be necessary to preserve the State's right to appeal the decision.

John J. Hoffman
Acting Attorney General

C. Thomas R. Calcagni, First Assistant Attorney General
Lee Vartan, OAG Chief of Staff
CHAPTER 46

AN ACT concerning opioid antidotes and overdose prevention, and supplementing Title 24 of
the Revised Statutes and Title 2C of the New Jersey Statutes.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

C.24:6J-1 Short title.
   1. This act shall be known and may be cited as the “Overdose Prevention Act.”

C.24:6J-2 Findings, declarations relative to overdose prevention.
   2. The Legislature finds and declares that encouraging witnesses and victims of drug
      overdoses to seek medical assistance saves lives and is in the best interests of the citizens of
      this State and, in instances where evidence was obtained as a result of seeking of medical
      assistance, these witnesses and victims should be protected from arrest, charge, prosecution,
      conviction, and revocation of parole or probation for possession or use of illegal drugs.
      Additionally, naloxone is an inexpensive and easily administered antidote to an opioid
      overdose. Encouraging the wider prescription and distribution of naloxone or similarly
      acting drugs to those at risk for an opioid overdose, or to members of their families or peers,
      would reduce the number of opioid overdose deaths and be in the best interests of the citizens
      of this State. It is not the intent of the Legislature to protect individuals from arrest,
      prosecution or conviction for other criminal offenses, including engaging in drug trafficking,
      nor is it the intent of the Legislature to in any way modify or restrict the current duty and
      authority of law enforcement and emergency responders at the scene of a medical emergency
      or a crime scene, including the authority to investigate and secure the scene.

C.24:6J-3 Definitions relative to overdose prevention.
   3. As used in this act:
      “Commissioner” means the Commissioner of Human Services.
      “Drug overdose” means an acute condition including, but not limited to, physical illness,
      coma, mania, hysteria, or death resulting from the consumption or use of a controlled
      dangerous substance or another substance with which a controlled dangerous substance was
      combined and that a layperson would reasonably believe to require medical assistance.
      “Medical assistance” means professional medical services that are provided to a person
      experiencing a drug overdose by a health care professional, acting within the scope of his or
      her lawful practice, including professional medical services that are mobilized through
      telephone contact with the 911 telephone emergency service.
      “Opioid antidote” means naloxone hydrochloride or any other similarly acting drug
      approved by the United States Food and Drug Administration for the treatment of an opioid
      overdose.
      “Health care professional” means a physician, physician assistant, advanced practice
      nurse, or other individual who is licensed or whose professional practice is otherwise
      regulated pursuant to Title 45 of the Revised Statutes, other than a pharmacist, and who,
      based upon the accepted scope of professional authority, prescribes or dispenses an opioid
      antidote.
      “Patient” includes a person who is not at risk of an opioid overdose but who, in the
      judgment of a physician, may be in a position to assist another individual during an overdose
      and who has received patient overdose information as required by section 5 of this act on the
      indications for and administration of an opioid antidote.

4. a. A health care professional or pharmacist who, acting in good faith, directly or through a standing order, prescribes or dispenses an opioid antidote to a patient capable, in the judgment of the health care professional, of administering the opioid antidote in an emergency, shall not, as a result of the professional's acts or omissions, be subject to any criminal or civil liability, or any professional disciplinary action under Title 45 of the Revised Statutes for prescribing or dispensing an opioid antidote in accordance with this act.

b. A person, other than a health care professional, may in an emergency administer, without fee, an opioid antidote, if the person has received patient overdose information pursuant to section 5 of this act and believes in good faith that another person is experiencing an opioid overdose. The person shall not, as a result of the person's acts or omissions, be subject to any criminal or civil liability for administering an opioid antidote in accordance with this act. In addition, the immunity provided for in section 7 or section 8 of P.L.2013, c.46 (C.2C:35-30 or C.2C:35-31) also shall apply to a person acting pursuant to this section, provided that the requirements of section 7 or section 8 also have been met.

C.24:6J-5 Patient overdose information.

5. a. A health care professional prescribing or dispensing an opioid antidote to a patient shall ensure that the patient receives patient overdose information. This information shall include, but is not limited to: opioid overdose prevention and recognition; how to perform rescue breathing and resuscitation; opioid antidote dosage and administration; the importance of calling 911 emergency telephone service for assistance with an opioid overdose; and care for an overdose victim after administration of the opioid antidote.

b. In order to fulfill the distribution of patient overdose information required by subsection a. of this section, the information may be provided by the health care professional, or a community-based organization, substance abuse organization, or other organization which addresses medical or social issues related to drug addiction that the health care professional maintains a written agreement with, and that includes: procedures for providing patient overdose information; information as to how employees or volunteers providing the information will be trained; and standards for documenting the provision of patient overdose information to patients.

c. The provision of patient overdose information shall be documented in the patient's medical record by a health care professional, or through similar means as determined by any written agreement between a health care professional and an organization as set forth in subsection b. of this section.

d. The Commissioner of Human Services, in consultation with Statewide organizations representing physicians, advanced practice nurses, or physician assistants, or community-based programs, substance abuse programs, syringe access programs, or other programs which address medical or social issues related to drug addiction, may develop and disseminate training materials in video, electronic, or other formats to health care professionals or organizations operating community-based programs, substance abuse programs, syringe access programs, or other programs which address medical or social issues related to drug addiction, to facilitate the provision of patient overdose information.

C.24:6J-6 Awarding of grants.

6. a. The Commissioner of Human Services may award grants, based upon any monies appropriated by the Legislature, to create or support local opioid overdose prevention, recognition, and response projects. County and municipal health departments, correctional
institutions, hospitals, and universities, as well as organizations operating community-based programs, substance abuse programs, syringe access programs, or other programs which address medical or social issues related to drug addiction may apply to the Department of Human Services for a grant under this section, on forms and in the manner prescribed by the commissioner.

b. In awarding any grant, the commissioner shall consider the necessity for overdose prevention projects in various health care facility and non-health care facility settings, and the applicant's ability to develop interventions that will be effective and viable in the local area to be served by the grant.

c. In awarding any grant, the commissioner shall give preference to applications that include one or more of the following elements:

(1) prescription and distribution of naloxone hydrochloride or any other similarly acting drug approved by the United States Food and Drug Administration for the treatment of an opioid overdose;

(2) policies and projects to encourage persons, including drug users, to call 911 for emergency assistance when they witness a potentially fatal opioid overdose;

(3) opioid overdose prevention, recognition, and response education projects in syringe access programs, drug treatment centers, outreach programs, and other programs operated by organizations that work with, or have access to, opioid users and their families and communities;

(4) opioid overdose recognition and response training, including rescue breathing, in drug treatment centers and for other organizations that work with, or have access to, opioid users and their families and communities;

(5) the production and distribution of targeted or mass media materials on opioid overdose prevention and response;

(6) the institution of education and training projects on opioid overdose response and treatment for emergency services and law enforcement personnel; and

(7) a system of parent, family, and survivor education and mutual support groups.

d. In addition to any moneys appropriated by the Legislature, the commissioner may seek money from the federal government, private foundations, and any other source to fund the grants established pursuant to this section, as well as to fund on-going monitoring and evaluation of the programs supported by the grants.

C.2C:35-30 Immunity from liability, certain circumstances, for persons seeking medical assistance for someone experiencing a drug overdose.

7. a. A person who, in good faith, seeks medical assistance for someone experiencing a drug overdose shall not be:

(1) arrested, charged, prosecuted, or convicted for obtaining, possessing, using, being under the influence of, or failing to make lawful disposition of, a controlled dangerous substance or controlled substance analog pursuant to subsection a., b., or c. of N.J.S.2C:35-10;

(2) arrested, charged, prosecuted, or convicted for inhaling the fumes of or possessing any toxic chemical pursuant to subsection b. of section 7 of P.L.1999, c.90 (C.2C:35-10.4);

(3) arrested, charged, prosecuted, or convicted for using, obtaining, attempting to obtain, or possessing any prescription legend drug or stramonium preparation pursuant to subsection b., d., or e. of section 8 of P.L.1999, c.90 (C.2C:35-10.5);
(4) arrested, charged, prosecuted, or convicted for acquiring or obtaining possession of a controlled dangerous substance or controlled substance analog by fraud pursuant to N.J.S.2C:35-13;

(5) arrested, charged, prosecuted, or convicted for unlawfully possessing a controlled dangerous substance that was lawfully prescribed or dispensed pursuant to P.L.1998, c.90 (C.2C:35-24);

(6) arrested, charged, prosecuted, or convicted for using or possessing with intent to use drug paraphernalia pursuant to N.J.S.2C:36-2 or for having under his control or possessing a hypodermic syringe, hypodermic needle, or any other instrument adapted for the use of a controlled dangerous substance or a controlled substance analog pursuant to subsection a. of N.J.S.2C:36-6;

(7) subject to revocation of parole or probation based only upon a violation of offenses described in subsection a. (1) through (6) of this section, provided, however, this circumstance may be considered in establishing or modifying the conditions of parole or probation supervision.

b. The provisions of subsection a. of this section shall only apply if:

(1) the person seeks medical assistance for another person who is experiencing a drug overdose and is in need of medical assistance; and

(2) the evidence for an arrest, charge, prosecution, conviction, or revocation was obtained as a result of the seeking of medical assistance.

c. Nothing in this section shall be construed to limit the admissibility of any evidence in connection with the investigation or prosecution of a crime with regard to a defendant who does not qualify for the protections of this act or with regard to other crimes committed by a person who otherwise qualifies for protection pursuant to this act. Nothing in this section shall be construed to limit any seizure of evidence or contraband otherwise permitted by law. Nothing herein shall be construed to limit or abridge the authority of a law enforcement officer to detain or take into custody a person in the course of an investigation or to effectuate an arrest for any offense except as provided in subsection a. of this section. Nothing in this section shall be construed to limit, modify or remove any immunity from liability currently available to public entities or public employees by law.

C.2C:35-31 Protections for certain persons experiencing a drug overdose.

8. a. A person who experiences a drug overdose and who seeks medical assistance or is the subject of a good faith request for medical assistance pursuant to section 4 of this act shall not be:

(1) arrested, charged, prosecuted, or convicted for obtaining, possessing, using, being under the influence of, or failing to make lawful disposition of, a controlled dangerous substance or controlled substance analog pursuant to subsection a., b., or c. of N.J.S.2C:35-10;

(2) arrested, charged, prosecuted, or convicted for inhaling the fumes of or possessing any toxic chemical pursuant to subsection b. of section 7 of P.L.1999, c.90 (C.2C:35-10.4);

(3) arrested, charged, prosecuted, or convicted for using, obtaining, attempting to obtain, or possessing any prescription legend drug or stramonium preparation pursuant to subsection b., d., or e. of section 8 of P.L.1999, c.90 (C.2C:35-10.5);

(4) arrested, charged, prosecuted, or convicted for acquiring or obtaining possession of a controlled dangerous substance or controlled substance analog by fraud pursuant to N.J.S.2C:35-13;
(5) arrested, charged, prosecuted, or convicted for unlawfully possessing a controlled
dangerous substance that was lawfully prescribed or dispensed pursuant to P.L.1998, c.90
(C.2C:35-24);
(6) arrested, charged, prosecuted, or convicted for using or possessing with intent to use
drug paraphernalia pursuant to N.J.S.2C:36-2 or for having under his control or possessing a
hypodermic syringe, hypodermic needle, or any other instrument adapted for the use of a
controlled dangerous substance or a controlled substance analog pursuant to subsection a. of
N.J.S.2C:36-6;
(7) subject to revocation of parole or probation based only upon a violation of offenses
described in subsection a. (1) through (6) of this section, provided, however, that this
circumstance may be considered in establishing or modifying the conditions of parole or
probation supervision.
   b. The provisions of subsection a. of this section shall only apply if the evidence for an
arrest, charge, prosecution, conviction or revocation was obtained as a result of the seeking of
medical assistance.
   c. Nothing in this section shall be construed to limit the admissibility of any evidence in
connection with the investigation or prosecution of a crime with regard to a defendant who
does not qualify for the protections of this act or with regard to other crimes committed by a
person who otherwise qualifies for protection pursuant to this act. Nothing in this section
shall be construed to limit any seizure of evidence or contraband otherwise permitted by law.
Nothing herein shall be construed to limit or abridge the authority of a law enforcement
officer to detain or take into custody a person in the course of an investigation or to
effectuate an arrest for any offense except as provided in subsection a. of this section.
Nothing in this section shall be construed to limit, modify or remove any immunity from
liability currently available to public entities or public employees by law.

9. Sections 1 through 6 of this act shall take effect on the first day of the second month
next following enactment, except that the Commissioner of Human Services shall take any
anticipatory action in advance thereof as shall be necessary for the implementation of this act
and sections 7 and 8 shall take effect immediately.

Approved May 2, 2013.
