## Warm weather advice to keep you healthy

*From the desk of Katheryn E. Wierzbicki, RN, BSN, QA Coordinator  
Division of Veterans Healthcare Services*

The warm weather is here. Don't let a heat-related illness spoil your day.

People suffer heat-related illness when the body's temperature control system is overloaded. The body normally cools itself by sweating, but when the humidity is high, sweat will not evaporate as quickly, preventing the body from releasing heat quickly.

### **Who is at greatest risk for heat-related illness?**

Infants, children up to 4 years of age, people 65 years and older, overweight people, and people who are ill or taking certain medications. Also at risk are people who must work or exercise in a hot environment.

"Stages" of Heat-Related Illnesses

### **HEAT CRAMPS**

Heat cramps are muscle pains or spasms – usually in the abdomen, arms or legs –

that may occur in association with strenuous activity. People who sweat a lot during strenuous activity are prone to heat cramps.

### Heat Cramps Treatment –

- Stop all activity and sit quietly in a cool place.
- Drink water, clear juice, or a sports beverage.
- Do NOT return to strenuous activity for a few hours after the cramps subside because further exertion may lead to heat exhaustion or heat stroke.
- Seek medical attention for heat cramps if they do not subside in 1 hour.

### **HEAT EXHAUSTION**

Heat exhaustion is a milder form of heat-related illness that can develop after several days of exposure to high temperatures and inadequate or unbalanced replacement of fluids. The elderly, people with high blood pressure, and those working or exercising in a hot environment are most prone to heat exhaustion.

- Warning signs of heat exhaustion include:

  - Call 911 if person refuses fluids, vomits, or loses consciousness

### **HEAT STROKE**

Heat stroke, also known as sunstroke, is the most serious heat-related illness.

Heat stroke is life threatening. It occurs when *the body becomes unable to control its temperature*. The body temperature rises rapidly, the sweating mechanism fails, and the body is unable to cool down

  - Extremely high body temperature (above 103°F)
  - Red, hot and dry skin (no sweating)
  - Rapid, strong pulse

  - Dizziness
  - Nausea

  - Unconsciousness – brain damage can occur if the body is not cooled quickly.

### Heat Stroke Treatment –

- Call 911 or EMS/ambulance immediately. This may be a life-threatening crisis.
- Move the person to a cooler place out of the heat.
- TAKE STEPS TO REDUCE BODY TEMPERATURE - Cool the victim rapidly (e.g. immerse victim in a tub of cool water or place in cool shower; spray victim with cool water from a garden hose; sponge victim with cool water; apply ice packs, etc.)
  - Keep victim lying down until ambulance arrives.
  - Preventing Heat-Related Illnesses – General Guidelines

### **Honorable Mention**

#### **Honor Guard program searching for people**

Looking for a way to serve and get some satisfaction at the same time? The Honor Guard program is looking for members of the Army and Air Guard to join the team to perform honor guard duties at the funerals of veterans. There is an initial eight hours of training for all new enrollees, with on-going sustainment training. As an honor guard member, you will receive a day of pay for each day's mission, minimum of \$50, and traditional drilling Guard members receive a retirement point for each day's duties.

Teams are split geographically throughout the state and volunteers can stay busy. In April 2007, the teams conducted 205 services for deceased veterans. By May15, there were 120 funerals where the team performed their duties. Retired Sgt. Maj. Ed Goetschius, who oversees the program, believes that there will be at least 2,000 services where the honor guard has served by the end of the year.

If you are interested in applying for the Honor Guard program, call Goetschius at 609-530-7090.

There are many scholarships available to military family members. The Better Business Bureau (BBB) Military Line suggests that you not pay someone to find scholarships for you. Why? Because these researchers will use the same sources on the internet that you will use, so why pay them to do so? For suggestions on where to find scholarships for which you might be eligible, visit: [www.enebuilder.net/cbbb\\_military/e\\_article-000694547.cfm?x=b8r7v3](http://www.enebuilder.net/cbbb_military/e_article-000694547.cfm?x=b8r7v3).
