revenues established in their last base rate case were $100,000,000, then the DSIC cap would be calculated as follows:

Total annual revenues from most recent base rate case of $100,000,000 x 5.00% = $5,000,000

The Company’s DSIC Revenue Requirement Recovery
Amount in the above example cannot be greater than $5,000,000 per year.

Airport Grant and Loan Program

Adopted Amendments: N.J.A.C. 16:56-2.1, 3.1, and 4.1

Adopted: July 13, 2017, by Richard T. Hammer, Commissioner, Department of Transportation.
Filed: July 13, 2017, as R.2017 d.150, with non-substantial changes not requiring additional public notice and comment (see N.J.A.C. 1:30-6.3).
Effective Date: August 7, 2017.
Expiration Date: February 27, 2021.

Summary of Public Comment and Agency Response:

One comment was received from Robert Checchio, V.P. for Legislative Affairs, Mid-Atlantic Aviation Coalition.

COMMENT: Mr. Checchio states that the current process creates obstacles by requiring that airport sponsors pay for all planning, design, and engineering costs, as well as up to 25 percent of construction costs on certain projects. These requirements have caused a drop in grant applications and, eventually, there will be a degradation in the State airport system. The system is vital to the economics of New Jersey. Mr. Checchio believes that the proposed changes will eliminate the problems and will result in significant improvements at the State airports.

RESPONSE: The Department thanks Mr. Checchio for his observations and comments.
