Please check the appropriate box below that best describes your dealership's proposed licensed location and return to the Commission with the documentation indicated in each choice.

LOCATION TYPE "A"

Located in a building where there is a single business or multiple businesses with a single common identity of ownership.

LOCATION TYPE "B"

Located in a building that contains one or more business entities and a New Jersey motor vehicle dealer had a valid license in this multi-unit facility as of March 6, 2006 and:

- The interior walls of the dealership are separate and independent from any wall of any other licensed dealership or other business occupying the same building. The building also has a fire suppression system that has been approved by the local building code official (or State DCA) for the applicant's facility.
You must also submit a separate certification from the municipal building official or a licensed professional architect attesting to the type of walls. The certification must include this statement:
"The building has a fire suppression system that has been approved by the local building code official (or State DCA) for the applicant's facility, interior walls, each of which must be constructed separately and independently from any other wall of any other proposed or licensed dealership or other business occupying the same premises."

OR

- The interior walls of the dealership are firewalls as defined by the International Building Code, where no other approved fire suppression system exists;
You must also submit a separate certification from the municipal building official or a licensed professional architect attesting to the type of walls. The certification must include this statement:
"The wall meets all requirements and is deemed to be a firewall as described in the current International Building Code-New Jersey edition Chapter 7, section 706, subsections 1 through 11."

LOCATION TYPE "C"

Located in a building that contains one or more business entities and a New Jersey motor vehicle dealer did not have a valid license in this multi-unit facility as of March 6, 2006.
You must also submit a separate certification from the municipal building official or a licensed professional architect attesting to the type of walls. The certification must include this statement:
"The wall meets all requirements and is deemed to be a firewall as described in the current International Building Code-New Jersey edition Chapter 7, section 706, subsections 1 through 11."

I certify that the foregoing statements made by me are true. I am aware that if any of the foregoing statements are false, I am subject to punishment.
