To Whom It May Concern:

I have been informed that an air pollution permit is no longer required by the Department as established in N.J.A.C. 7:27-8.2(a) (Eleventh Amendment operative June 12, 1998) since my coating application will **NEVER EXCEED** ½ GALLON PER HOUR AND MY Spray booth DOES NOT contain a heating device with a rating of 1,000,000 BTU's or greater. As such, I am requesting deletion of the following surface coating permit(s) /certificate(s) and hereby certify under penalty of law that I believe the information provided in this document is true, accurate, and complete.

I understand that if at any time our coating rate does exceed the applicability threshold of ½ gallon in any one hour or the heating device does equal or exceeds 1 million BTU's, it is my responsibility to apply for the necessary permit(s) and certificate(s).

I further understand that if I exceed these thresholds and fail to apply for the necessary permit(s) and certificate(s) I may be subject to an enforcement action which may include civil and criminal penalties, including the possibility of fine or imprisonment or both, for submitting false, inaccurate or incomplete information.
