

Dare to Prepare

A Pre-Permit Workshop for Parents
and Teens

AAA/CAA Driver Training Operations

Dare to Prepare

- Targets issues that teen drivers will face as they begin to drive
- Focuses on concept and messages that teens and parents would not normally receive during a traditional driver education course

Dare to Prepare

- Driving as a privilege
- Working with parents during the learning-to-drive process
- Teen crash statistics
- Graduated driver licensing

Dare to Prepare

- The program is not intended to replace driver's education or even to substantially overlap such a course.
- It is a supplementary program designed to facilitate early discussion of driving safety issues and to be delivered before teens receive the learner's permit.

Dare to Prepare

- The program is intended to increase parents and teens total exposure to traffic safety messaging throughout their career as developing drivers.
- It is a well rounded interactive program designed to spread awareness of multiple traffic safety issues tailored directly to not-yet-licensed teens.

Dare to Prepare

- Increase the amount of teen exposure to traffic safety issues
- Increase parental involvement in the learning-to-drive process
- Promote safe teen drivers
