The agency proposal follows:
The State Board of Marriage and Family Therapy Examiners (the Board) is proposing to readopt N.J.A.C. 13:34 with amendments and new rules. These rules are scheduled to expire on March 22, 2009, pursuant to Executive Order No. 66 (1978). Because this notice of proposed readoption has been filed on or prior to March 22, 2009, the expiration date of the rules in Chapter 34 are extended by 180 days, to September 18, 2009, pursuant to N.J.S.A. 52:14B-5.1c.

In compliance with Executive Order No. 66 (1978), the Board undertook a thorough review of the existing provisions of N.J.A.C. 13:34 in order to delete unnecessary or unreasonable rules and to clarify existing provisions. The Board notes that with respect to the rules concerning professional counselors, associate counselors and rehabilitation counselors, set forth in subchapters 11 through 30, the Board conducted its review in consultation with the Professional Counselor Examiners Committee (the Committee). The Board believes that the rules proposed for readoption, as amended, are necessary, reasonable, understandable and responsive to the purposes for which they were promulgated.

The following is a summary of the existing rules of Chapter 34 that the Board proposes to readopt with amendments, as well as a summary of proposed repeals and new rules.

Subchapter 1 sets forth general provisions with respect to marriage and family therapy practice. N.J.A.C. 13:34-1.1, which establishes the Board's fee schedule, is proposed to be readopted without change. N.J.A.C. 13:34-1.2, which sets forth the scope of practice of marriage and family therapy, currently provides that marriage and family therapy is a specialized field of therapy. The Board is proposing to amend the scope of practice to clarify that marriage and family therapy is a specialized field of psychotherapy. The Board is proposing to amend N.J.A.C. 13:34-1.3, which provides contact information for the Board office, to include the Board's website address. Licensees and members of the general public may access the website in order to obtain relevant, up-to-date information about the Board. The Board is also proposing to amend N.J.A.C. 13:34-1.4 and 1.5, which provide that a current list of Board licensees, application forms and other information regarding licensure may be obtained by contacting the Board office, to provide that this information also may be obtained on the Board's website.

N.J.A.C. 13:34-1.6 requires licensees to display a notice to clients advising them of the address where complaints can be made. The Board is proposing to amend the rule to require the notice to contain the Board and Division website addresses. N.J.A.C. 13:34-1.7, which requires all hearings to be conducted consistent with the requirements of the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and N.J.A.C. 13:34-1.8, which requires licensees to notify the Board concerning changes of address, are proposed to be readopted without change.

N.J.A.C. 13:34-1.9 requires a licensee to notify the Board of a legal name change and delineates what documentation the licensee must submit to the Board. Currently, a licensee must submit his or her original license and a copy of his or her passport or social security card. The proposed amendment requires a licensee to submit copies of two forms of identification, one of which must be United States government-issued or State government-issued photo identification. The Board believes that the proposed amendment is necessary to deter fraudulent conduct by helping to ensure the identity of persons applying for replacement licenses.

N.J.A.C. 13:34-1.10 sets forth requirements for license renewal and the election of inactive status. The Board is proposing an amendment to subsection (b) of the rule, which requires the Board to send a notice of renewal to all licensees at least 60 days prior to the date of license expiration. The proposed amendment clarifies when a licensee may be fined for continuing to practice if the Board fails to send out the renewal applications in a timely manner. The Board is also proposing technical amendments to N.J.A.C. 13:34-1.10 to correct current references to “applicant.” The amendments clarify that the referenced individual in the affected subsections is a “licensee.” In addition, the Board is proposing to amend subsection (f), which currently permits licensees to change from inactive to active status upon submission of evidence that the licensee has completed continuing education credits for the current renewal period. Consistent with the provisions of N.J.S.A. 45:1-7.3, the Board is proposing to amend N.J.A.C. 13:34-1.10(f) to require a
licensee who seeks to return to active status to submit a completed renewal application, a renewal fee, an affidavit of employment and evidence of having completed the number of continuing education hours required for license renewal for the biennial period. The licensee must have completed the continuing education hours within three years prior to the date of application. The Board is also proposing new N.J.A.C. 13:34-1.10(g), which provides that a licensee may not use any of the continuing education hours completed for the return to active status toward satisfaction of the continuing education hours required for the renewal of his or her license once he or she has been returned to active status.

N.J.A.C. 13:34-1.11 provides that the Board shall reinstate the license of an applicant whose license has been suspended for failure to renew provided that the applicant otherwise qualifies for licensure. The Board is proposing to repeal existing rule N.J.A.C. 13:34-1.11 and is proposing a new rule in its place that will provide direction to licensees with respect to what steps they must follow in order to be reinstated. The proposed new rule provides that an individual whose license has been suspended for failure to renew for a period of five years or less shall be reinstated by the Board upon submission of a completed reinstatement application, a reinstatement fee and all past delinquent biennial renewal fees, an affidavit of employment, any outstanding penalties imposed by the Board and evidence that the individual has maintained proficiency by completing the number of continuing education hours required for the renewal of an active license. The continuing education hours must have been completed within three years prior to the date of application for reinstatement. An individual whose license has been suspended for a period of more than five years must submit a completed reinstatement application, a reinstatement fee and all past delinquent biennial renewal fees, an affidavit of employment and any outstanding penalties imposed by the Board and evidence that the individual has maintained proficiency by completing the number of continuing education hours required for the renewal of an active license. The continuing education hours must have been completed within three years prior to the date of application for reinstatement. An individual whose license has been suspended for a period of more than five years must submit a completed reinstatement application, a reinstatement fee and all past delinquent biennial renewal fees, an affidavit of employment and any outstanding penalties imposed by the Board and must also retake and pass the licensing examination within one year of the date of application. Proposed new rule N.J.A.C. 13:34-1.11 also provides, consistent with the proposed amendments to N.J.A.C. 13:34-1.10(g) discussed above, that a licensee who is reinstated may not use any continuing education hours completed for the reinstatement toward satisfaction of the hours required for the renewal of his or her license once he or she has been reinstated.

N.J.A.C. 13:34-2.1 defines activities that, if engaged in by licensed marriage and family therapists, will be deemed professional misconduct. [page=1947] The Board is proposing to amend the portion of the rule that refers to a licensee's election to cease practicing, to provide a cross reference to the Board's rules in Subchapter 8, to ensure that a licensee complies with current record retention requirements even when he or she temporarily suspends his or her practice. The Board is proposing that N.J.A.C. 13:34-2.2, concerning professional interactions with clients, be readopted without change.

Subchapter 3, which concerns the practice of marriage and family therapy by certain unlicensed individuals, is proposed to be readopted without change. N.J.A.C. 13:34-3.1 delineates permissible activities for unlicensed persons employed by certain organizations, institutions or agencies exempt from licensure pursuant to N.J.S.A. 45:8B-6. N.J.A.C. 13:34-3.2 defines a bona fide community agency. N.J.A.C. 13:34-3.3 concerns the supervision of employees and interns. N.J.A.C. 13:34-3.4 concerns advertising by unlicensed persons. N.J.A.C. 13:34-3.5, 3.6 and 3.7 are reserved.

Subchapter 4 sets forth licensure and application requirements for marriage and family therapists. N.J.A.C. 13:34-4.1 establishes general requirements for licensure. The Board is proposing to repeal existing rule N.J.A.C. 13:34-4.1 and is proposing a new rule in its place to clarify requirements and procedures for obtaining a license. N.J.A.C. 13:34-4.1 continues to provide that an applicant for licensure as a practicing marriage and family therapist must submit an application and fee, must be at least 21 years of age and must be of good moral character. In addition, an applicant shall not be engaged in any practice or conduct upon which the Board would have grounds to refuse to issue a license pursuant to N.J.S.A. 45:1-21 et seq. Proposed new rule N.J.A.C. 13:34-4.1 also provides that an applicant must satisfy educational requirements for licensure and that an official transcript documenting satisfaction of these requirements must be sent to the Board directly from the college or university. In addition, the applicant must satisfy experience requirements and must submit documentation of required supervision to the Board. Consistent with the requirements of N.J.S.A. 49:3-56(p), an applicant for licensure must submit his or her fingerprints and written consent for a criminal history record check to be performed. The proposed new rule clarifies that, upon satisfaction of the listed requirements, an applicant will be authorized by the Board to take the National Marriage and Family Therapy
Examination. Upon successful passage of the examination and upon submission of the initial licensing fee, an applicant will be granted a license by the Board.

_N.J.A.C. 13:34-4.2_ concerns educational requirements for licensure. The Board is proposing to delete existing subsection (a) because the educational requirements set forth in the subsection are set forth in other provisions of the rule and are, therefore, redundant. In addition, the Board believes that existing subsection (a) should be deleted because the authority granted to the Board to refuse to admit to the examination any person who appears to take the examination in a diminished mental state or who demonstrates inappropriate or offensive behavior, is no longer relevant as the Board no longer administers the licensing examination. Existing paragraph (a)1 is proposed to be recodified as subsection (a) with minor amendments. The Board is also proposing minor amendments to subsections (b) and (c) of the rule for clarification purposes.

The Board is proposing to amend _N.J.A.C. 13:34-4.3_, which sets forth experience requirements for licensure, to delete the existing cross-reference in the rule to the requirements in _N.J.A.C. 13:34-4.2_. The Board believes that the cross-reference, which concerns educational requirements, is confusing as the provisions in _N.J.A.C. 13:34-4.3_ concern experience requirements.

The Board is proposing a new rule at _N.J.A.C. 13:34-4.4_ to clarify what requirements individuals licensed in other states must satisfy in order to qualify for licensure in New Jersey. The proposed new rule provides that an applicant who holds a current, active license or certification as a marriage and family therapist in another state will be issued a license in New Jersey if the other state's requirements are substantially equivalent to the Board's requirements in Chapter 34.

Subchapter 5 establishes requirements for marriage and family therapy temporary permit holders and their qualified supervisors. The Board is proposing to readopt _N.J.A.C. 13:34-5.1_, which concerns definitions of terms used throughout the subchapter, without change. _N.J.A.C. 13:34-5.2_ delineates requirements for temporary permit applications. The Board is proposing to amend the rule in order to clarify what information must be submitted by such applicants. Paragraphs (a)1 and 2, which require applicants to submit an application form and a plan of supervision, are proposed to be deleted. An application form and a plan of supervision continue to be required under the proposed amendments to the rule, but the requirements have been recodified. As amended, _N.J.A.C. 13:34-5.2_ provides that an applicant for a temporary permit must submit a completed permit application. An applicant must satisfy the educational requirements set forth in _N.J.A.C. 13:34-4.2_ and a transcript documenting satisfaction of these requirements must be sent to the Board directly from the school. The applicant must submit a clinical marriage and family therapy supervision plan. The plan must include a detailed job description and the location(s) where client contact and supervision will occur. The applicant must submit the supervisor's resume or curriculum vitae, which demonstrate that the supervisor has at least five full-time years of professional marriage and family therapy practice experience or the equivalent and holds either a current, active New Jersey license to practice as a marriage and family therapist or has satisfied the educational requirements in _N.J.A.C. 13:34-4.3_. Applicants must also submit their fingerprints and written consent for a criminal history record check and the permit application fee set forth at _N.J.A.C. 13:34-1.1_.

_N.J.A.C. 13:34-5.3_ and _5.4_, which set forth supervisor and temporary permit holder responsibilities, are proposed to be readopted without change. _N.J.A.C. 13:34-5.5, 5.6_ and _5.7_ remain reserved.

The rules in Subchapter 6 delineate general obligations of licensed marriage and family therapists. The Board is proposing to readopt _N.J.A.C. 13:34-6.1_, concerning financial arrangements with clients and _N.J.A.C. 13:34-6.2_, concerning conflicts of interest, without change. _N.J.A.C. 13:34-6.3_ concerns the termination of services. The Board is proposing a new subsection (d) to provide that a licensee who intends to cease to engage in practice or anticipates that he or she will remain out-of-practice for more than three months must provide notice to his or her clients consistent with the requirements of _N.J.A.C. 13:34-2.1_.

_N.J.A.C. 13:34-6.4_ concerns sexual misconduct and harassment. The Board is proposing to amend _N.J.A.C. 13:34-6.4_ to prohibit licensees from seeking, soliciting or engaging in sexual contact with a current or former client's
immediate family members. The Board believes that the extension of its current prohibition against sexual contact to expressly include immediate family members of clients and former clients is reasonable in light of the pivotal role that family members often play in a client's therapy. The Board is proposing that N.J.A.C. 13:34-6.5, which requires a licensee to notify the Board of misconduct by another licensee, N.J.A.C. 13:34-6.6, which prohibits solicitations and unethical referrals and N.J.A.C. 13:34-6.7, which prohibits licensees from charging excessive fees, be readopted without change. N.J.A.C. 13:34-6.8 remains reserved.

N.J.A.C. 13:34-7.3 establishes minimum content requirements for licensee advertisements. Currently, the rule requires licensees to include their name, license number and licensure status, in addition to their address, on all advertisements and professional representations. The Board is proposing to amend N.J.A.C. 13:34-7.3 in order to clarify these requirements. The proposed amendments require advertisements to include the words "Licensed Marriage and Family Therapist" or the initials "LMFT," followed by the licensee's 12-digit license number.

The Board is proposing to readopt the rules in Subchapter 8, concerning marriage and family therapy client records, without change. N.J.A.C. 13:34-8.1 concerns the preparation and maintenance of client records. N.J.A.C. 13:34-8.2 establishes requirements for computerized client records. N.J.A.C. 13:34-8.3 requires licensees to maintain the confidentiality of client records.

The rules in Subchapter 9 concern continuing education for licensed marriage and family therapists. The Board is proposing to readopt N.J.A.C. 13:34-9.1, which sets forth continuing education requirements for license renewal, without change. N.J.A.C. 13:34-9.2 provides that marriage and family therapists must complete 40 contact hours of continuing education directly related to the profession of marriage and family therapy during each biennial renewal period. The Board is proposing to amend N.J.A.C. 13:34-9.2(a) to require licensees to obtain at least 20 hours through face-to-face instruction because the Board believes that licensees will receive the greatest benefit from continuing education courses that allow them to personally interact with a live instructor. N.J.A.C. 13:34-9.3 concerns requirements for obtaining Board approval of continuing education programs and courses. Paragraph (a)1 provides a list of entities whose courses and programs are deemed acceptable sources of continuing education. The Board is proposing to amend paragraph (a)1 to include courses and programs approved by the Association for Marriage and Family Therapy Regulatory Boards, the International Family Therapy Association and the Council on Licensure, Enforcement and Regulation. The Board is also proposing an amendment to paragraph (c)2 of the rule, which currently provides that courses in personal and professional ethics are acceptable content areas for continuing education. The Board is proposing to amend paragraph (c)2 to delete the reference to "personal ethics" and to clarify that professional ethics courses must be specifically related to the practice of marriage and family therapy in order to be deemed acceptable.

The Board is proposing that N.J.A.C. 13:34-9.4, which concerns contact hour calculations, N.J.A.C. 13:34-9.5, which sets forth continuing education documentation requirements and N.J.A.C. 13:34-9.6, which provides for the waiver of continuing education requirements, be readopted without change.

The rules in Subchapters 10 through 30 concern professional counseling and rehabilitation counseling practice. Specifically, the rules in Subchapters 10 through 19 concern professional and associate counselor practice. The rules in Subchapters 20 through 28 concern rehabilitation counseling practice. The rules in Subchapters 29 and 30 are applicable to both professional and rehabilitation counseling practice. Because various requirements in Subchapters 10 through 19 are also imposed in Subchapters 20 through 28, for purposes of this rulemaking, those rules are discussed together.
The rules in Subchapter 10, concerning professional and associate counselors, and Subchapter 20, concerning rehabilitation counselors, establish scope of practice. The Board is proposing to readopt N.J.A.C. 13:34-10.1 and 20.1, which set forth the purpose and scope of the respective subchapters, with clarifying amendments to subsections (c) of both rules.

N.J.A.C. 13:34-10.2 and 20.2 set forth definitions for the respective subchapters. The Board is proposing to amend the definition of "counseling procedures" in N.J.A.C. 13:34-10.2 in order to correct the current references to "consultees." All existing references to "consultees" are proposed to be amended to refer to "clients," for consistency with the current provisions of Chapter 34. The Board is proposing to move several of the definitions currently set forth in N.J.A.C. 13:34-11.1 to 10.2, and those currently set forth in N.J.A.C. 13:34-21.1 to 20.2 for organization purposes. N.J.A.C. 13:34-11.1 and 21.1 are proposed for repeal. N.J.A.C. 13:34-10.2 contains recodified definitions for the terms "group supervision," "one calendar year," "professional counseling experience," "professional counseling services," "qualified supervisor" and "supervision." N.J.A.C. 13:34-20.2 contains recodified definitions for the terms "group supervision" "one calendar year," "qualified supervisor," "rehabilitation counseling experience," and "supervision." N.J.A.C. 13:34-20.2 also contains a definition for the term "supervisee," which is defined as a person providing rehabilitation counseling services under the supervision of a qualified supervisor.

In addition to several minor amendments to the definitions for clarification purposes, the Board is proposing to amend the definitions of "one calendar year," in N.J.A.C. 13:34-10.2 and 20.2, to provide greater flexibility to applicants seeking to complete their supervised counseling experience. The term is currently defined to mean a maximum of 1,500 hours of supervised counseling experience obtained over a 50 week period, or no less than 750 hours obtained over two periods of 50 weeks. The proposed amendments define "one calendar year" as 1,500 hours obtained over a period of 52 weeks, or 750 hours obtained in each of two 52 week periods for a total of 1,500 hours. The proposed amendments, however, provide that no more than 30 hours of supervised counseling experience may be obtained in any one week and that no more than 125 hours of the experience may be earned in any one month. The Board believes that the proposed amendments are necessary to ensure that an applicant's supervised counseling experience is completed in a reasonable manner.

The Board is proposing to amend the definition of "qualified supervisor" in N.J.A.C. 13:34-10.2 and 20.2 to refer to an individual who holds a clinical license to provide mental health counseling services for a minimum of two years in the state where the services are being provided. The individual must either have a clinical supervisor's certificate from the National Board for Certified Counselors Center for Credentialing and Education, the American Society of Addictive Medicine, the American Psychiatric Association, or the American Association of Marriage and Family Therapy, or must have completed a minimum of three graduate credits in clinical supervision from a regionally accredited institution of higher education. The Board believes that these amendments are necessary to help ensure that only the most qualified mental health professionals are permitted to act as supervisors, so that the experience applicants receive will adequately prepare them to serve their clients.

The Board is also proposing to add a definition for the terms "direct supervision" and "independent practice of counseling," in N.J.A.C. 13:34-10.2, as the terms are currently used throughout the subchapter. The term "direct supervision" is defined as the on-going process of supervision by a qualified supervisor who is immediately available to oversee the provision of counseling services. The term "independent practice of counseling" is defined to mean the provision of counseling services in a private-for-profit setting by a licensed professional counselor or a licensed associate counselor working under the direct supervision of a qualified supervisor.

The Board is also proposing to amend N.J.A.C. 13:34-20.2 to delete the definition of "case management" because the term is generally no longer used in rehabilitation counseling practice. The Board is also proposing to delete the definition of "physical impairments" because the term is not used in Subchapter 20. In addition, all references to "mental impairments" in N.J.A.C. 13:34-20.2 are proposed to be amended to refer to "psychiatric disabilities," consistent with current practice terminology. The definition of "major life activities" in N.J.A.C. 13:34-20.2 is proposed to be amended to provide a cross-reference to Americans with Disabilities Act requirements. The Board is proposing to
delete the definitions for "appraisal," "consultation," "referral" and "research" in N.J.A.C. 13:34-20.2 because the substance of these definitions are proposed to be included in the amended definition of "rehabilitation counseling interventions." The Board is also proposing to amend the definition of "rehabilitation counseling" to clarify that such counseling entails the clinical assessment and evaluation of mental, emotional, behavioral and associated distresses, which interfere with mental health and development, consistent with the amended definition of "rehabilitation counseling interventions."

N.J.A.C. 13:34-10.3 and 20.3 delineate the scope of practice for professional and associate counselors and rehabilitation counselors, respectively. Currently, N.J.A.C. 13:34-10.3 permits associate counselors to provide services under the supervision of a qualified supervisor. The proposed amendments clarify that the provision of such services requires direct supervision by a qualified supervisor. The proposed amendments also clarify that a licensed associate counselor may only engage in the independent practice of counseling under the direct supervision of a qualified supervisor. The Board is proposing a new subsection (c), which provides that an independent practice must be owned and operated by a licensed professional counselor or a licensed healthcare professional that holds a clinical license to provide mental health counseling services. The Board believes that this amendment is necessary to ensure the health, safety and welfare of the general public in the provision of mental health services. The Board is proposing to amend N.J.A.C. 13:34-20.3 to delete references to "appraisal," "case management," "consultation," "referral" and "research," consistent with the deletion of those terms from the definitions set forth in N.J.A.C. 13:34-20.2 as discussed above.

The rules in Subchapters 11 and 21 concern application procedures for professional and associate counselors, and rehabilitation counselors, respectively. As noted above, the definitions in N.J.A.C. 13:34-11.1 and 21.1 are proposed to be recodified with amendments in N.J.A.C. 13:34-10.2 and 20.2. As amended, N.J.A.C. 13:34-11.1 and 21.1 now provide that the definitions for words and terms related to supervision can be found in N.J.A.C. 13:34-10.2 and 20.2, respectively.

N.J.A.C. 13:34-11.2, 11.5 and 21.1 set forth application and education requirements for professional counselors, associate counselors and rehabilitation counselors. Currently, N.J.A.C. 13:34-11.2(a)3 and 11.5(a)3 provide that an applicant for licensure as a professional or associate counselor must submit an official transcript, which documents that the applicant has obtained a master's degree or doctorate in counseling. The Board is proposing to amend these paragraphs to clarify that the transcript must indicate that the applicant has completed a minimum of 60 graduate semester hours and obtained a master's degree or doctorate in counseling. The only acceptable graduate degrees are those that contain the word "counseling" or "counselor" in the title of the graduate degree awarded. The Board is proposing to amend N.J.A.C. 13:34-11.2(a)3i and 11.5(a)3i to eliminate all references to applications received prior to April 19, 2006. As the deadline for submitting an application under these requirements has expired, the provisions are no longer relevant. The Board notes that the current requirements for the distribution of semester hours of an applicant's required education set forth in N.J.A.C. 13:34-11.2(a)3ii and 11.5(a)3ii remain unchanged.

The Board is proposing to further amend N.J.A.C. 13:34-11.2 and 11.5 to provide that, in the future, all applicants for licensure as professional and associate counselors must have obtained a master's degree or doctorate from a counseling degree program accredited by the Council on the Accreditation of Counseling and Related Programs (CACREP). The Board believes that CACREP accreditation provides an effective measure of quality assurance for counselor preparation programs and limiting licensure to applicants that have been trained under such programs will benefit the citizens of New Jersey. So as to not prejudice applicants currently enrolled in non-CACREP accredited counselor programs, the Board has determined to delay the effective date of this new requirement for three years. Educational programs that are not currently CACREP-accredited will have three years from the effective date of the rule change to obtain such accreditation. The proposed amendments to N.J.A.C. 13:34-11.2(b) and 11.5(b) provide that on or after three years following the effective date of the proposed amendments, in order to be eligible for licensure, an applicant must submit an official transcript indicating that the applicant has obtained a master's degree or doctorate from
a program that was CACREP-accredited at the time of the applicant's graduation.

The Board is proposing several amendments to the educational requirements for rehabilitation counselors in N.J.A.C. 13:34-21.2. N.J.A.C. 13:34-21.2(a)3 requires applicants to submit an official transcript documenting completion of a master's degree program in rehabilitation counseling with coursework in the areas specified in the rule. The Board is amending paragraph (a)3 to clarify that the master's degree must be from an education program designed to prepare students for the professional practice of a rehabilitation counseling. In addition, the Board is proposing to amend the coursework requirements set forth in paragraph (a)3 to reflect the current description of courses in rehabilitation counseling graduate degree programs. As amended, the coursework descriptions set forth in subparagraphs (a)3i through xii are consistent with the coursework requirements of the Council on Rehabilitation Education (CORE), which accredits rehabilitation counselor degree programs. The Board is also proposing to amend N.J.A.C. 13:34-21.2 to provide, in new subsection (b), that, in the future, all applicants for licensure as rehabilitation counselors must have obtained a master's degree from a program accredited by CORE. As noted above, with respect to CACREP accreditation for professional counselor education programs, the Board believes that CORE accreditation provides an effective measure of quality assurance for rehabilitation counselor preparation programs. The Board believes that limiting licensure to applicants who have been trained under such programs will benefit the citizens of New Jersey. Rehabilitation counselor educational programs that are not currently CORE accredited will have three years from the effective date of the rule change to obtain such accreditation.

N.J.A.C. 13:34-11.3 and 21.3 set forth experience requirements for applicants for licensure as professional counselors and rehabilitation counselors, respectively. Currently, N.J.A.C. 13:34-11.3(a)1 provides that an applicant for licensure as a professional counselor must have completed three years of supervised professional counseling experience, only one year of which may be obtained prior to the granting of the master's degree. In addition to some minor clarifying and technical amendments, the Board is proposing to amend subparagraph (a)3 to provide that two years of experience must have been obtained following licensure as an associate counselor. The Board is proposing to readopt N.J.A.C. 13:34-21.3 with an amendment to delete the provision requiring applicants for licensure as rehabilitation counselors to complete 30 graduate semester hours in addition to the required master's degree. Unlike applicants for licensure as professional counselors, applicants for licensure as rehabilitation counselors are not required to complete additional graduate credits beyond a master's degree. This requirement was inadvertently added to the rehabilitation counselor requirements.

The Board is proposing to amend N.J.A.C. 13:34-11.4, 11.6 and 21.4, which set forth examination requirements for professional counselors, associate counselors and rehabilitation counselors, respectively. Currently, N.J.A.C. 13:34-11.4 and 11.6 provide that applicants for licensure as professional and associate counselors must pass the National Counselors Examination administered by the National Board for Certified Counselors (NBCC). The Board is proposing to amend N.J.A.C. 13:34-11.4 and 11.6 to provide that applicants must take this examination or any successor examination administered by NBCC. In addition, the Board is proposing to amend N.J.A.C. 13:34-11.4, 11.6 and 21.4 to clarify that an applicant for licensure may only be admitted to the licensing examination upon receipt of written permission from the Committee, following the Committee's review of an applicant's coursework.

The Board is proposing new rules at N.J.A.C. 13:34-11.7 and 21.5 to state that applicants for licensure as professional counselors, associate counselors and rehabilitation counselors must submit the required licensing fees upon receipt of notification from the Committee that his or her application for licensure has been approved. Failure to submit the required licensing fee within six months following the date of notification from the Committee will result in the application being deemed abandoned. An applicant whose licensure application has been deemed abandoned must submit a new application to the Committee and must resubmit evidence of having satisfied all application requirements in order to be licensed.

The Board is proposing a new Subchapter 12, which is currently reserved, to provide for licensure by endorsement for professional counselors. Proposed new rule N.J.A.C. 13:34-12.1 provides that applicants licensed to practice professional counseling by a professional licensing board in the United States may apply to the Committee for a
professional counselor license by endorsement. Applicants must have been engaged in active licensed practice for a period of three years immediately preceding the date of application. Applicants must register with the National Credentials Registry and must hold a master's degree or doctorate in counseling from a counseling program accredited by CACREP. If an applicant has a master's degree or doctorate in counseling from a regionally accredited program related to the practice of counseling that is not accredited by CACREP, the word "Counseling" or the word "Counselor" must appear in the title of the graduate degree awarded and the institution offering the degree must state in the catalog that the purpose of the graduate degree is to prepare students for the professional practice of counseling. The applicant's education must meet the specific coursework requirements set forth in the rule. In addition, the applicant must have 4,500 hours of work experience obtained over a period of time between three and six years and must have passed either the National Counselors Examination or the Clinical Mental Health Counseling Examination.

The rules in Subchapters 13 and 23 establish requirements for supervision of associate counselors and rehabilitation counselor supervisees, respectively. N.J.A.C. 13:34-13.1 and 23.1 set forth supervisor responsibilities. The Board is proposing to amend these rules to include requirements for supervisor qualifications. Proposed new subsection (a) of both rules provide that a qualified supervisor must meet certain requirements prior to supervising the provision of professional counseling and rehabilitation counseling services. Specifically, the individual must have obtained 3,000 hours of work experience subsequent to holding a clinical license to provide mental health counseling services. The 3,000 hours must have been obtained over a minimum of two years, but no more than six years. In addition, the individual must hold an approved clinical supervisor credential from the Center for Credentialing and Education of the National Board for Certified Counselors, or an equivalent clinical supervisor credential recognized by the individual's respective professional healthcare licensing board, if applicable.

Proposed new subsection (b) of N.J.A.C. 13:34-13.1 and 23.1 require a qualified supervisor to create a written supervision plan. The supervision plan must outline the work setting, the licensed associate counselor or supervisee's job description, including the nature of his or her duties and his or her qualifications and the supervisor's responsibilities and qualifications. The supervision plan must be approved by the Committee prior to the performance of counseling by the licensed associate counselor or supervisee, pursuant to proposed new subsection (c) of the rules. Proposed new subsection (d) of the rules require a qualified supervisor to perform and document certain activities with the licensed associate counselor or supervisee. Those activities include working as a co-counselor with the licensed associate counselor or supervisee or observing the licensed associate counselor or supervisee's sessions with clients among others. Proposed new subsection (e) of the rules require a qualified supervisor to maintain all documentation with respect to the supervision provided for a minimum of three years. A qualified supervisor must attest to compliance with the supervision requirements of N.J.A.C. 13:34-13.1 or 23.1 by completing all forms provided by the Committee. Proposed new subsection (f) of the rules prohibit a qualified supervisor from supervising more than a total of six mental health counselors at any one time.

Existing provisions (a) through (f) of N.J.A.C. 13:34-13.1 and 23.1 are proposed to be recodified as (g) through (l) of the respective rules, with several amendments. The Board is proposing to readopt recodified N.J.A.C. 13:34-13.1(l(g), with minor amendments, and recodified N.J.A.C. 13:23.1(g) without change. Recodified subsection (i) of the rules, which currently provide that the supervisor is ultimately responsible for the welfare of the client with respect to the treatment being rendered by the associate counselor or supervisee, is proposed to be amended to provide that the qualified supervisor is responsible for knowing the name and diagnosis of each client being treated by the associate counselor or supervisee. In addition, the Board is proposing to amend recodified subsection (l) of the rules, which prohibit an individual from acting as a supervisor to someone with whom the supervisor has an existing relationship. The rules currently provide examples of inappropriate supervisory relationships. The Board is proposing to add current employers, relatives of the supervisor and immediate relatives of current clients to this list of inappropriate supervisory relationships.

N.J.A.C. 13:34-13.2 and 23.2 delineate the responsibilities of associate counselors and rehabilitation counselor supervisees. The Board is proposing to correct all references to "supervisee" in N.J.A.C. 13:34-13.2 to refer to "licensed associate counselor." In addition, the Board is proposing to amend subsection (a) of both rules, which currently refer to
the 50-week period of supervised experience, to instead refer to this as a 52-week period, consistent with the proposed amendments to the definitions of "one calendar year," discussed above. N.J.A.C. 13:34-13.3 and 23.3 concern supervised counseling experience acquired prior to application for licensure as a professional counselor and rehabilitation counselor, respectively. N.J.A.C. 13:34-13.3(b) provides that an applicant may be granted supervised professional counseling experience credit towards the experience requirements for licensure as a professional counselor if the supervised experience occurred after the granting of the master's degree in a professional counseling setting, which is considered exempt under N.J.S.A. 45:8B-48(b) or (f). The Board is proposing to amend N.J.A.C. 13:34-13.3(b) to eliminate the limitation that the experience be obtained in an exempt setting. The experience, however, must have been obtained after the applicant was licensed as an associate counselor, consistent with the proposed amendments to N.J.A.C. 13:34-11.3, discussed above. N.J.A.C. 13:34-23.3 is proposed to be readopted without change. N.J.A.C. 13:34-13.4 and 23.4 remain reserved.

Subchapter 14 concerns professional counselor specialty designations. The Board is proposing to readopt N.J.A.C. 13:34-14.1, which imposes general requirements for the use of specialty designations and N.J.A.C. 13:34-14.2, which imposes additional requirements for the use of the clinical mental health counselor specialty designation, without change.

The rules in Subchapters 15 and 24 concern continuing education requirements for professional counselors and rehabilitation counselors. The Board is proposing to amend N.J.A.C. 13:34-15.1 and 24.1 to clarify that all licensed professional counselors and rehabilitation counselors must complete 40 contact hours of continuing education for license renewal except during the period of initial licensure. This exception is currently set forth in N.J.A.C. 13:34-15.2 and 24.2. The proposed amendments provide cross references to the exceptions for clarification purposes. The Board is also proposing a new N.J.A.C. 13:34-15.1(b), which provides that for the biennial renewal period beginning December 1, 2008 and for all subsequent biennial renewal periods thereafter, an individual licensed as an associate counselor for two or more biennial renewal periods must complete 40 contact hours of continuing education for all subsequent renewals of his or her license. The Board notes that licensed associate counselors currently are not required to complete any continuing education. The Board has not previously imposed continuing education requirements upon these licensees because the majority of such individuals, upon satisfaction of the professional counseling experience requirements, become licensed professional counselors who must complete 40 contact hours of continuing education pursuant to N.J.A.C. 13:34-15.1(a). The Board, however, is aware that some licensed associate counselors have not completed the process of becoming licensed professional counselors and are continuing to provide counseling services to clients. These individuals, the Board believes, should be required to complete continuing education in order to ensure their continued competency to practice for the protection of the consumers they serve.

N.J.A.C. 13:34-15.2 and 24.2 establish contact hour requirements for professional counselor and rehabilitation counselor continuing education. The Board is proposing to readopt N.J.A.C. 13:34-15.2 without change. The Board is proposing an amendment to N.J.A.C. 13:34-24.2 to clarify that the contact hours that licensed rehabilitation counselors must take in legal standards may be taken in legal standards related to the counseling profession as a whole and not limited to rehabilitation counseling, as the rule currently provides. N.J.A.C. 13:34-15.3, which concerns contact hour requirements for licensed professional counselors with specialty permits, is proposed to be readopted without change. The Board is proposing to amend N.J.A.C. 13:34-15.4 and 24.3, which delineate acceptable sources of continuing education credit, to include the United States Psychiatric Rehabilitation Association to the list of entities whose programs or courses are deemed acceptable sources of continuing education for both professional counselors and rehabilitation counselors. The Board is also proposing to include the National Rehabilitation Association to the list of approved entities for licensed rehabilitation counselors and to amend the acceptable content areas delineated in N.J.A.C. 13:34-24.3(c), to update the terminology used in the rule to reflect current rehabilitation counseling practice standards, as discussed above.

N.J.A.C. 13:34-15.5 and 24.4, which concern continuing education contact hour calculations, N.J.A.C. 13:34-15.6 and 24.5, which require retention of continuing education documentation and N.J.A.C. 13:34-15.7 and 24.6, which concern the waiver of continuing education requirements, are proposed to be readopted without change.
Subchapters 16, 22 and 25 remain reserved. Subchapters 17 and 26 concern fees for professional and associate counselors, and rehabilitation counselors, respectively. The Board is proposing to amend the headings of Subchapters 17 and 26 to reflect that the subchapters apply to professional counselors and associate counselors and rehabilitation counselors, respectively. The Board is proposing that N.J.A.C. 13:34-17.1 [page=1951] and 26.1, which set forth the fees charged by the Board in connection with the licensure of professional counselors and associate counselors, and rehabilitation counselors, be readopted without change.

Subchapters 18 and 27 concern client records. N.J.A.C. 13:34-18.1 and 27.1 impose requirements with respect to the preparation and maintenance of client records by professional and associate counselors and rehabilitation counselors. The Board is proposing several minor amendments for clarification purposes to subsection (c) of both rules. The Board is proposing that N.J.A.C. 13:34-18.2 and 27.2, which concern computerized client records, be readopted without change.

N.J.A.C. 13:34-18.3 and 27.3 concern access to client records. The Board is proposing to amend subsection (a) of the rules to delete references to "minor patients" because proposed new rules N.J.A.C. 13:34-18.6 and 27.6, discussed below, establish requirements for professional and associate counselors and rehabilitation counselors with respect to the treatment of minor patients. Subsection (h) of the rules, which refer to the release of records or information with respect to minor patients, are proposed to be deleted. N.J.A.C. 13:34-18.4 and 27.4, which concern access by managed health care plans to information in client records, are proposed to be readopted without change.

N.J.A.C. 13:34-18.5 and 27.5 require licensees to preserve the confidentiality of client information. The existing provisions of both rules are proposed to be readopted without change. The Board is proposing new subsection (d) in both rules to delineate confidentiality requirements that apply in the case of a client's death. The proposed new subsections provide that confidentiality survives the client's death and that a licensee must preserve the confidentiality of the client's information. Disclosure of information in a deceased client's records is subject to the same confidentiality requirements as for living clients. Specifically, a licensee is required to retain a deceased client's record for at least seven years from the date of last entry, unless otherwise provided by law. A licensee may discuss the information obtained in clinical or consulting relationships or in evaluating data concerning children, students, employees and others, only for professional purposes and only with persons clearly connected with the case. A licensee may reveal, in writing, lectures or other public forums, personal information obtained during the course of professional work only if certain requirements set forth in the rules are satisfied.

Proposed new rules N.J.A.C. 13:34-18.6 and 27.6 establish requirements for the treatment of minors by professional and associate counselors and rehabilitation counselors. Subsection (a) of the rules provide that, unless otherwise ordered by a court, if the client is a minor, a parent or legal guardian will be deemed to be the minor's authorized representative. When the client is more than 14 years old, but has not yet reached the age of majority, the authorization must be signed by the client and by the client's parent or legal guardian. Pursuant to subsection (b) of the rules, a licensee is not required to release to a minor's parent or guardian records or information relating to the minor's sexually transmitted disease, termination of pregnancy or substance abuse or any other information that may adversely affect the minor's health or welfare. Subsection (c) of the rules provide that, unless otherwise ordered by a court, at least one parent or guardian must consent to the treatment of a minor. If one parent consents, a licensee may treat a minor even over the objection of the other parent. Subsection (d) of the rules provide that the existing requirements concerning access to client records, access by a managed health care plan to information in client records and confidentiality of records, also apply to minors.

The Board is proposing new rules at N.J.A.C. 13:34-18.7 and 27.7 concerning the transfer or disposal of client records by professional and associate counselors and rehabilitation counselors, respectively. The proposed new rules provide that if a licensee ceases to engage in practice or anticipates that he or she will remain out-of-practice for more than three months, the licensee must comply with the requirements concerning termination of services set forth at N.J.A.C. 13:34-30.5(c) and must establish a procedure by which clients can obtain a copy of the treatment records or acquiesce in the transfer of those records to another health care professional. A licensee may not charge a client for a
copy of the records when the records will be used for purposes of continuing treatment. A licensee is also responsible for making reasonable efforts to directly notify any client treated during the six months preceding the cessation of practice about the procedure for retrieval of records. If the licensee is unable to notify all clients, he or she must publish a notice of the cessation and the established procedure for record retrieval in the newspaper. The notice must appear at least once each month for the first three months after the cessation of practice.

The rules in Subchapters 19 and 28 set forth general obligations of licensed professional counselors and associate counselors and rehabilitation counselors, respectively. N.J.A.C. 13:34-19.1 and 28.1 require licensees to display a notice to clients advising them of the address where complaints can be made. The Board is proposing to amend N.J.A.C. 13:34-19.1 and 28.1 to clarify the notice that must be provided. As amended, the notice provides that consumers may submit complaint information to the Committee or to the Division of Consumer Affairs. Updated contact information for the Committee and the Division is provided, including the Committee and Division websites.

N.J.A.C. 13:34-19.2 and 28.2 require licensees to notify the Committee concerning changes of address. In addition to minor clarifying amendments, the Board is proposing amendments to N.J.A.C. 13:34-19.2 and 28.2 that require a licensee to notify the Committee of a legal name change and to submit copies of two forms of identification, one of which must be United Stated government-issued or State government-issued photo identification.

The Board is proposing to amend N.J.A.C. 13:34-19.3 and 28.3, concerning sexual misconduct, consistent with the proposed changes to N.J.A.C. 13:34-6.4 for licensed marriage and family therapists discussed above. The proposed amendments prohibit licensees from seeking, soliciting or engaging in sexual contact with a current or former client's immediate family members. N.J.A.C. 13:34-19.4 and 28.4 concern notifications of name changes. The Board is proposing to repeal the existing provisions of these rules in light of the proposed amendments to N.J.A.C. 13:34-19.2 and 28.2 discussed above. At N.J.A.C. 13:34-19.4 and 28.4, the Board is proposing new rules concerning real estate arrangements. Proposed new rules N.J.A.C. 13:34-19.4 and 28.4 provide that a licensee may be an owner, investor or lessor in real estate utilized to conduct a professional practice, provided that rent, dividends or any other forms of remuneration are received solely on the basis of the investment or fair market value. A licensee may lease space to or from another licensed health care professional to which clients are referred only where rent is a fixed fee determined by the fair market value, or less, and is for a regular term and not for sporadic use of the space. The proposed new rules also provide that a licensee may lease professional space from a commercial entity, provided the arrangements do not affect the licensee's professional discretion in matters including choice of clients, professional services offered, or fees. The establishment of any lease, investment or other commercial relationship for the purpose of conducting professional practice other than as set forth in the proposed new rules will require Committee approval. Such approval will only be granted upon a finding of good cause.

N.J.A.C. 13:34-19.5 and 19.6 and 28.5 and 28.6 impose requirements for license renewal and reinstatement for professional counselors, associate counselors and rehabilitation counselors, respectively. The Board is proposing to amend these rules consistent with the proposed amendments to N.J.A.C. 13:34-1.10 and 1.11 concerning license renewal and reinstatement for licensed marriage and family therapist discussed above. The Board is proposing an amendment to subsection (b) of N.J.A.C. 13:34-19.5 and 28.5, which require the Committee to send a notice of renewal to all licensees at least 60 days prior to the date of license expiration, to clarify when a licensee may be fined for continuing to practice if the Board fails to send out the renewal applications in a timely manner. The Board is proposing technical amendments to N.J.A.C. 13:34-19.5 and 28.5 to correct current references to "applicant." The amendments clarify that the referenced individual in the affected subsections is a "licensee." In addition, the Board is proposing to amend subsections (f) to require a licensee who seeks to return to active status to submit a completed renewal application, a renewal fee, an affidavit of employment and evidence of having completed the number of continuing education contact hours required for license renewal for the biennial period. The applicant must have completed the continuing education contact hours within three years prior to the date of application. The Board is also proposing new subsections in N.J.A.C. 13:34-19.5 and 28.5, [page=1952] which provide that a licensee may not use any of the continuing education contact hours completed for the return to active status toward satisfaction of the contact hours required for the renewal of his or her license once he or she has been returned to active status.
The Board is proposing to repeal existing rules N.J.A.C. 13:34-19.6 and 28.6 and is proposing new rules in their place for reinstatement. The proposed new rules provide that an individual whose license has been suspended for failure to renew for a period of five years or less shall be reinstated by the Committee upon submission of a completed reinstatement application, a reinstatement fee and all past delinquent biennial renewal fees, an affidavit of employment, any outstanding penalties imposed by the Committee and evidence that the individual has maintained proficiency by completing the number of continuing education hours required for the renewal of an active license. The continuing education hours must have been completed within three years prior to the date of application for reinstatement. An individual whose license has been suspended for a period of more than five years must submit a completed reinstatement application, a reinstatement fee and all past delinquent biennial renewal fees, an affidavit of employment and any outstanding penalties imposed by the Committee and must also retake and pass the licensing examination within one year of the date of application. The proposed new rules also provide that a licensee who is reinstated may not use any continuing education hours completed for the reinstatement toward satisfaction of the contact hours required for the renewal of his or her license once he or she has been reinstated.

The rules in Subchapter 29 concern advertising of professional services by professional counselors, associate counselors and rehabilitation counselors. N.J.A.C. 13:34-29.1 sets forth definitions for the terms used in the subchapter. The Board is proposing to add a definition for the term "licensee," which is defined to mean a licensed professional counselor, a licensed associate counselor and a licensed rehabilitation counselor, in order to clarify use of the term throughout the subchapter. N.J.A.C. 13:34-29.2, which establishes general requirements for advertisements, is proposed to be readopted without change. N.J.A.C. 13:34-29.3 establishes minimum content requirements for licensee advertisements. Currently, the rule requires licensees to include their name, license number and licensure status, in addition to their address, on all advertisements and professional representations. The Board is proposing to amend N.J.A.C. 13:34-29.3, consistent with the proposed amendments to N.J.A.C. 13:34-7.3 for advertisements by licensed marriage and family therapists, discussed above. The proposed amendments require advertisements to include the words "Licensed Professional Counselor" or "LPC," "Licensed Associate Counselor" or "LAC" or "Licensed Rehabilitation Counselor" or "LRC," as applicable, followed by the licensee's 12-digit license number.

N.J.A.C. 13:34-29.4 establishes requirements for the use of professional credentials and certifications in advertisements. The Board is proposing to amend N.J.A.C. 13:34-29.4(d)1, which currently limits the placement of letters or abbreviations following a licensee's name on advertisements to the highest academic degrees earned from a regionally accredited institution. The proposed amendment clarifies that advertisements may not include any degree earned at an institution that is not regionally accredited. N.J.A.C. 13:34-29.5, which prohibits certain types or methods of advertising and N.J.A.C. 13:34-29.6, which requires retention of advertisements, are proposed to be readopted without change.

The rules in Subchapter 30 concern professional conduct and business practices of professional counselors, associate counselors and rehabilitation counselors. N.J.A.C. 13:34-30.1 concerns financial arrangements with clients. Subsection (b) currently provides that when payment of the usual and customary fee would be a hardship for a client, a professional counselor or rehabilitation counselor shall refer the client to another source for the provision of services. The Board is proposing to amend subsection (b) to provide that in addition to the referral of such clients, a professional or rehabilitation counselor may reduce the usual and customary fee he or she charges, or may provide services without change. The professional or rehabilitation counselor, however, shall not accept goods and/or services from a client in lieu of payment for professional services. The Board is proposing to replace all references to "licensee" in the rule with "professional or rehabilitation counselor" because licensed associate counselors may not establish financial arrangements with clients.

N.J.A.C. 13:34-30.2 imposes requirements with respect to clients receiving counseling services from another mental health professional and N.J.A.C. 13:34-30.3 concerns the provision of services to people who have a relationship, such as a husband and wife or a parent and child. The Board is proposing to amend the reference to "licensee" in both rules to refer to "professional, associate or rehabilitation counselor" for clarification purposes. N.J.A.C. 13:34-30.3 requires the counseling providing services to people who have a relationship to clarify, at the
beginning of treatment, which person is the client and the nature of the relationship the counselor will undertake with each person. The Board is proposing to amend this requirement to require that the counselor provide such disclosures in writing and that the written disclosures be retained as part of the client record.

N.J.A.C. 13:34-30.4 concerns conflicts of interests and dual relationships. Subsection (b) of the rule prohibits counselors from entering into any relationship that would be expected to limit the counselor's objectivity or impair his or her professional judgment. The Board is proposing to amend the subsection to expressly include the receipt of any goods or services from a client to the list of situations in the rule that would give rise to an inappropriate relationship. N.J.A.C. 13:34-30.5 concerns termination of services. Currently, the rule provides that a counselor who anticipates the termination or interruption of services must notify the client. The Board is proposing to amend the rule to require such notice to be in writing and to require licensees to transfer records under such circumstances consistent with the requirements set forth in N.J.A.C. 13:34-18.7, for professional counselors or N.J.A.C. 13:34-27.7, for rehabilitation counselors. N.J.A.C. 13:34-30.6, which prohibits solicitations, unethical referrals and kickbacks, is proposed to be amended to include associate counselors to the scope of the rule. As currently written, the rule applies only to professional and rehabilitation counselors.

The Board has provided a 60-day comment period for this notice of proposal, therefore, this notice is excepted from the rulemaking calendar requirement pursuant to N.J.A.C. 1:30-3.3(a).

Social Impact

The Board believes that the rules proposed for readoption with amendments, repeals and the proposed new rules will have a positive impact upon members of the regulated community and will help to protect the health, safety and welfare of the citizens of New Jersey by identifying those individuals who are qualified and legally authorized to provide marriage and family therapy, professional counseling and rehabilitation counseling services. These rules establish the requisite standards for licensure in the State and positively affect the regulated community by clarifying the varied aspects of marriage and family therapy, professional counseling and rehabilitation counseling practice.

The proposed readoption of the rules in N.J.A.C. 13:34 as amended continue the accepted practice standards for licensees established by the Board, and by so doing, provides licensees and applicants for licensure a clear and comprehensive set of rules to guide them in their professional work. Applicants for licensure will benefit by having a set of rules that govern the manner in which they may qualify for licensure. The Board also believes that licensees will benefit from the rules proposed for readoption with amendments, repeals and proposed new rules that set forth uniform standards that will be applied throughout the marriage and family therapy, professional counseling and rehabilitation counseling fields.

The Board believes that the rules proposed for readoption with amendments, repeals and proposed new rules will have a positive impact on the general public by safeguarding the public health and safety by maintaining appropriate practice standards, ensuring the highest quality service from licensees.

Specifically, the Board believes that the proposed amendments to the educational requirements for professional counselors, associate counselors and rehabilitation counselors set forth in N.J.A.C. 13:34-11.2, 11.5 and 21.2 will have a positive impact on members of the regulated community and the consumers they serve. The Board believes requiring all applicants for licensure in the future to have graduated from CACREP-accredited programs, for professional and associate counselors and from CORE-accredited programs, for rehabilitation counselors, will help to ensure that the education these applicants receive will adequately prepare them to serve the needs of New Jersey consumers once applicants become licensed. In addition, the Board believes that proposed new rules N.J.A.C. 13:34-4.4 and 12.1 will have a positive impact upon applicants for licensure as a marriage and family therapists and professional counselors who are currently licensed in other states by clarifying the requirements that such applicants must satisfy in order to obtain a New Jersey license.
The Board believes that the proposed amendments to N.J.A.C. 13:34-13.1 and 23.1 will have a positive impact upon applicants for licensure as professional and rehabilitation counselors and the mental health professionals that supervise their training by providing applicants and supervisors with clear direction concerning the responsibilities and obligations of both supervisors and supervisees. The Board believes that the proposed amendments will also have a positive impact upon the citizens of New Jersey by helping to ensure that all applicants for licensure receive the type of supervision necessary to foster their proper development as professional and rehabilitation counselors, thereby safeguarding the health, safety and welfare of the consumers they treat.

The Board believes that the proposed amendments and new rules in N.J.A.C. 13:34-1.10, 1.11, 19.5, 19.6, 28.5 and 28.6 will have a positive impact on licensees who elect to return to active practice following the election of inactive status and those seeking to be reinstated following license suspension. The proposed amendments will provide such licensees with clear direction with respect to what steps they must take to resume practice in the State.

The Board believes that the proposed amendment to N.J.A.C. 13:34-15.1, which will require a licensed associate counselor to complete continuing education if he or she has been an associate counselor for two or more renewal periods, will have a positive impact upon these licensees and the clients they serve by helping to ensure licensees' continued competency to practice.

The Board believes that the proposed amendments to N.J.A.C. 13:34-18.5 and 27.5, setting forth confidentiality requirements when a client dies, proposed new rules N.J.A.C. 13:34-18.6 and 27.6, imposing requirements with respect to the treatment of minors and N.J.A.C. 13:34-18.7 and 27.7, imposing requirements for the transfer of records when a licensee ceases practicing, will have a positive impact on professional counselors, associate counselors and rehabilitation counselors by clarifying their professional practice obligations in the situations articulated in the rules, for the protection of the clients they serve.

The Board believes that proposed new rules N.J.A.C. 13:34-19.4 and 28.4, establishing requirements for a licensee's involvement in real estate arrangements for the purpose of conducting professional practice, will have a positive impact on licensees and consumers by ensuring that such arrangements do not impinge upon a licensee's professional discretion and judgment.

**Economic Impact**

The Board anticipates that the rules proposed for readoption with amendments, repeals and the proposed new rules will not impose any significant new costs upon applicants for licensure, licensees or consumers. The proposed readoption of the existing rules will continue the economic impact that the rules have had on such persons for the past five years.

Specifically, the proposed readoption of the fee schedules established in N.J.A.C. 13:34-1.1, 17.1 and 26.1 will continue to have an economic impact on applicants for licensure as marriage and family therapists, professional and associate counselors and rehabilitation counselors, to the extent that applicants will be required to remit the application fees set forth in the rules. The proposed readoption of the application requirements set forth in Subchapters 4 and 5, for marriage and family therapists and temporary permit holders, in Subchapters 11 and 13, for professional and associate counselors, and in Subchapter 21, for rehabilitation counselors, may continue to have an economic impact on applicants for licensure, to the extent that applicants may incur costs associated with obtaining the required education and experience, passing the required licensure examination and submitting the required documentation to substantiate satisfaction of the requirements in the rules. In addition, applicants for licensure may incur costs associated with submitting their fingerprints for the required criminal history records check.

The proposed amendments to the education requirements for professional counselors, associate counselors and rehabilitation counselors, set forth in N.J.A.C. 13:34-11.2, 11.5 and 21.2, may have an economic impact upon applicants for licensure in these fields. Future applicants for licensure that have not graduated from CACREP-accredited programs,
for professional and associate counselors and from CORE-accredited programs, for rehabilitation counselors, will be unable to qualify for licensure. The Board believes that the costs that applicants may incur as a result of the proposed amendments will be outweighed by the benefit to consumers in ensuring that the education applicants for licensure receive is rigorous and comprehensive to help ensure their competency to practice.

Proposed new rules N.J.A.C. 13:34-4.4 and 12.1 may have an economic impact upon applicants for licensure as marriage and family therapists and professional counselors who are licensed in other states. Such applicants may incur costs associated with submitting documentation to substantiate satisfaction of the requirements set forth in the rules and in submitting required application and licensure fees.

The proposed readoption of N.J.A.C. 13:34-5.3 and the proposed amendments to N.J.A.C. 13:34-13.1 and 23.1 may have an economic impact upon applicants for licensure, to the extent that marriage and family therapy temporary permit holders, associate counselors and rehabilitation counselor supervisees completing their supervised experience requirements may incur costs associated with submitting required documentation to the Board. The rules proposed for readoption and proposed amendments may also have an economic impact upon qualified supervisors, to the extent that they may incur administrative costs associated with providing the requisite supervision and in submitting documentation to the Board.

The proposed readoption of the fee schedules in N.J.A.C. 13:34-1.1, 17.1 and 26.1 may have an economic impact upon licensed marriage and family therapists, professional counselors, associate counselors and rehabilitation counselors, to the extent that they must remit initial licensure and biennial licensure renewal fees as provided in the rules. The proposed readoption of N.J.A.C. 13:34-1.8, 1.9, 19.2 and 28.2, with amendments, may have an economic impact upon licensed marriage and family therapists, professional counselors, associate counselors and rehabilitation counselors, to the extent that licensees may incur costs associated with submitting the required documentation associated with changing their name and/or address.

The proposed readoption of N.J.A.C. 13:34-1.10, 19.5 and 28.5 may have an economic impact upon licensed marriage and family therapists, professional counselors, associate counselors and rehabilitation counselors, to the extent that licensees who fail to comply with the renewal requirements set forth in the rules will be required to remit late fees.

The proposed amendments and new rules in N.J.A.C. 13:34-1.11, 19.6 and 28.6 also may have an economic impact on licensees, to the extent that licensees may incur costs associated with submitting the documentation and fees required for reinstatement from a suspended license, as well as in satisfying the competency requirements set forth in the rules.

The proposed readoption of the rules in Subchapters 2, 6, and 30, with amendments, may have an economic impact upon licensed marriage and family therapists, professional counselors, associate counselors and rehabilitation counselors, to the extent that failure to comply with the professional practice standards set forth in the rules, with respect to professional interactions with clients, may be deemed professional misconduct and may subject a licensee to monetary penalties.

The proposed readoption with amendments of the advertising requirements set forth in Subchapters 7 and 29 may have an economic impact on licensed marriage and family therapists, professional counselors, associate counselors and rehabilitation counselors, to the extent that licensees incur costs associated with ensuring that all advertisements comport with the requirements in the rules and in maintaining advertisements for the mandated period of time.

The proposed readoption with amendments of the rules in Subchapters 8, 18, and 27 may continue to have an economic impact upon licensed marriage and family therapists, professional counselors, associate counselors and rehabilitation counselors, to the extent that licensees may incur administrative costs associated with preparing and maintaining client records consistent with the requirements set forth in the rules. Proposed new rules N.J.A.C. 13:34-18.6 and 27.6, which impose requirements with respect to the treatment of minors and N.J.A.C. 13:34-18.7 and 27.7, which impose requirements for the transfer of records when a licensee ceases practicing, may have an economic impact upon licensed professional counselors, associate counselors and rehabilitation counselors, to the extent that
licensees incur administrative costs associated with fulfilling the treatment and patient record requirements in the rules.

The proposed readoption with amendments of the continuing education requirements set forth in Subchapters 9, 15 and 24 may continue to have an economic impact upon licensed marriage and family therapists, professional counselors and rehabilitation counselors, to the extent that licensees must obtain the required number of contact hours for each biennial renewal period. Licensees may also incur costs associated with maintaining continuing education documentation as required under the rules. The proposed amendments to the continuing education requirements in N.J.A.C. 13:34-9.2, requiring licensed marriage and family therapists to obtain 20 of the mandated 40 hours of continuing education through face-to-face instruction, may have an economic impact upon such licensees, to the extent that licensees incur costs associated with traveling to courses requiring personal attendance. In addition, the proposed amendments to N.J.A.C. 13:34-15.1 may have an economic impact upon individuals licensed as associate counselors for two or more biennial renewal periods. Such licensees may incur costs associated with having to complete 40 contact hours of continuing education for all subsequent renewal periods. The Board believes that any economic impact that may be borne by such licensees is outweighed by the benefit to consumers in ensuring the continued competency of these licensees to provide professional counseling services to clients in New Jersey.

Proposed new rules N.J.A.C. 13:34-19.4 and 28.4 may have an economic impact upon licensed professional counselors, associate counselors and rehabilitation counselors, to the extent that the rules place restrictions upon a licensee's involvement in real estate arrangements for the purpose of conducting professional practice. The Board believes that any economic impact that may be borne by such licensees is outweighed by the benefit to consumers in ensuring that such arrangements do not negatively affect a licensee's professional judgment.

Federal Standards Statement

A Federal standards analysis is not required because the rules proposed for readoption with amendments, repeals and proposed new rules are governed by N.J.S.A. 45:8B-13 et seq., and are not subject to any Federal requirements or standards. Although the rules in N.J.A.C. 13:34 are not subject to any Federal requirements or standards, where deemed appropriate, the Board has voluntarily required licensees to comply with applicable Federal laws and regulations. Specifically, N.J.A.C. 13:34-2.1 provides that failure to comply with Federal laws related to the practice of marriage and family therapy will be deemed professional misconduct. N.J.A.C. 13:34-8.3, 18.5 and 27.5 require licensed marriage and family therapists, professional counselors, associate counselors and rehabilitation counselors to preserve the confidentiality of information obtained from a client in the course of professional treatment unless disclosure is required by Federal law. N.J.A.C. 13:34-18.4 and 27.4 requires a professional counselor, associate counselor or a rehabilitation counselor whose client has explicitly waived the counselor-client confidentiality privilege to release client information to a third-party payor whose benefit plan is qualified under the Federal Employee Retirement Income Security Act (ERISA), P.L. 93-406, codified at 29 U.S.C. §§1001 to 1453 and in §§401-415 and 4975-4975 of the Internal Revenue Code.

Jobs Impact

The Board does not anticipate that the rules proposed for readoption with amendments, repeals and proposed new rules will result in an increase or decrease in the number of jobs in the State.

Agriculture Industry Impact

The Board does not anticipate that the rules proposed for readoption with amendments, repeals and proposed new rules will have any impact on the agriculture industry in the State.

Regulatory Flexibility Analysis

Currently, the Board licenses approximately 500 marriage and family therapists, 2,500 professional counselors, 300
associate counselors and 200 rehabilitation counselors. If these licensees are considered "small businesses" within the meaning of the Regulatory Flexibility Act, N.J.S.A. 52:14B-16 et seq., then the following analysis applies.

The proposed readoption of the rules in Chapter 34 will impose various reporting, recordkeeping and compliance requirements upon licensees. Specifically, all licensees are required to display their licensure status in their offices and to provide clients with certain notices concerning how to file a complaint against a licensee pursuant to N.J.A.C. 13:34-1.6, 19.1 and 28.1. All licensees must notify the Board of any changes of address or name pursuant to N.J.A.C. 13:34-1.8, 1.9, 19.2 and 28.2.

All licensees must comply with the requirements for license renewal set forth in N.J.A.C. 13:34-1.10, 19.5 and 28.5. N.J.A.C. 13:34-1.11, 19.6 and 28.6 impose various compliance requirements on licensees with respect to reinstatement of a suspended license.

The rules in Subchapters 2, 6 and 30 impose various compliance requirements upon licensees to the extent that the rules require licensees to adhere to specified standards of practice in their interactions with clients, prohibit them from engaging in certain activities and require them to notify the Board of misconduct.

N.J.A.C. 13:34-4.1, 4.2, 4.3 and 5.2 impose compliance requirements upon applicants for licensure as marriage and family therapists and temporary permit holders. N.J.A.C. 13:34-11.2 through 11.6 impose compliance requirements upon applicants for licensure as professional counselors and associate counselors. N.J.A.C. 13:34-21.2, 21.3 and 24.4 impose compliance requirements upon applicants for licensure as rehabilitation counselors. All applicants for licensure must submit the documentation substantiating satisfaction of the education, experience and examination requirements of the rules in order to qualify for licensure.

N.J.A.C. 13:34-5.3, 5.4, 13.1, 13.2, 13.3, 23.1, 23.2 and 23.3 impose compliance and recordkeeping requirements on qualified supervisors to the extent the rules require supervisors to submit certain documentation to the Board verifying the supervision and to ensure an appropriate level of supervision consistent with the standards delineated in the rules.

The rules in Subchapters 7 and 29 will impose compliance and recordkeeping requirements upon licensees that advertise their professional services. Advertisements must comply with the content requirements set forth in the rules and all advertisements must be retained consistent with the record retention requirements set forth in the rules.

The rules in Subchapters 8, 18 and 27 impose recordkeeping and compliance requirements upon licensees with respect to how a client record is to be prepared and maintained. The rules also impose compliance requirements upon licensees to the extent that the rules require licensees to provide access to client records and to ensure client information is kept confidential.

The rules in Subchapters 9, 15 and 24 require licensees to complete a minimum number of continuing education contact hours in each biennial renewal period. The rules also impose compliance requirements upon licensees to the extent that they must obtain continuing education contact hours consistent with the standards established in the rules. The rules impose recordkeeping requirements upon licensees to the extent that the rules establish what documentation a licensee must retain for continuing education credit. In addition, the rules impose compliance and recordkeeping requirements upon licensees seeking a waiver of continuing education requirements. Such licensees are required to submit the request in writing and must specify the reasons for the requested waiver.

The proposed amendments to the rules in Chapter 34 and the proposed new rules will impose various recordkeeping and compliance requirements on licensees. These requirements are discussed in the Summary above.

[page=1955] No additional professional services will be needed to comply with the rules proposed for readoption with amendments, repeals and proposed new rules. The costs of compliance with the rules are discussed in the Economic Impact above. The Board believes that the rules proposed for readoption with amendments, repeals and
proposed new rules should be uniformly applied to all licensees in order to ensure the health, safety and welfare of New Jersey consumers who seek marriage and family therapy, professional counseling and rehabilitation counseling services. Therefore, no differing compliance requirements for any licensees are provided based upon the size of the business.

Smart Growth Impact

The Board does not believe that the rules proposed for readoption with amendments, repeals and proposed new rules will have any impact upon the achievement of smart growth or upon the implementation of the State Development and Redevelopment Plan.

Housing Affordability Impact

The rules proposed for readoption with amendments, repeals and proposed new rules will have an insignificant impact on affordable housing in New Jersey and there is an extreme unlikelihood that the rules would evoke a change in the average costs associated with housing because the rules concern the provision of marriage and family therapy, professional counseling and rehabilitation counseling services.

Smart Growth Development Impact

The rules proposed for readoption with amendments, repeals and proposed new rules will have an insignificant impact on smart growth and there is an extreme unlikelihood that the rules would evoke a change in housing production in Planning Areas 1 or 2 or within designated centers under the State Development and Redevelopment Plan in New Jersey because the rules concern the provision of marriage and family therapy, professional counseling and rehabilitation counseling services.

Full text of the rules proposed for repeal may be found in the New Jersey Administrative Code at N.J.A.C. 13:34-1.11, 4.1, 11.1, 19.4, 19.6, 21.1, 28.4 and 28.6.

Full text of the rules proposed for readoption may be found in the New Jersey Administrative Code at N.J.A.C. 13:34.

Full text of the proposed amendments and new rules follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):
