MEMORANDUM

To: Members of the Commission

From: Nancy Wittenberg
Executive Director

Date: October 2, 2019

Subject: Summary of the October 11, 2019 Meeting Packet

---

**Minutes**

The September 13, 2019 Commission Meeting minutes (open and closed session) and attachments are included in your packet.

**Public Development Application**

The following public development applications are being recommended for approval with conditions:

1. **Application Number 1984-1345.008/ Jackson Township**, Jackson Township, Rural Development Area, Installation of a 13.7 acre ground mounted solar energy facility.

2. **Application Number 1990-0450.007/ Sunoco Retail, LLC for the New Jersey Turnpike Authority**, Lacey Township, Parkway Overlay District underlain by the Pinelands Preservation Area District, Construction of a gasoline fueling station and a 3,899 square foot convenience store at the Forked River Service Area within the Garden State Parkway right-of-way in Lacey Township.

3. **Application Number 1990-0809.003/ Town of Hammonton**, Town of Hammonton, Pinelands Town, Demolition of a building, 50 years old or older.

4. **Application Number 2018-0095.001/ Atlantic County and Stockton University**, Galloway Township, Rural Development Area and Regional Growth Area, Improvements to the intersection of Pomona Road and Vera King Farris Drive.

5. **Application Number 2018-0036.001/ Atlantic County**, Galloway Township, Rural Development Area and Regional Growth Area, Improvements to the Jimmie Leeds right-of-way.
**Waiver of Strict Compliance**

There are no Waiver of Strict Compliance applications on this month’s agenda.

**Letter of Interpretation**

No Pinelands Development Credit (PDC) Letters of Interpretation were issued since the last Commission meeting.

**Master Plans and Ordinances Not Requiring Commission Action**

We have included a memorandum on one master plan amendment that we reviewed and found to raise no substantial issues with respect to Comprehensive Management Plan standards. This amendment was submitted by Beachwood Borough.

**Other Resolutions**

A resolution related to the New Jersey Department of Environmental Protection’s proposal to exchange lands located in the Pinelands Area with Ocean County is included in the packet, along with the Department’s letter of explanation and detailed report. The Department is proposing to convey approximately 192 acres of State-owned land surrounding the historic Cedar Bridge Tavern to Ocean County. In return, the County will transfer ownership of approximately 269 acres of nearby County-owned land to the State. All of the lands involved in the proposed exchange are located in the Pinelands Preservation Area District and Forest Area, in Barnegat and Stafford townships. The State acquired the 192 acres in 1980 using a combination of Green Acres Bond funds and federal Pinelands acquisition funds, commonly referred to as Section 502 funding under the National Parks and Recreation Act of 1978. Changes in management of lands acquired using Section 502 funding require concurrence by the Pinelands Commission and, ultimately, approval by the United States Department of the Interior. We are recommending that the Commission adopt the resolution to indicate its concurrence with the Department’s proposal.

**Closed Session**

The Commission may convene into closed session.

---

Please note that future meetings and office closure dates, as well as any Pinelands-related activities of interest, are listed at the bottom of the agenda.

/ PC1
NEW JERSEY PINELANDS COMMISSION MEETING AGENDA
Friday, October 11, 2019
Richard J. Sullivan Center for Environmental Policy and Education
Terrence D. Moore Conference Room
15C Springfield Road
New Lisbon, New Jersey
9:30 a.m.

1. Call to Order
   - Open Public Meetings Act Statement
   - Roll Call
   - Pledge Allegiance to the Flag

2. Adoption of Minutes
   - August 9, 2019 (closed session)
   - September 13, 2019 (open and closed session)

3. Committee Chairs' and Executive Director's Reports

4. Matters for Commission Consideration Where the Record is Closed
   A. Permitting Matters
      - Office of Administrative Law
         • None
      - Review of Local Approval
         • None
      - Public Development Projects and Waivers of Strict Compliance
         • Approving With Conditions Applications for Public Development (Application Numbers 1984-1345.008 (installation of a ground mounted solar facility in Jackson Twp.), 1990-0450.007 (construction of a gasoline station and convenience store at the Forked River Service Area on the Garden State Parkway) & 1990-0809.003 (demolition of a building in Hammonton).
• Approving With Conditions Applications for Public Development (Application Numbers 2018-0036.001 (road improvements in the Jimmie Leeds Road right-of-way in Galloway Twp. & 2018-0095.001 (road improvements at an intersection in Galloway Twp.)

B. Planning Matters

▪ Municipal Master Plans and Ordinances
  • None

▪ Other Resolutions
  • None

▪ CMP Amendments
  • None

5. Public Comment on Public Development Applications and Waivers of Strict Compliance Where the Record is Not Closed.

A. Public Development Projects

▪ Application No. 1985-0204.009 – Hamilton Township Board of Education
  Received on: April 15, 2019
  Project: Construction of a playground and associated improvements at the William Davies Middle School
  Municipality: Hamilton Township
  Block 1027, Lot 1.02

▪ Application No. 2018-0029.001 – New Jersey Department of Transportation
  Received on: February 6, 2018
  Project: Construction of a stormwater basin at the U.S. Route 322 and Cologne Avenue intersection
  Municipality: Hamilton Township

▪ Application No. 2018-0186.001 – Medford Township
  Received on: November 27, 2018
  Project: Construction of a 23,516 square foot municipal building
  Municipality: Medford Township
  Block 1201, Lot 1.01; Block 1601, Lot 2

▪ Application No. 2019-0115.001 – Town of Hammonton
  Received on: August 15, 2019
  Project: Demolition of a single family dwelling, 50 years old or older
  Municipality: Hammonton Town
  Block 3606, Lot 18

B. Waivers of Strict Compliance

▪ None
6. Master Plans and Ordinances Not Requiring Commission Action
   - Beachwood Borough Planning Board Resolution 2019-30

7. Other Resolutions
   - To Concur with the New Jersey Department of Environmental Protection’s Conveyance of State-Owned Lands in Barnegat Township Acquired with Section 502 Funding to Ocean County

8. Presentations
   - Annual Update on Permanent Land Protection in the Pinelands Area

9. General Public Comment

10. Resolution to Retire into Closed Session (if needed) – Personnel, Litigation and Acquisition Matters (The Commission reserves the right to reconvene into public session to take action on closed session items.) The Commission may convene a Closed Session to receive legal advice concerning the remanded South Jersey Gas transmission line application (Pinelands Development Application No. 2012-0056.001) and following such closed session may reconvene into public session to consider a resolution addressing the remand.

11. Adjournment
Events of Interest

Pinelands World Water Monitoring Challenge -Batsto Village-October 25, 2019- 9:00 a.m.

To ensure adequate time for all members of the public to comment, we will respectfully limit comments to three minutes. Questions raised during this period may not be responded to at this time but where feasible, will be followed up by the Commission and its staff.

Pinelands Commission and Committee meeting agendas are posted on the Commission’s Web site and can be viewed at www.nj.gov/pinelands/. The agendas are also posted and can be viewed at the Pinelands Commission Offices, 15 Springfield Road, New Lisbon, New Jersey or for more information on agenda details, e-mail the Public Programs Office at Info@pinelands.nj.gov or call (609) 894-7300.

Upcoming Meetings

Unless otherwise noted, all meetings/events are conducted at the offices of the Pinelands Commission in New Lisbon

Upcoming Office Closures

Monday, October 14, 2019  Columbus Day
Commissioners Present
Alan W. Avery Jr., Sean Earlen, Jordan P. Howell, Jerome H. Irick, Ed Lloyd, Mark Lohbauer, William Pikolycky and Chairman Richard Prickett. Also present were Executive Director Nancy Wittenberg, Governor’s Authorities Unit representative Craig Ambrose and Deputy Attorney General (DAG) Kristina Miles.

Commissioners Absent
Candace M. Ashmun, Daniel Christy, Jane Jannarone, Gary Quinn and D’Arcy Rohan Green.

Chairman Prickett called the meeting to order at 9:37 a.m.

DAG Miles read the Open Public Meetings Act Statement (OPMA).

Executive Director Nancy Wittenberg called the roll and announced the presence of a quorum. (Eight Commissioners participated in the meeting.)

The Commission and public in attendance pledged allegiance to the Flag.

Minutes
Chairman Prickett presented open session minutes from the August 9, 2019 Commission meeting. Commissioner Earlen moved the adoption of the minutes. Commissioner Lohbauer seconded the motion.
The open session minutes from the August 9, 2019 meeting were adopted by a vote of 8 to 0.

Chairman Prickett said the closed session minutes from the August 9, 2019 will have to be voted on at a future meeting because there are not enough votes to adopt them due to a recusal.

**Committee Chairs' Reports**

Chairman Prickett provided an update on the August 23, 2019 Policy and Implementation Committee meeting:

The Committee adopted the minutes of the July 26, 2019 meeting.

The Committee recommended Commission adoption of the July 2019 Pinelands Infrastructure Trust Fund (PITF) Master Plan amendment for project selection and funding levels.

The Committee received an update on the Garden State Parkway Interchange 44 Secondary Impacts Agreement and successful land acquisition efforts by Atlantic County. The County has acquired 326 acres thus far.

The Committee received an update on a 1998 Memorandum of Agreement (MOA) with Atlantic County for the Park at Lake Lenape and authorized staff to proceed with work on an amendment that would allow reconfiguration of an existing dock and construction of a second dock at the Western Lakeshore Area.

Commissioner Avery provided an update on the August 9, 2019 Personnel and Budget Committee meeting:

The Committee adopted the minutes from the May 3, 2019, meeting.

The check registers, electronic disbursements and application fees covering April, May and June were reviewed. It was noted that the Fiscal Year 19 application fees have exceeded the budgeted amount by 57%.

The HR manager provided an update on employee actions.

Staff presented a draft Fiscal Year 2020 Budget. Commissioner Avery added that issues and projects raised by Commissioners during the Executive Director’s evaluation have been budgeted for this fiscal year.

There was no public comment.

The Committee met in Closed Session for an update on Communication Workers of America (CWA) contract negotiations.
Honoring Commissioner Bob Barr
Chairman Prickett read a resolution into the record recognizing Commissioner Robert Barr’s work at the Commission.

Commissioner Pikolycky made a motion Expressing the Commission’s appreciation to Robert Barr for his service as a member of the Commission between March 2015 and June 2019 (See Resolution # PC4-19-31). Commissioner Lloyd seconded the motion.

Commissioners expressed their appreciation for Commissioner Barr’s service on the Commission.

Executive Director Wittenberg added that Commissioner Barr was an engaged Commissioner and she will miss having him on the board.

The Commission adopted the resolution by a vote of 8 to 0.

Executive Director’s Reports
ED Wittenberg provided an update on the following items:

- A paper copy of the monthly management report has been distributed. She said this is the third month of the new format and hopefully next month the report will be emailed prior to the Commission meeting.
- On September 9th, staff met with representatives from South Jersey Gas (SJG). SJG requested the meeting. Staff explained the procedural options for a pipeline project in the Forest Area including a private application, public development application and waiver of strict compliance for a compelling public need. SJG did not specify or present information related to a specific project.

Commissioner Lloyd asked about the amount of time staff spends processing the Open Public Records Act (OPRA) requests noted in the August monthly management report.

ED Wittenberg said that it depends on the specific request, but some requests can take a substantial amount of time. She noted that some of the OPRA requests are actually file review requests.

Commissioner Pikolycky asked for additional information on the Governor’s Interagency Work Group.

ED Wittenberg said the group includes a number of state agencies working to reconstitute the efforts of the New Jersey State Planning Commission.

Director Larry Liggett added that the State Designated Centers located in the coastal areas are set to expire in 2020. He said plan endorsement is a lengthy and expensive process. Commissioner Lohbauer said the Commission has an obligation to take action on the SJG remand. He said the Commission would not be able to take an action today due to the lack
of a quorum. He urged his fellow Commissioners and staff to make an effort to have a quorum at the next regular Commission to settle the matter through a resolution for both the applicant and the public.

Commissioner Irick asked if SJG recognized that the application is no longer valid.

ED Wittenberg said that topic was not discussed. She said SJG came in to talk about moving forward with a new application.

Director Liggett provided an update on the following:

- Staff is finalizing a few revisions to the Kirkwood-Cohansey policies that the P&I Committee requested back in June. He said the policy will be presented to the P&I Committee again and then staff will meet with stakeholder partners.
- Staff continues to explore ways in which solar opportunities in the Pinelands can be expanded.
- Staff continues to refine the list of climate change topics that the Commission could choose to focus on.

Director Chuck Horner provided information on the following regulatory matters:

- Seasonal agricultural employee housing issues have once again been the topic of a newspaper article. He said the latest article mentioned failing septic systems. He said the employee housing issue is two-fold. First, the repair or replacement of an on-site waste water disposal system (septic) is exempt from Commission review. He said when an agricultural operation changes the use of a storage barn into housing it requires an application to the Commission. Currently, the Commission is reviewing about 10-15 change of use application for seasonal agricultural employee housing.
- Staff attended a public forum in Stafford Township to address drainage issues in and around the Ocean Acres residential development. A number of years ago the Commission approved a compelling public need waiver of strict compliance which permitted Stafford Township to construct a stormwater basin on the Southside of Route 72. He noted that the basin was never constructed.
- Commission staff continues to field inquiries regarding growing cannabis. Growers are currently seeking use variances in various municipalities. Growing an agricultural crop in the Pinelands is exempt from review. He noted that processing a crop into a product requires an application to the Commission.
- The Commission issued a Certificate of Filing for a large residential private development application in Jackson Township. At this time, the applicant is seeking municipal approvals. He noted that members of the public can offer comment during the municipal review process. He said once the Township issues an approval, it is sent to the Commission for review. He said staff reviews the stormwater, wetlands, public comment and threatened and endangered species reports. He said after review of the municipal approval, the Commission issues a document that allows the permit to take effect or schedules a hearing because the application no longer meets a standard in the Comprehensive Management Plan (CMP).
Commissioner Howell raised concerns about the intensity with which cannabis is grown and asked Director Horner if the cannabis was to be grown in an industrial building, would it still be exempt from the Commission’s review.

Director Horner said the way the rules are written in the CMP, growing an agriculture crop does not require an application regardless if the crop is grown in a field or a building. He added that degradation of water quality is not permitted in the Pinelands and he would be happy to provide further information about this at the Commission’s October meeting.

Commissioner Lohbauer had concerns about how much more water cannabis needs than other crops.

Stacey Roth, Chief, Legal & Legislative Affairs, reminded Commissioners that all development including farming must meet the environmental standards of the CMP as they proceed through the local review process. She said the New Jersey Department of Environmental Protection (NJDEP) handles water allocation issues, including wastewater.

Commissioner Lohbauer added that the Commission may want to speed up adopting the Kirkwood Cohansey policy changes to protect Pinelands aquifers if industrial agricultural is a possibility in the near future.

Chairman Prickett recommended exploring how different growing cannabis is from other vegetables and leafy greens.

Commissioner Irick said the Department of Agriculture and Rutgers are drafting Best Management Practices for growing cannabis and should have standards next spring.

Chairman Prickett asked about the status of the Land Use, Climate Impacts and Sustainability Committee (LUCIS).

ED Wittenberg said staff continues to work internally to identify specific items that the Commission can address. She said she has a list of potential speakers that include both government and private entities. She said she and Chief Planner Susan Grogan will be attending a meeting with Sustainable Jersey to discuss the possibility of coordinating efforts to combat climate change through stormwater management, energy efficiency and building codes. Staff thought this was a better approach than the rule making process.

Public Development Projects and Other Permit Matters
Chairman Prickett presented a resolution proposing the construction of a paved access driveway, 11-space parking lot and the installation of a rubberized surface on an existing playground at an educational complex in Hamilton Township.

Commissioner Lohbauer made a motion Approving With Conditions an Application for Public Development (Application Number 1989-0089.012) (See Resolution # PC4-19-32). Commissioner Earlen seconded the motion.
Commissioner Lloyd asked if the rubberized surface was permeable.

Director Horner said the surface is not permeable.

Chairman Prickett asked about the underground infiltration system.

Director Horner said he would like to check the stormwater management plans but it probably consists of a stone bed with underground recharge pipes.

Chairman Prickett said he would vote on the application regardless, he was just interested in learning about the proposed drainage.

The Commission adopted the resolution by a vote of 8 to 0.

Chairman Prickett presented a resolution recommending approval for the demolition of a service building and the construction of a new service building at the Forked River Rest Area on the Garden State Parkway.

Commissioner Avery made a motion Approving With Conditions an Application for Public Development and Certificate of Appropriateness (Application Number 1990-0450.006) (See Resolution # PC4-19-33). Commissioner Earlen seconded the motion.

Chairman Prickett said staff is recommending recordation to preserve the image of the structure. He said he looked at the structure on-line and it’s a glass building.

The Commission adopted the resolution by a vote of 8 to 0.

Chairman Prickett presented a resolution recommending a Waiver of Strict Compliance for the development of a single family dwelling in Manchester Township.

Commissioner Pikolycky made a motion Approving With Conditions an Application for a Waiver of Strict Compliance (Application Number 2019-0064.001) (Single Family Dwelling) (See Resolution # PC4-19-34). Commissioner Lohbauer seconded the motion.

The Commission adopted the resolution by a vote of 8 to 0.

Director Horner said the stormwater management for the school complex in Hamilton Township (Application Number 1989-0089.012) will consist of stone trenches to be constructed underneath the pavement with perforated pipe to retain and infiltrate the stormwater.

Planning Matters

Chairman Prickett presented a resolution that establishes the project priority list for the Pinelands Infrastructure Trust Fund.
Commissioner Lohbauer made a motion To Adopt an Amendment to the Pinelands Infrastructure Master Plan to Set a Project Priority List and Recommend Funding Levels for Each Project (See Resolution # PC4-19-35). Commissioner Lloyd seconded the motion.

The Commission adopted the resolution by a vote of 8 to 0.

Public Comment on Public Development Applications and Items where the record is open

Chairman Prickett read the list of Public Development applications. No one from the public offered comment on the applications.

Marianne Clemente of Barnegat Township asked how many Commissioners need to be present to have a quorum.

Chairman Prickett said 8.

Ordinances Not Requiring Commission Action

Chairman Prickett asked if any Commissioners had questions regarding the ordinances not requiring Commission action.

- Berkeley Township Planning Board Resolution 19-06
- Pemberton Township Ordinances 22-2019 and 24-2019

No members of the Commission had questions.

Other Resolutions
Chairman Prickett said the next resolution is to adopt the Fiscal Year 2020 Budgets.

Commissioner Lohbauer made a motion To Adopt the Pinelands Commission’s Fiscal Year 2020 Budgets for the Operating Fund, the Kirkwood Cohansey Aquifer Assessment Study Fund, Katie Trust Fund and the Pinelands Conservation Fund (See Resolution # PC4-19-36). Commissioner Avery seconded the motion.

Commissioner Avery noted that the Personnel and Budget Committee reviewed all of the budget materials and recommended that the Commission take action on the FY2020 budgets.

ED Wittenberg said the Fiscal Year 2020 budget consists of four separate budgets: Operating Fund ($5,915,074), Kirkwood-Cohansey Aquifer Assessment Study Fund ($70,000), Katie Trust Fund ($15,000) and the Pinelands Conservation Fund ($618,255).

She said the state appropriation increased by $150,000 from FY 2019 to FY 2020. She said the supplemental fund remains the same at $687,000. She said this money is used to offset the fringe benefits, which cost the Commission 1.8 million dollars annually. She said
application fees for FY 19 were up and helped fill gaps in the budget. She noted it is
difficult to predict application fees because it depends on the development activity, which
fluctuates based on the economy.

Commissioner Lohbauer said there is a $120,000 reserved to paint Fenwick Manor; he
asked if the building would be painted this fiscal year.

ED Wittenberg said Fenwick Manor will be painted this fiscal year.

ED Wittenberg reviewed the Operating Fund Expenditures.

Commissioner Lloyd suggested scheduling a meeting with someone from the Governor’s
office to discuss the shortfall with fringe benefits. He said labor counsel fees are high and
it may be wise to explore other options.

Jessica Lynch, Business Service Manager, reviewed a donut graph that illustrates how the
Commission’s expenditures exceed its revenue.

ED Wittenberg reviewed the Kirkwood-Cohansey budget, which allocated money for
salary and rule writing. Director Liggett said it might be necessary to contract with the
United States Geological Survey depending on public comment and formal rule making.

ED Wittenberg said money in the Katie Fund will be used to enhance the current garden
and include more native Pinelands species. She noted the garden project will not begin until
after the Fenwick Manor has been painted. She said the garden will tie into the exhibit
experience.

ED Wittenberg reviewed the Pinelands Conservation Fund (PCF), which consists of four
components. Additional funds were added to PCF earlier this year from the
South Jersey Transportation Authority Memorandum of Agreement offset.

ED Wittenberg reviewed the FY2020 Initiatives for each office. (See attached presentation
slides).

Commissioners asked questions focused on the following initiatives: rule making, ORV’s
and topics the LUCIS Committee can undertake.

ED Wittenberg went into great detail about the LUCIS Committee. She said staff is
identifying if the existing solar rules need to be amended to allow for more solar projects.
She said staff continues to finalize the Kirkwood-Cohansey policy and research water
conservation efforts. She said Sustainable Jersey affords towns the opportunity to become
more energy efficient and preserve water sources. She said the Pinelands Municipal
Council might be able to assist.

Commissioner Howell said he has worked with Sustainable Jersey and found that it works
better in wealthy towns. He said Sustainable Jersey can’t be the main strategy.
ED Wittenberg said determining the health of the forest, prescribed burns and no net loss of tree policy are potential forest management approaches.

Commissioner Lohbauer asked that the staff research the potential for solar at the Commission. He said if we are asking municipalities to become more energy efficient, it’s only fair for the Commission to do the same.

ED Wittenberg said she reached out to the building authority but reminded Commissioners the Commission does not own the property.

ED Wittenberg reviewed the ORV initiatives. She said she would like to hold a technical conference where NJDEP, users and advocates can confer and brainstorm.

Commissioner Lohbauer suggested that the Commission create a resolution mirroring the Wharton resolution, for the other state parks in the Pinelands.

Commissioner Avery said he would like to meet with the NJDEP and hear from them on what works best to combat ORV illegal use and damage. He noted that it’s the NJDEP’s land and they are on the frontline. He said he supports the idea of task force because the issue is not only in the Pinelands, it’s statewide and happens on both public and private lands. Commissioner Avery suggested that it may behoove the Commission to reach out to the Chief of Police Associations from each Pinelands county.

Commissioner Avery thanked Nancy and staff for the in depth budget and work plan presentations. He said some Commissioners requested more information on these items during the ED’s evaluation.

The Commission adopted the resolution by a vote of 8 to 0.

General Public Comment
Richard Dann, staff representative from the CWA provided information related to the current contract negotiations (see attached statement) and provided a letter to Commissioners from some members of staff.

Marianne Clemente of Barnegat, NJ said there are a number of Pinelands Commission nominations sitting in the Senate. She suggested that the Commissioners help move those appointments. She said Sustainable Jersey is funded by fossil fuels. She said she was disappointed that a meeting was held with South Jersey Gas. She said there is a march scheduled from Bordentown/Chesterfield to Trenton to request that the Governor place a moratorium on fossil fuels.

Georgina Shanley of Ocean City, NJ, said Sustainable Jersey is supported by the fossil fuel industry. She said a scientist should speak to the Climate Committee. She said July was the hottest month on record and species are becoming extinct everyday. She said there
should be a moratorium on all development in the Pinelands. She referred to the Executive Director’s meeting with South Jersey Gas as “impropriety”.

Temma Fishman of Medford Lakes, NJ, said she is disappointed that the Commission would not be voting on the South Jersey Gas resolution.

Ryann Grech of the Pinelands Preservation Alliance said the Alliance supports Pinelands staff and she hopes the contract is resolved quickly. She was pleased to hear about the possibility of an Off-Road Vehicle symposium. She expressed concern that the Commission has once again not rescinded the South Jersey Gas approval.

Hara Rola of Haddon Township, NJ, urged the Commission to rescind the approval of the South Jersey Gas pipeline and to not approve future pipeline projects.

Resolution to Retire into Closed Session
DAG Miles read a resolution to enter into closed session to discuss personnel matters. Commissioner Lloyd made a motion to enter into closed session. Commissioner Lohbauer seconded the motion. The Commission agreed to retire into closed session by a vote of 8 to 0, beginning at 11:38 a.m.

Return to Open Session
The Commission entered back into open session at 12:58 p.m. Stacey Roth said that in closed session the Commission discussed two personnel matters. She said the Commission was provided an update on the labor negotiation and the Commission also discussed the Executive Director’s evaluation.

 Commissioner Avery said some members of the public commented on the meeting the Executive Director had with South Jersey Gas representatives. Commissioner Avery said that the CMP in section 7:50-4.2 affords applicants the opportunity to meet with the Executive Director prior to submitting an application. He reminded his fellow Commissioners and members of the public that the plan provides for these types of meetings.

Commissioner Earlen said a number of years back the Executive Director and Commissioners received disturbing material from an unknown individual. He informed Commissioners and members of public that the State Police arrested the person responsible and charged the person with terroristic threats and stalking.

Commissioner Lohbauer said he took his grandchildren to meet Greta Thunberg when she recently arrived in Manhattan. He said that on September 20, 2019 the young Swedish activist will lead a climate strike.

Chairman Prickett announced that World Water Monitoring Day is scheduled for October 25, 2019.
Adjournment
Commissioner Pikolycky moved to adjourn the meeting. Commissioner Earlen seconded the motion. The Commission agreed to adjourn at 1:06 p.m.

Certified as true and correct:

[Signature]

Jessica Noble, Executive Assistant

Date: September 23, 2019
RESOLUTION OF THE NEW JERSEY PINELANDS COMMISSION

NO. PC4-19-__31__

TITLE: Expressing the Commission’s appreciation to Robert Barr for his service as a member of the Commission between March 2015 and June 2019

Commissioner **Ribolycky** moves and Commissioner **Lloyd** seconds the motion that:

WHEREAS, Robert Barr served as a gubernatorial representative on the Pinelands Commission from March 2015 to June 2019; and

WHEREAS, Mr. Barr served on the Commission’s Policy and Implementation Committee, Agriculture Committee and Personnel and Budget Committee; and

WHEREAS, during his tenure, the Commission reviewed and approved 263 municipal master plans and ordinances, as well as 142 public development applications; and

WHEREAS, during his tenure, the Commission permanently preserved nearly 1,300 acres of land in the Pinelands through the Pinelands Conservation Fund; and

WHEREAS, Mr. Barr was passionate about, and advocated for, measures to better protect land in the Pinelands from damages caused by the illegal use of off-road vehicles; and

WHEREAS, Mr. Barr has devoted his life to helping others. He is a community activist for the disabled, and he serves as the Chairperson of the Ocean City Housing Authority, which provides affordable housing for low- and moderate-income residents in Ocean City. Mr. Barr also serves on the Ocean City Council; and

WHEREAS, the members of the Commission want to recognize Mr. Barr’s significant contributions and express their appreciation for the service that he performed; and

WHEREAS, pursuant to N.J.S.A. 13:18A-5h, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period the Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE BE IT RESOLVED that the members of the Pinelands Commission, assembled at the Richard J. Sullivan Center for Environmental Policy and Education on this 13th day of September, 2019, do hereby express our appreciation to our colleague and friend, Robert Barr, for his commitment to the Pinelands and for his service as a member of the Commission between March 2015 and June 2019.

Adopted at a meeting of the Pinelands Commission

Date: September 13, 2019

Nancy Wittenberg
Executive Director

Richard Prickett
Chairman
RESOLUTION OF THE NEW JERSEY PINELANDS COMMISSION

NO. PC4-19-32

TITLE: Approving With Conditions an Application for Public Development (Application Number 1989-0089.012)

Commissioner Lohbauer moves and Commissioner Earlen seconds the motion that:

WHEREAS, the Pinelands Commission has reviewed the Public Development Application Report and the recommendation of the Executive Director that the following application for Public Development be approved with conditions:

1989-0089.012

Applicant: Hamilton Township Board of Education
Municipality: Hamilton Township
Management Area: Pinelands Regional Growth Area
Date of Report: August 22, 2019
Proposed Development: Construction of a 16,120 square foot paved access driveway and eleven space parking lot, and the installation of 2,800 square feet of rubberized surface on an existing playground.

WHEREAS, no request for a hearing before the Office of Administrative Law concerning the Executive Director's recommendation has been received for this application; and

WHEREAS, the Pinelands Commission hereby adopts the Conclusion of the Executive Director for the proposed development; and

WHEREAS, the Pinelands Commission hereby determines that the proposed public development conforms to the standards for approving an application for public development set forth in N.J.A.C. 7:50-4.57 if the conditions recommended by the Executive Director are imposed; and

WHEREAS, pursuant to N.J.S.A. 13A-5h, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE BE IT RESOLVED that Application Number 1989-0089.012 for public development is hereby approved subject to the conditions recommended by the Executive Director.

Adopted at a meeting of the Pinelands Commission

Date: September 13, 2019

Nancy Wittenberg
Executive Director

Richard Pickett
Chairman
Ann Marie Fala, Business Administrator  
Hamilton Township Board of Education (via email)  
1876 Dr. Dennis Foreman Drive  
Mays Landing, NJ 08330

Re: Application # 1989-0089.012  
Block 995, Lot 1.01  
Hamilton Township

Dear Ms. Fala:

The Commission staff has completed its review of this application for construction of a 16,120 square foot paved access driveway and eleven space parking lot and the installation of 2,800 square feet of rubberized surface on an existing playground. Enclosed is a copy of a Public Development Application Report. On behalf of the Commission’s Executive Director, I am recommending that the Pinelands Commission approve the application with conditions at its September 13, 2019 meeting.

Any interested party may appeal this recommendation in accordance with the appeal procedure attached to this document. If no appeal is received, the Pinelands Commission may either approve the recommendation of the Executive Director or refer the application to the New Jersey Office of Administrative Law for a hearing.

Prior to any development, the applicant shall obtain any other necessary permits and approvals.

Sincerely,

[Signature]

Charles M. Horner, P.P.  
Director of Regulatory Programs

Enc: Appeal Procedure

c: Secretary, Hamilton Township Planning Board (via email)  
Hamilton Township Construction Code Official (via email)  
Atlantic County Department of Regional Planning and Development (via email)  
William B. Edwards, PE (via email)
This application proposes construction of a 16,120 square foot paved access driveway and eleven space parking lot and the installation of 2,800 square feet of rubberized surface on an existing playground on the above referenced 48.59 acre parcel in Hamilton Township. The George L. Hess Educational Complex is located on the parcel.

The applicant also proposes the in-kind reconstruction/replacement of existing paved roads, sidewalks and a paved parking lot. The in-kind reconstruction/replacement of those structures does not require application to the Commission.

STANDARDS

The Commission staff has reviewed the proposed development for consistency with all standards of the Pinelands Comprehensive Management Plan (CMP). The following reviews the CMP standards that are relevant to this application:

Land Use (N.J.A.C. 7:50-5.28(a))

The proposed development is located within a Pinelands Regional Growth Area. The proposed development is a permitted land use in a Pinelands Regional Growth Area.

Wetlands Standards (N.J.A.C. 7:50-6.6)

There are wetlands located within 300 feet of the above referenced parcel. All development, including clearing and land disturbance, will be located at least 300 feet from wetlands.

Vegetation Management Standards (N.J.A.C. 7:50-6.23 & 6.26)

The proposed development will be located in an existing developed and maintained grassed area. The
proposed soil disturbance is limited to that which is necessary to accommodate the proposed
development.

The Landscaping and Revegetation guidelines of the CMP recommend the use of grasses that are
tolerant of droughty, nutrient poor conditions. The applicant proposes to utilize a seed mixture which
meets that recommendation.

Stormwater Management Standards (N.J.A.C. 7:50-6.84(a)6)

The applicant has demonstrated that the proposed development is consistent with the stormwater
management standards contained in the CMP. To meet the stormwater management standards, the
applicant will be constructing an underground stormwater infiltration system.

Cultural Resource Standards (N.J.A.C. 7:50-6.151)

The Commission staff reviewed the application for evidence of cultural resources on the parcel. Based
upon the lack of potential for significant cultural resources on the parcel, a cultural resource survey was
not required.

PUBLIC COMMENT

The applicant has provided the requisite public notices. Notice to required land owners within 200 feet
of the above referenced parcel was completed on April 1, 2019. Newspaper public notice was completed
on June 17, 2019. The application was designated as complete on the Commission’s website on July 11,
2019. The Commission’s public comment period closed on August 9, 2019. No public comment was
submitted to the Commission regarding this application.

CONDITIONS

1. Except as modified by the below conditions, the proposed development shall adhere to
the plan, consisting of 24 sheets, prepared by Edwards Engineering Group, Inc. all sheets
dated April 22, 2019 and last revised June 26, 2019.

2. Disposal of any construction debris or excess fill may only occur at an appropriately
licensed facility.

3. Any proposed revegetation shall adhere to the "Vegetation" standards of the CMP.
Where appropriate, the applicant is encouraged to utilize the following Pinelands native
grasses for revegetation: Switch grass, Little bluestem and Broom-sedge.

4. Prior to any development, the applicant shall obtain any other necessary permits and
approvals.

5. All development, including clearing and land disturbance, shall be located at least 300
feet from wetlands.
CONCLUSION

As the proposed development conforms to the standards set forth in N.J.A.C. 7:50-4.57, it is recommended that the Pinelands Commission APPROVE the proposed development subject to the above conditions.
The Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-4.91) provides an interested party the right to appeal any determination made by the Executive Director to the Commission in accordance with N.J.A.C. 7:50-4.91. An interested party is someone who has a specific property interest sufficient to require a hearing on constitutional or statutory grounds. Only appeal requests submitted by someone meeting the definition of an interested party will be transmitted to the New Jersey Office of Administrative Law for a hearing. Any such appeal must be made in writing to the Commission and received by the Commission’s office no later than 5:00 PM on September 9, 2019 and include the following information:

1. the name and address of the person requesting the appeal;
2. the application number;
3. the date on which the determination to be appealed was made;
4. a brief statement of the basis for the appeal; and
5. a certificate of service (a notarized statement) indicating that service of the notice has been made, by certified mail, on the clerk of the county, municipal planning board and environmental commission with jurisdiction over the property which is subject of this decision.

Within 15 days following receipt of a notice of valid appeal, the Executive Director shall initiate the procedures for assignment of an Administrative Law Judge to preside at the hearing pursuant to the Administrative Procedures Act, N.J.S.A. 52:14B-1 et seq., and the procedures established by the Office of Administrative Law. The time, date and location of such hearing shall be designated by the Office of Administrative Law.
RESOLUTION OF THE NEW JERSEY PINELANDS COMMISSION

NO. PC4-19-33

Commissioner Avery moves and Commissioner Earlen seconds the motion that:

WHEREAS, the Pinelands Commission has reviewed the Public Development Application Report and Certificate of Appropriateness and the recommendation of the Executive Director that the following application be approved with conditions:

1990-0450.006  
Applicant: HMS Host Corporation on behalf of the New Jersey Turnpike Authority  
Municipality: Lacey Township  
Management Area: Pinelands Preservation Area District/Parkway Overlay District  
Date of Report: August 23, 2019  
Proposed Development: Demolition of an existing 15,600 square foot service building and the construction of a 12,675 square foot service building at the Forked River Rest Area within the Garden State Parkway right-of-way.

WHEREAS, no request for a hearing before the Office of Administrative Law concerning the Executive Director’s recommendation has been received for this application; and

WHEREAS, the Pinelands Commission hereby adopts the Conclusion of the Executive Director for the proposed development; and

WHEREAS, the Pinelands Commission hereby determines that the proposed public development and Certificate of Appropriateness both conform to the standards for approving an application for public development set forth in N.J.A.C. 7:50-4.57 and the standards for approving a Certificate of Appropriateness set forth in N.J.A.C. 7:50-6.156 if the conditions recommended by the Executive Director are imposed; and

WHEREAS, pursuant to N.J.S.A. 13A-5h, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period and Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE BE IT RESOLVED that Application Number 1990-0450.006 for public development and a Certificate of Appropriateness is hereby approved subject to the conditions recommended by the Executive Director.

Adopted at a meeting of the Pinelands Commission

Nancy Wittenberg  
Executive Director

Date: September 13, 2019

Richard Prickett  
Chairman
August 23, 2019

Ray Nielsen  
HMS Host Corporation  
6905 Rockledge Drive  
Bethesda, MD  20817

Re:  Application # 1990-0450.006  
Garden State Parkway  
Forked River Service Area  
Lacey Township

Dear Mr. Nielsen:

The Commission staff has completed its review of this application for demolition of an existing 15,600 square foot service building and the construction of a 12,675 square foot service building at the Forked River Rest Area within the Garden State Parkway right-of-way. Enclosed is a copy of a Public Development Application Report. The Report also includes a Certificate of Appropriateness to address cultural resources. On behalf of the Commission’s Executive Director, I am recommending that the Pinelands Commission approve the application with conditions at its September 13, 2019 meeting.

Any interested party may appeal this recommendation in accordance with the appeal procedure attached to this document. If no appeal is received, the Pinelands Commission may either approve the recommendation of the Executive Director or refer the application to the New Jersey Office of Administrative Law for a hearing.

Prior to any development, the applicant shall obtain any other necessary permits and approvals.

Sincerely,

Charles M. Horner, P.P.  
Director of Regulatory Programs

Enc: Appeal Procedure  
c: Secretary, Lacey Township Planning Board (via email)  
Lacey Township Construction Code Official (via email)  
Lacey Township Environmental Commission (via email)  
Secretary, Ocean County Planning Board (via email)  
Christopher J. Borinski, PE (via email)
This application proposes demolition of an existing 15,600 square foot service building and the construction of a 12,675 square foot service building at the Forked River Rest Area within the Garden State Parkway right-of-way in Lacey Township. The existing service building is 50 years old or older.

**STANDARDS**

The Commission staff has reviewed the proposed demolition and construction for consistency with all standards of the Pinelands Comprehensive Management Plan (CMP). The following reviews the CMP standards that are relevant to this application:

**Land Use (N.J.A.C. 7:50-5.35)**

The proposed development is located in the CMP designated Parkway Overlay District and underlain by the Pinelands Preservation Area District. The proposed development is a permitted land use in the Parkway Overlay District.

**Vegetation Management Standards (N.J.A.C. 7:50-6.23 & 6.26)**

The proposed development will be located within existing developed, paved and landscaped areas. The proposed soil disturbance is limited to that which is necessary to accommodate the proposed development.

The Landscaping and Revegetation guidelines of the CMP recommend the use of grasses that are tolerant of droughty, nutrient poor conditions. The existing Forked River Rest Area is comprised of pavement and existing maintained lawn areas. The site of the proposed service building is surrounded by existing pavement. The applicant proposes to plant unspecified grass species in seven small discrete areas totaling less than 6,300 square feet, immediately adjacent to the proposed building.
Water Quality Standard (N.J.A.C. 7:50-6.83)

The proposed service building will be serviced by public sanitary sewer.

Cultural Resource Standards (N.J.A.C. 7:50-6.151)

The New Jersey State Historic Preservation Office (SHPO) previously determined that the Garden State Parkway was eligible for the National Register of Historic Places. The SHPO previously determined that existing Garden State Parkway service area buildings are contributing resources to the register eligible Garden State Parkway Historic District.

Based upon the SHPO determination that service area buildings are a contributing resource to the register eligible Garden State Parkway Historic District, the Commission staff has concluded that the 15,600 square foot building subject of this application is an historically significant resource and is, therefore, eligible for Pinelands Designation in accordance with the provisions of the CMP (N.J.A.C. 7:50-6.154).

The CMP (N.J.A.C. 7:50-6.156) requires that a certificate of appropriateness be issued by the Commission that identifies the required treatment of the historically significant resource from among three alternatives:

- preservation of the resource in place, if possible;
- preservation of the resource at another location, if preservation in place is not possible; or
- recordation.

The Commission staff has determined that recordation is the appropriate treatment for the historically significant resource. The standards of the CMP (N.J.A.C. 7:50-6.156(c)3.iii.) specify that the proposed recordation must conform to the Secretary of the Interior’s Standards and Guidelines for Archaeology and Historic Preservation. Prior to demolition, the building must be recorded according to the Historic American Building Survey standards. The design of the exterior of the replacement building must also conform to the Secretary of the Interior’s Standards and Guidelines for Archaeology and Historic Preservation and be approved by SHPO.

PUBLIC COMMENT

The applicant has provided the requisite public notices. Newspaper public notice was completed on July 10, 2019. The application was designated as complete on the Commission’s website on July 30, 2019. The Commission’s public comment period closed on August 9, 2019. No public comment was submitted to the Commission regarding this application.

CONDITIONS

1. Except as modified by the below conditions, the proposed development shall adhere to the plan, consisting of 22 sheets, prepared by CHA Consulting, Inc. and dated March 22, 2019.

2. Disposal of any construction debris or excess fill may only occur at an appropriately licensed facility.
3. Any proposed revegetation shall adhere to the "Vegetation" standards of the CMP. Where appropriate, the applicant is encouraged to utilize the following Pinelands native grasses for revegetation: Switch grass, Little bluestem and Broom-sedge.

4. Prior to any development, the applicant shall obtain any other necessary permits and approvals.

5. Copies of the recordation shall be provided to the Commission within sixty days of completion. Prior to demolition of the building, a copy of the recordation report shall be provided to the Commission staff. No demolition shall occur until the Commission responds in writing that the submitted recordation report meets the CMP recordation requirements. Prior to its development, the design of the exterior of the replacement building must also conform to the Secretary of the Interior's Standards and Guidelines for Archaeology and Historic Preservation and be approved by SHPO.

CONCLUSION

As the proposed development conforms to the standards set forth in N.J.A.C. 7:50-4.57, it is recommended that the Pinelands Commission APPROVE the proposed development subject to the above conditions.
The Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-4.91) provides an interested party the right to appeal any determination made by the Executive Director to the Commission in accordance with N.J.A.C. 7:50-4.91. An interested party is someone who has a specific property interest sufficient to require a hearing on constitutional or statutory grounds. Only appeal requests submitted by someone meeting the definition of an interested party will be transmitted to the New Jersey Office of Administrative Law for a hearing. Any such appeal must be made in writing to the Commission and received by the Commission’s office no later than 5:00 PM on September 10, 2019 and include the following information:

1. the name and address of the person requesting the appeal;
2. the application number;
3. the date on which the determination to be appealed was made;
4. a brief statement of the basis for the appeal; and
5. a certificate of service (a notarized statement) indicating that service of the notice has been made, by certified mail, on the clerk of the county, municipal planning board and environmental commission with jurisdiction over the property which is subject of this decision.

Within 15 days following receipt of a notice of valid appeal, the Executive Director shall initiate the procedures for assignment of an Administrative Law Judge to preside at the hearing pursuant to the Administrative Procedures Act, N.J.S.A. 52:14B-1 et seq., and the procedures established by the Office of Administrative Law. The time, date and location of such hearing shall be designated by the Office of Administrative Law.
RESOLUTION OF THE NEW JERSEY PINELANDS COMMISSION

NO. PC4-19- 34

TITLE: Approving With Conditions an Application for a Waiver of Strict Compliance (Application Number 2019-0064.001)

Commissioner Phayley moves and Commissioner Lohbauer seconds the motion that:

WHEREAS, the Pinelands Commission has reviewed each of the Findings of Fact, Conclusion and the recommendation of the Executive Director that the following application for Waiver of Strict Compliance be approved with conditions:

2019-0064.001
Applicant: Karen Mandel
Municipality: Manchester Township
Management Area: Pinelands Regional Growth Area
Date of Report: August 22, 2019
Proposed Development: Single family dwelling.

WHEREAS, no request for a hearing before the Office of Administrative Law concerning the Executive Director's recommendation has been received for this application; and

WHEREAS, the Pinelands Commission hereby adopts the Findings of Fact and Conclusion of the Executive Director for the requested Waiver of Strict Compliance; and

WHEREAS, the Pinelands Commission hereby determines that the requested Waiver conforms to the standards for approving an application for a Waiver of Strict Compliance based on extraordinary hardship as set forth in N.J.A.C. 7:50-4.62, N.J.A.C. 7:50-4.63 and N.J.A.C. 7:50-4.65 if the conditions recommended by the Executive Director are imposed; and

WHEREAS, pursuant to N.J.S.A. 13A-5h, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period and Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE BE IT RESOLVED that Application Number 2019-0064.001 for a Waiver of Strict Compliance is hereby approved subject to the conditions recommended by the Executive Director.

Adopted at a meeting of the Pinelands Commission

Date: September 13, 2019

Netty Wittenberg
Executive Director

Richard Prickett
Chairman
REPORT ON AN APPLICATION FOR A WAIVER OF STRICT COMPLIANCE

August 22, 2019

Karen Mandel (via email)
1500 River Avenue
Lakewood, NJ 08701

Re: Application # 2019-0064.001
Block 63.05, Lots 18 & 34
Manchester Township

Dear Ms. Mandel:

The Commission staff has completed its review of the above referenced application for a Waiver of Strict Compliance (“Waiver”) proposing the development of one single family dwelling on the above referenced parcel. Based upon the facts and conclusions contained in this Report, on behalf of the Commission’s Executive Director, I am recommending that the Pinelands Commission approve the application with conditions at its September 13, 2019 meeting.

FINDINGS OF FACT

This application is for the development of one single family dwelling serviced by an alternate design onsite septic system on the above referenced 0.63 acre parcel in Manchester Township. The parcel is located in a Pinelands Regional Growth Area and in Manchester Township’s PR-15 zoning district. In this zoning district, Manchester Township’s certified land use ordinance establishes a minimum lot size of 1.0 acre to develop a single family dwelling that is serviced by an alternate design onsite septic system.

As no Commission accepted alternate design onsite septic system will meet the two parts per million average nitrogen concentration in the groundwater at the property line of the 0.63 acre parcel, the applicant is requesting a Waiver from the groundwater quality standard contained in the CMP (N.J.A.C. 7:50-6.84(a)5iv).

The appropriate resource capability maps and other information available to the Commission staff have been reviewed.

The parcel includes all contiguous land in common ownership on or after January 14, 1981. The proposed single family dwelling will be the sole principal use of the entire contiguous parcel. The development of a single family dwelling on the parcel will be consistent with the purposes and
provisions of the Pinelands Protection Act, the Federal Act and the CMP and will not result in a substantial impairment of the resources of the Pinelands Area as required by N.J.A.C. 7:50-4.65(b).

Only if the parcel is developed in accordance with the conditions recommended below will the adverse impacts on groundwater quality be minimized.

**PUBLIC COMMENT**

The applicant provided the requisite public notices. Newspaper public notice was completed on June 7, 2019. Public notice to all property owners within 200 feet of the parcel was completed on June 10, 2019. The application was designated as complete on the Commission’s website on July 23, 2019. The Commission’s public comment period closed on August 9, 2019. One written public comment (attached) was received by the Commission regarding this application.

**Written Public Comment:** The commenter expressed concern that the applicant previously received a Waiver on another nearby parcel. The commenter also expressed concern regarding the negative effects of development of the parcel, including the impact to existing vegetation, wildlife and stormwater runoff. The commenter is further concerned with the proximity of the proposed septic system to their existing potable water well.

**Commission Staff Response:** The Commission staff appreciates the commenter’s interest in the Pinelands.

The applicant has demonstrated that the proposed dwelling meets the minimum land use and environmental standards of the CMP to qualify for a Waiver. The Commission’s Waiver regulations are designed to provide all property owners in the Pinelands Area with at least a minimum beneficial use of a parcel consistent with constitutional requirements.

A Waiver application must include all contiguous lands in common ownership on or after January 14, 1981. The current owner of this parcel was also the owner of another nearby, but not contiguous, parcel that received a Waiver approval in 2003. The two parcels subject of the Waiver applications are separated by a third parcel. The third parcel was never in common ownership with the parcels subject of the two Waiver applications. Since both Waiver applications included all contiguous land in common ownership on or after January 14, 1981, both parcels qualify for a Waiver.

The CMP does not require applications for one single family dwelling to address stormwater management. The commenter may wish to discuss with an appropriate municipal official the Township’s stormwater management requirements for one single family dwelling.

The parcel is located in a Pinelands Regional Growth Area. As a regional land use plan, the CMP designates certain areas for development and other areas for conservation. The CMP encourages development in a Pinelands Regional Growth Area. The entire parcel is forested. The proposed development of the 0.63 acre parcel will result in the loss of forested vegetation and any wildlife habitat that may be associated with that vegetation. The Township land use ordinance and the CMP limit vegetation clearing on the parcel to that which is necessary to accommodate the proposed dwelling, septic system and permitted accessory uses and structures. The proposed development is consistent with the CMP threatened and endangered species protection standards.
The Ocean County Health Department administers regulations that specify the minimum distance between a proposed septic system and any existing potable water well. The commenter may wish to discuss the proximity of the proposed septic system to their potable water well with an appropriate County Health Department official.

CONCLUSION

The CMP (N.J.A.C. 7:50-4.62) sets forth the standards which must be met before a Waiver can be approved. The CMP (N.J.A.C. 7:50-4.62(a)) requires that for a Waiver application to be approved based on extraordinary hardship, the applicant must demonstrate that the conditions of either N.J.A.C. 7:50-4.63(a) or (b) have been met.

N.J.A.C. 7:50-4.63(a) sets forth five conditions which must be met for an applicant to qualify for an extraordinary hardship pursuant to that subsection.

The first condition is that the only relief sought is from one or more of the standards contained in N.J.A.C. 7:50-6 for certain specified development. One of the specified types of development is a single family dwelling on a parcel within a Regional Growth Area, Pinelands Town or Pinelands Village which is at least 20,000 square feet, excluding road rights-of-way, in size and is not served by a centralized waste water treatment system. This application is for a Waiver from the groundwater quality standards contained in N.J.A.C. 7:50-6. The applicant is proposing to develop a single family dwelling serviced by an alternate design onsite wastewater treatment system on a 0.63 acre (27,442 square foot) parcel. The parcel contains more than 20,000 square feet, excluding road rights-of-way, and is located in a Pinelands Regional Growth Area. As a result, the applicant meets the criteria set forth in N.J.A.C. 7:50-4.63(a)1v.

The second condition is that the parcel includes all contiguous land in common ownership on or after January 14, 1981, including lands which are contiguous as a result of ownership of other contiguous lands. Since the parcel includes all such contiguous land, the applicant meets the criteria set forth in N.J.A.C. 7:50-4.63(a)2.

The third condition is that the proposed use will be the sole principal use on the entire contiguous parcel, except as expressly provided in N.J.A.C. 7:50-5.1(c). As the proposed single family dwelling will be the sole principal use on the parcel, the applicant meets the criteria set forth in N.J.A.C. 7:50-4.63(a)3.

The fourth condition is that all necessary municipal lot area and density variances have been obtained if the parcel is located in a municipality whose master plan and land use ordinance have been certified by the Pinelands Commission. Manchester Township’s master plan and land use ordinance have been certified by the Pinelands Commission. The Manchester Township certified land use ordinance provides that for residential development not serviced by a centralized wastewater treatment plant on lots between 20,000 square feet and one acre in size in the Township’s PR-15 zoning district a dwelling may be constructed without the necessity of a municipal lot size or density variance, provided a waiver of strict compliance is granted by the Pinelands Commission. Based upon this Township land use ordinance provision, the development of a single family dwelling on the parcel will not require a lot area or residential density variance. As a result, the applicant meets the criteria set forth in N.J.A.C. 7:50-4.63(a)4.
The fifth condition is that the development of the parcel will not violate any of the criteria contained in N.J.A.C. 7:50-4.65(b). N.J.A.C. 7:50-4.65(a) precludes the granting of a Waiver which permits a parcel to be developed unless such development will be consistent with the purposes and provisions of the Pinelands Protection Act, the Federal Act and the CMP and will not result in a substantial impairment of the resources of the Pinelands Area. N.J.A.C. 7:50-4.65(b) sets forth the circumstances which do not comply with N.J.A.C. 7:50-4.65(a). With the conditions recommended below, the proposed development will not violate any of the circumstances contained in N.J.A.C. 7:50-4.65(b). As a result, the applicant meets the criteria set forth in N.J.A.C. 7:50-4.63(a).

Since the applicant meets all five conditions set forth in N.J.A.C. 7:50-4.63(a), the applicant has demonstrated that an extraordinary hardship exists pursuant to N.J.A.C. 7:50-4.62(a).

As required by N.J.A.C. 7:50-4.62(b), the proposed dwelling will not result in substantial impairment of the resources of the Pinelands or be inconsistent with the provisions of the Pinelands Protection Act, the Federal Act or the CMP in accordance with the criteria set forth in N.J.A.C. 7:50-4.65.

As required by N.J.A.C. 7:50-4.62(c), and with the conditions recommended below, the proposed dwelling will not involve trespass or create a public or private nuisance by being materially detrimental or injurious to other property or improvements in the area in which the parcel is located, increase the danger of fire or endanger public safety.

The CMP (N.J.A.C. 7:50-4.62(d)) requires that the Waiver only grant the minimum relief necessary to relieve the extraordinary hardship. The proposed single family dwelling is the minimum relief necessary to relieve the extraordinary hardship which has been shown to exist.

The CMP (N.J.A.C. 7:50-4.62(d)1iii) requires the acquisition and redemption of 0.25 Pinelands Development Credits (PDCs) whenever a Waiver provides relief from one or more of the standards of N.J.A.C. 7:50-6. As the applicant is obtaining a Waiver from the groundwater quality standard (N.J.A.C. 7:50-6.84(a)5iv.) a condition is included to require the applicant to purchase the requisite 0.25 PDCs.

The CMP (N.J.A.C. 7:50-4.62(d)1ii)) also requires the acquisition and redemption of any PDCs that are otherwise required pursuant to N.J.A.C. 7:50-5.27, 5.28 or 5.32. The CMP (N.J.A.C. 7:50-5.27(c)) provides that any local approval in a Pinelands Regional Growth Area which grants relief from density or lot area requirements shall require that PDCs be used for all dwelling units or lots in excess of that otherwise permitted, unless a Waiver for the dwelling unit or lot has been approved by the Commission. Since the applicant qualifies for a Waiver, PDCs are not required for any local approval.

To meet the requirements of N.J.A.C. 7:50-4.62, N.J.A.C. 7:50-4.63(a) and N.J.A.C. 7:50-4.65, the Pinelands Commission staff has determined that the parcel must be developed in accordance with the following conditions:

1. The septic system must be located in an area where the seasonal high water table is at least five feet below the natural ground surface.

2. The proposed dwelling must utilize an alternate design onsite wastewater treatment system authorized pursuant to the CMP on a 1.0 acre lot and approved for use by the Pinelands Commission and the New Jersey Department of Environmental Protection.

3. Except as provided in N.J.A.C. 7:50-5.1(c), the single family dwelling approved herein...
shall be the sole principal use of the parcel.

4. Prior to Commission issuance of a letter advising that any municipal or county permit or approval may take effect, a recorded copy of a deed consolidating Block 63.05, Lots 18 and 34 into one lot must be submitted to the Pinelands Commission.

5. Prior to Commission issuance of a letter advising that any municipal or county permit or approval may take effect, the Commission must receive a letter from the Pinelands Development Credit Bank indicating that the requisite 0.25 PDCs have been acquired and submitted to the PDC Bank for redemption.

6. This Waiver shall expire September 13, 2024 unless all necessary construction permits have been issued by that date. The Waiver shall also expire if any construction permit is allowed to expire or lapse after September 13, 2024 or if any renewal or extension of any permit or approval or issuance of a new construction permit is necessary after that date.

7. Prior to completion of an application with the Commission for development of the proposed dwelling, a copy of a recorded deed containing all of the above conditions shall be submitted to the Pinelands Commission. The deed shall specify that the conditions are being imposed pursuant to a Waiver of Strict Compliance referring to the application number. The deed shall also state that the conditions are enforceable by the Pinelands Commission, Manchester Township, the Ocean County Health Department and any other party of interest.

With the above conditions, the applicant qualifies for a Waiver from the requirements of N.J.A.C. 7:50-6.84(a)5iv.

Since the applicant meets the provisions of N.J.A.C. 7:50-4.62, N.J.A.C. 7:50-4.63(a) and N.J.A.C. 7:50-4.65 for the development of one single family dwelling on the parcel, it is recommended that the Pinelands Commission APPROVE the requested Waiver of Strict Compliance subject to the above conditions.

**APPEAL**

The CMP (N.J.A.C. 7:50-4.91) provides an interested party the right to appeal this recommendation in accordance with N.J.A.C. 7:50-4.91. An interested party is someone who has a specific property interest sufficient to require a hearing on constitutional or statutory grounds. Only appeal requests submitted by someone meeting the definition of an interested party will be transmitted to the New Jersey Office of Administrative Law for a hearing. Any such appeal must be made in writing to the Commission and received at the Commission offices no later than 4:00 PM on September 9, 2019 and include the following information:

1. the name and address of the person requesting the appeal;
2. the application number;
3. a brief statement of the basis for the appeal; and
4. a certificate of service (a notarized statement) indicating that service of the notice has been made, by certified mail, on the clerk of the county, municipal planning board and
environmental commission with jurisdiction over the property which is subject of this decision.

If no appeal is received, the Pinelands Commission may either approve the determination of the Executive Director or refer the application to the New Jersey Office of Administrative Law for a hearing.

Re: Pine Island Application #2019-0064.001

To: Whom It May Concern

The purpose of this letter is to express my opposition to Karen Mander's application to develop block 63.05, lots 18 and 34.

Your commission did approve a separate request for her, approximately one and a half years ago, to build a home on the adjacent and adjoining lots to this which also borders my property. This home is currently up for sale, which indicates to me that she never had the intention to occupy the residence she was approved to build and she developed it with the sole purpose of flipping the property for profit.

Approving the waivers which allowed this construction caused the property to be xeroed of vegetation and trees which had adversely affected the environment and the amount of wildlife we were accustomed to. It also caused my property to constantly become flooded by rainwater runoff from that lot during the smallest of storms.

Approving the current request (#2019-0064.001) will surely result in the loss of the remaining vegetation and trees that surround my property which, up until now, was protected by the Pine Island Commission. This will no doubt cause any remaining wildlife such as snakes, birds, turtles, small mammals to flee the area, and cause additional flooding to my property.

It was the ecology and privacy that was protected by the Pine Island Commission that attracted me to Manchester and caused me to purchase my property which I have shared with this wildlife since 1983.

It seems to me that more and more of these lots are being allowed to be developed purely for profit gain without regard to the environmental and ecological costs to wildlife hazards that end up destroyed.

Additionally, I have concerns that the only source of water available to me (well water) will become contaminated by septic waste and the use and pesticides and fertilizer run off from these properties, if request #2019-0064.001 is approved.

I respectfully request that you consider my position and deny this request for waiver and allow profits to take a rear seat to wildlife, ecology and the environment. Thank you for your time and consideration regarding this matter.

Sincerely,

John A. Pressley

RESOLUTION OF THE NEW JERSEY PINELANDS COMMISSION
NO. PC4-19-

TITLE: To Adopt an Amendment to the Pinelands Infrastructure Master Plan to Set a Project Priority List and Recommend Funding Levels for Each Project

Commissioner [Name] moves and Commissioner [Name] seconds the motion that:

WHEREAS, P.L. 1985, Chapter 302 (the Pinelands Infrastructure Trust Bond Act) authorized creation of a debt of the State of New Jersey by issuance of bonds in the sum of $30,000,000 for the purpose of providing grants and loans to local units of government in the Pinelands Area for infrastructure capital projects necessary to accommodate development in the Regional Growth Areas; and

WHEREAS, P.L. 1985, Chapter 302 required that the Pinelands Commission adopt an infrastructure master plan to be used in evaluating projects to be financed, to specify funding structure in terms of grants and loans to be awarded, and to recommend the level of funding for selected projects; and

WHEREAS, the Department of Environmental Protection adopts regulations regarding grant and loan procedures and regulations for allowable costs of water and wastewater projects in N.J.A.C. 7:22 – 6 and 7 to implement the awards specified in the adopted Pinelands Infrastructure Master Plan; and

WHEREAS, the Transportation Bank administers grants and loans for allowable costs of transportation projects to implement the award specified in the Pinelands Infrastructure Master Plan; and

WHEREAS, on January 16, 1987, the Pinelands Commission adopted the original Pinelands Infrastructure Master Plan by Resolution PC4-87-03; and

WHEREAS, since that time, the Pinelands Commission adopted a number of amendments to the Pinelands Infrastructure Master Plan, most recently on February 8, 2019 through Resolution PC4-19-09; and

WHEREAS, the most recent amendment updated the types of projects that may be considered for funding, established revised ranking criteria and set forth the funding structure for projects included on the priority project list; and

WHEREAS, repayment of loans issued under the Pinelands Infrastructure Master Plan and earlier amendments has resulted in the availability of approximately $15,890,000 in the Pinelands Infrastructure Fund; and

WHEREAS, the Pinelands Commission has conducted outreach among Pinelands municipalities and utility authorities to gauge the needs for infrastructure to support the demands of the Regional Growth Area; and

WHEREAS, on March 12, 2019, the Pinelands Commission issued a request for project proposals and distributed the proposal to all Pinelands counties, municipalities and utility authorities with Pinelands Regional Growth Area service areas; and

WHEREAS, ten proposals for funding were received totaling $26,837,420 in funding requests; and

WHEREAS, the total funding requests exceeded the available resources in the PITF; and

WHEREAS, Commission staff evaluated the project proposals, ranked the projects against the criteria of the most recent amendment to the Pinelands Infrastructure Master Plan and prepared a project priority list with recommended funding amounts; and
WHEREAS, five projects have been selected for the project priority list, including the Pemberton Township—Burlington County Institutions water supply improvements, the Manchester Township & Jackson Municipal Utilities Authority sewer and water main extensions, the Monroe Township Williamstown Square transportation improvements, the Galloway Township Pinchurst sewer main extensions, and the Winslow Township sewer and water main extensions; and

WHEREAS, the Executive Director has found that the project priority list appropriately ranks the proposed projects and supports the objectives of the Pinelands Infrastructure Bond Act; and

WHEREAS, the Executive Director has submitted a report to the Commission recommending adoption of the July 2019 Pinelands Infrastructure Master Plan amendment setting the new project priority list and funding awards; and

WHEREAS, the Commission's CMP Policy and Implementation Committee has reviewed the Executive Director's report and has recommended that the July 2019 Infrastructure Master Plan project priority list amendment be adopted; and

WHEREAS, the Pinelands Commission has duly considered all public testimony submitted to the Commission concerning the amendment and has reviewed the Executive Director's report; and

WHEREAS, the Pinelands Commission accepts the recommendation of the Executive Director; and

WHEREAS, pursuant to N.J.S.A. 13:18A-5b, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period the Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE BE IT RESOLVED that

1. An Order is hereby issued to amend the Pinelands Infrastructure Master Plan by revising the project priority list in accordance with the July 2019 amendment.

2. The Executive Director shall forward the project priority list to the New Jersey Infrastructure Bank for administration of loan and grant awards.

3. The Executive Director shall notify agencies sponsoring the projects on the adopted PITF priority list.

BE IT FURTHER RESOLVED that

4. The PITF funds allocated to wastewater projects in accordance with the July 2019 amendment may be used by the New Jersey Water Bank as matching funds to federal funds awarded for wastewater projects.

Adopted at a meeting of the Pinelands Commission

Date: September 13, 2019

Executive Director

Richard Prickett
Chairman
REPORT ON THE JULY 2019 PINELANDS INFRASTRUCTURE TRUST MASTER PLAN AMENDMENT TO SELECT PROJECTS AND RECOMMEND FUNDING LEVELS

The 1985 Pinelands Infrastructure Trust (PITF) Bond Act created an initial source of funding with the goal of defraying the costs of infrastructure in Pinelands Regional Growth Areas while simultaneously offering land value equity to property owners in the Preservation Area, Agricultural Production Area and Special Agricultural Production Area through the use of Pinelands Development Credits (PDC). The PITF Act directed the Pinelands Commission to prepare a Master Plan to evaluate and identify infrastructure projects and to include a funding structure through which the State would administer grants and/or loans for projects that are identified in the Master Plan. The Act allows funding for a wide array of infrastructure projects to support development in the Regional Growth Area. Infrastructure projects may include wastewater (including stormwater and green infrastructure), water supply, or transportation, as long as it serves new development in the Regional Growth Area with the potential to generate demand for PDCs.

In February 2019, the Pinelands Commission adopted an amendment to the Pinelands Infrastructure Master Plan updating the types of projects that would be considered and setting ranking criteria for evaluating the projects. The amendment also established the proportions of funding that would be allocated as grants or loans and required a portion of funding to be matched by the local agency. Following adoption of that amendment, the Commission issued a request for project proposals for potential funding through the PITF.

Ten proposals were received and evaluated against the amended ranking criteria. The total estimated project costs for all ten projects exceeded the funding available through PITF. Thus the projects were ranked according to the criteria of the PITF Infrastructure Master Plan and five projects were prioritized for funding. The five projects and the recommended funding for each project are the subject of the proposed amendment to the PITF Infrastructure Master Plan. The projects include

1. Pemberton Township water supply system improvements
2. Manchester Township/Jackson MUA sewer and water main extensions
3. Monroe Township Williamstown Square transportation improvements
4. Egg Harbor Township sewer main extensions
5. Winslow Township sewer and water extensions

Options for PITF Amendment Adoption and Possible Delays

Subsequent to the Request for Proposals being issued for this round of PITF, the New Jersey Department of Environmental Protection (NJDEP) informed the Commission staff that planned amendments to the Water Bank administrative rules will not occur prior to the next round of
appropriations in January 2020. The projects involving water supply proposed for PITF funding are impacted by the lack of progress in amending the administrative rules at NJAC 7:22. Water supply projects may be included in the PITF priority project list, but will not be eligible to apply for funding appropriation through the Water Bank because the administrative code limits eligibility to only wastewater projects.

The NJDEP further indicated that the Commission could apply for a waiver of the rules at NJAC 7:22. If a rule waiver was granted, then all projects could by processed by the Infrastructure Bank (via the Water Bank and the Transportation Bank sections.) A final determination from NJDEP on their ability to waive the rules limiting PITF funding to wastewater projects has not been made. Unless or until the NJDEP grants a rule waiver or amends the Pinelands sections of the administrative code, the proposed water supply projects cannot receive funding appropriation.

Transportation projects, where loans and grants are administered by the Transportation Bank, are not impacted by the NJDEP rule administrative problem. However, the Transportation Bank only forwards one round of projects per year for legislative appropriation. (The Water Bank forwards several rounds of projects each year.) Delays in adopting the PITF Master Plan amendment could result in the transportation project missing the appropriations deadline for January 2020.

The Commission has several options for proceeding with the proposed amendment to the PITF. The first option is for the Commission to adopt the PITF Master Plan amendment as proposed. It would prioritize five projects with recommended funding levels, including water supply projects, wastewater projects and a transportation project. Project sponsoring agencies for the wastewater projects and the transportation project could then apply to the Water Bank and the Transportation Bank, as appropriate for the type of infrastructure. The water supply projects would remain on the priority list and could apply for funding through the Water Bank when the administrative code is amended. The timeline for amending the administrative code is uncertain.

A second option is to delay the PITF amendment until NJDEP makes a determination on whether to allow a rule waiver. If the waiver is granted, then the Commission could adopt the PITF amendment as is and all projects may proceed to apply for grants and loans with the Infrastructure Bank. If the waiver is not granted, then the Commission may proceed with the third option. It is not clear with this option whether the timing of the PITF amendment and Infrastructure Bank applications would allow the projects to proceed to appropriations in the January 2020 round or whether they would be delayed to a future round. Transportation projects that are not included in the January legislative appropriation will not be included in an appropriations bill until 2021.

The third option would be to re-issue a new Request for Proposals and re-evaluate project proposals submitted previously. The new Request for Proposals would eliminate projects involving water supply. Proposals would be limited to transportation projects and wastewater projects, including sanitary sewer, stormwater, and green infrastructure projects. It is unlikely that pursuing this option will allow projects to proceed to legislative appropriations in the January 2020 round. As noted in option two, transportation projects may be delayed by a year if not included in the January 2020 appropriations bill.

In accordance with the January 2019 PITF Master Plan amendment which expanded funding to the wider array of public infrastructure projects identified by the Pinelands Infrastructure Act, staff recommends adoption of the noticed list of projects and funding levels. The three water supply projects on the priority list will not be eligible for appropriations until amendment of NJAC 7:22 or until NJDEP grants a rule waiver. However, those projects will remain on the PITF priority project list and will
remain eligible to apply for PITF funding through the Water Bank when the administrative code is amended. Applicants may withdraw from the process for any reason, including funding delays.

Pending Commission adoption of the July 2019 amendment, Commission staff anticipates notifying priority project agencies of their eligibility for PITF funding and providing the Project List and Award amendment to the New Jersey Infrastructure Bank. The Infrastructure Bank will administer grants and loans for the eligible projects. The administration process involves the Infrastructure Bank identifying the projects for legislative appropriations which is planned to occur in January 2020. The project agencies must then apply to the Infrastructure Bank to obtain the allocated funding.

PITF funding awards do not constitute development approval by the Pinelands Commission. All project agencies will be notified that it remains necessary to obtain all permits and approvals required by law to proceed, including the Commission’s approvals of public development applications and/or review of any associated municipal or county approvals.

PUBLIC HEARING

A public hearing to receive testimony concerning the PITF Master Plan amendment project list and funding allocation was duly advertised, noticed, and held on July 31, 2019 at the Richard J. Sullivan Center, 15C Springfield Road, New Lisbon, New Jersey at 9:30 A.M. Ms. Susan Grogan conducted the hearing. One member of the public attended. No testimony was given.

Written comments on the PITF Master Plan amendment were accepted through August 7, 2019. No written comments were received.

CONCLUSION

Based on the background and comments described above, the Executive Director has concluded that the July 2019 PITF Master Plan amendment will support the objectives of the PITF Act. Accordingly, the Executive Director recommends that the Commission adopt the Amendment as proposed.

Attachments (2)

gab
Background

The Pinelands Infrastructure Trust Fund (PITF) was created through the Pinelands Bond Act of 1985. Originally, sale of bonds authorized by P.L. 1985, Chapter 302 raised $30,000,000 for the purpose of providing grants and loans to local units of government for infrastructure projects necessary to accommodate development in Regional Growth Areas of the Pinelands. The Pinelands Commission then prepared and adopted the Pinelands Infrastructure Master Plan and an Infrastructure Financing Plan.

Loans repaid from previous funding rounds, along with the sale of additional bonds, has replenished the PITF. Currently, approximately $15,890,000 is available for projects approved through the PITF process. Amendment of the Master Plan is necessary to identify and recommend infrastructure projects for funding.

A Pinelands Infrastructure Trust Fund (PITF) Master Plan amendment was adopted by the Pinelands Commission in February 2019. The amendment updated the criteria for ranking proposed infrastructure projects and identified the funding structure as a balance of 50% loans, 40% grant and a minimum of 10% local matching funds. Subsequently, the Commission directed that a request for project proposals should be issued.

A request for proposals was issued on March 12, 2019 and distributed to all Pinelands counties, municipalities, and utility authorities with Pinelands Regional Growth service areas. Ten project proposals were received in response to the request for proposals. Projects ranged from water distribution lines and wastewater collection lines, to transportation improvements and underground storage tank removal. The total cost of all projects submitted was $34,060,215, far exceeding the amount of money currently available through the PITF. All projects are described below, with funding recommendations in a subsequent section.

Loans and grants are administered by the Infrastructure Bank pursuant to N.J.A.C. 7:22 – 6 and 7 relative to the PITF. Subchapter 6 sets forth the grant and loan procedures. Subchapter 7 defines allowable costs for the projects. The procedures and allowable costs are not the subject of this PITF Master Plan Amendment.

Objectives

The resources available for use in the PITF are approximately $15,890,000. That amount includes existing funds and $6,750,000 in bond issues. The funding must be appropriated through legislation. Appropriations refer to the Pinelands Infrastructure Master Plan priority list. This Pinelands Infrastructure Master Plan amendment supports the appropriations of PITF through achievement of the following objectives:
To establish an updated priority list of infrastructure projects for funding through the Pinelands Infrastructure Bond Act
To select and rank proposed infrastructure projects against criteria established through the Pinelands Infrastructure Master Plan Amendment completed February 2019
To adopt the priority list into the Pinelands Infrastructure Master Plan
To forward the priority list to NJDEP for legislative appropriations and administration of grants and loans

Project Descriptions and Rankings

All project proposals were evaluated against the ranking criteria of the Pinelands Infrastructure Master Plan amendment adopted in February 2019. The ten projects are briefly described, below, and are listed in order of their ranking.

1. Pemberton Township – Burlington County Institutions Water System Improvements
This project would install improvements to an existing water supply system. The proposal is to rehabilitate distribution and storage facilities that form the sole source of public water supply for a portion of the Township’s Regional Growth Area recently designated for redevelopment. The project was evaluated based on two redevelopment plans certified by the Commission on June 14, 2019. Projected demand for 85 full PDCs (340 rights) is based upon a maximum of 1,430 dwelling units in the Rowan College at Burlington County Redevelopment Area and an additional 80 dwelling units in the Former Burlington County Minimum Security and Work Release Center Redevelopment Area. The large number of dwelling units, large mandatory PDC use, residential density, and a lower cost per dwelling unit all contributed to the highest rank for this project.

2. Manchester Township and Jackson Municipal Utilities Authority – Water and Sewer Main Extensions
The project would serve Regional Growth Areas in Manchester Township and Jackson Township. Sewer main would be extended approximately 2 miles along Ridgeway Road and South Hope Chapel Road from a connection in Manchester Township (service by Ocean County Utility Authority). Additionally, water mains would be extended from Jackson Township connection into Manchester Township resulting in interconnection of the municipal water systems. Water system interconnection is expected to reduce usage of an existing Cohansey aquifer public supply well. A portion of the area to be served by the sewer and water extensions is subject of a Pinelands development application with a recent Certificate of Filing (App. No. 1983-5386.002.) Based upon municipal zoning, the project would support potential use of 85.5 PDCs (342 rights) and allow for a total of 1,369 dwelling units (789 in Manchester Township and 580 in Jackson Township.) The large number of dwelling units, mandatory PDC use, residential density, higher local matching funds, and environmental benefit of reduced demand on the Kirkwood-Cohansey aquifer all contributed to the high ranking of this project.

6/18/19
3. Monroe Township – Williamstown Square Transportation Improvements

This project supports a redevelopment area in the Regional Growth Area with road intersection signalization, road widening, and controlled access for a mixed-use development. The project is planned to serve 350 dwelling units and generate mandatory use of 21 PDCs (84 rights). Design is intended to accommodate multiple modes of transportation including auto, bicycle and foot traffic. The redevelopment plan calls for achieving a “Sustainable Neighborhood” through encouragement of LEED silver certification. Also, the development is intended to maximize green space through green roofs, green walls, architectural design, rain gardens and woodlands. The number of dwelling units, mandatory PDC use, moderate cost per dwelling unit (in PITF funding) and green design elements contributed to the ranking of this project. The ranking is based upon the Commission’s anticipated certification of a revised version of the Williamstown Square Redevelopment Plan, adopted by the Township in May 2019. Eligibility for funding may not be met without Pinelands certification of the redevelopment plan.

4. Galloway Township – Pinehurst Sewer Extension

The project proposes to extend 26,000 linear feet of sanitary sewer main to connect with the Atlantic County Utilities Authority system in the Pinehurst section of Galloway Township. The project would allow the development of approximately 938 dwelling units and the use of 41.25 PDCs (165 rights) if the Planned Unit Residential (PURD) standards of the municipal ordinance are applied. The number of dwelling units, a lower cost per dwelling unit (in PITF funding), and residential density raised the ranking of this project. Optional, rather than mandatory, use of PDCs also affected the ranking. Ranking of this project presumed that future development would occur at the permitted PURD density. That density could not be achieved absent public sanitary sewers.

5. Winslow Township – Water and Sewer Main Extensions

This project would design and construct 4,275 linear feet of water main and 4,095 linear feet of sewer main to support a recently designated redevelopment area in the Regional Growth Area. The parcel to be served by the sewer and water extensions is subject of a Pinelands development application with a recent Certificate of Filing (App. No. 2008-0014.002.) Based upon municipal zoning, the parcel to be served has potential for 145 dwelling units and mandatory use of 9.25 PDCs (37 rights). Mandatory PDC use and larger local match funding contribute to the ranking of this project.

6. Monroe Township – Black Horse Pike Water and Sewer Main Extensions

The project would extend water and sewer to a mix of commercially zoned and residentially zoned sections of the Township adjacent to the Black Horse Pike. Approximately 13,000 LF of sewer force main, 8,960 LF of sewer main, and 15,315 LF of water main would be installed to serve commercial development and an estimated 421 dwelling units. Based upon the municipal zoning, there is potential for mandatory use of 21.25 PDCs (85 rights). Although the area to be
served is in a Regional Growth Area, the majority is zoned for commercial development. Ranking of this project reflects mandatory PDC use and residential density, where applicable, but also predominance of commercial development to be served.

7. Egg Harbor Township – Tremont South Sewer Extension
The proposal includes approximately 13,100 LF of sewer main extensions to serve a residentially zoned area where PDC use is optional. The project is estimated to generate 150 dwelling units and potential demand for 12.5 PDCs (50 rights). The lower level of service along with optional PDC use, low residential density, and minimum local match affected the ranking of this project.

8. Atlantic County Utilities Authority – Underground Storage Tank Replacement
This project would remove underground fuel tanks located at five existing pump stations and replace them with above ground storage tanks and containment structures. The five pumping stations serve existing wastewater collection systems in Hamilton Township and Egg Harbor Township. There is no specific development proposed or associated with this maintenance project, although such projects may be necessary to support future development in the sewer service areas of the Atlantic County Utilities Authority. The lack of specific information about potential residential units, PDC use, and other factors related to bonus criteria led to a lower rank for this project.

9. Atlantic County Utilities Authority – Pump Station Upgrades
The project proposes structural, mechanical and electrical upgrades to extend the operation of five pump existing wastewater pump stations. The five pumping stations serve existing wastewater collection systems in Hamilton Township and Egg Harbor Township. There is no specific development proposed or associated with this maintenance project, although such projects may be necessary to support future development in the sewer service areas of the Atlantic County Utilities Authority. The lack of specific information about potential residential units, PDC use, and other factors related to bonus criteria led to a lower rank for this project.

10. Evesham Municipal Utilities Authority
The project would construct an elevated water storage tank to serve existing customers along Hopewell and Kettle Run Roads in Evesham Township located in a Pinelands Rural Development management area, along with an unspecified Regional Growth Area. The application noted that no PDCs will be used for any development served by the proposed water tank. As the service area is in a Rural Development Area and no Regional Growth Area is proposed to be served and no PDC demand is generated by the project, it is ineligible for funding through the PITF.
Project Priority List and Recommended Funding

Given available funding and the rankings described above, five projects are recommended for PITF funding. The table below summarizes the recommended funding levels. Final funding levels will be determined by the New Jersey Infrastructure Bank through administration of NJAC 7:22 – 6 and 7.

RESOLUTION OF THE NEW JERSEY PINELANDS COMMISSION

NO. PC4-19-

TITLE: To Adopt the Pinelands Commission’s Fiscal Year 2020 Budgets for the Operating Fund, the Kirkwood Cohansey Aquifer Assessment Study Fund, Katie Trust Fund and the Pinelands Conservation Fund

Commissioner [Signature] moves and Commissioner [Signature] seconds the motion that:

WHEREAS, pursuant to the Pinelands Protection Act, the Pinelands Commission is charged with the continuing implementation and monitoring of the Pinelands Comprehensive Management Plan; and

WHEREAS, the State of New Jersey has appropriated $2,949,000 to support the Commission’s operations during Fiscal Year 2020; and

WHEREAS, the Department of the Treasury informed the Commission that $687,000 of budgeted health benefits and pension costs will be covered through the State’s interdepartmental accounts in FY 2020; and

WHEREAS, the Commission anticipates that additional funding sources of $1,429,110 will be available to further support the Commission’s operations; and

WHEREAS, the FY 2020 Operating Budget anticipates a $849,964 draw from the Commission’s unreserved, undesignated fund balance; and

WHEREAS, the Commission is adopting an Operating Budget for FY 2020 totaling $5,915,074; and

WHEREAS, the remaining unreserved, undesignated fund balance amount is sufficient to cover unforeseen or emergency expenditures in the near future; and

WHEREAS, the Kirkwood Cohansey Aquifer Assessment Study Fund budget for FY 2020 recommends expenditures of $70,000, which will be drawn from the Fund Balance for this project; and

WHEREAS, the Katie Trust Fund Garden Budget for FY 2020 recommends expenditures of $15,000, which will be drawn from the Fund Balance for the Garden project; and

WHEREAS, a financial plan for the Pinelands Conservation Fund (PCF), which designated four programs (Land Acquisition, Conservation Planning and Research, Community Planning and Design and Education and Outreach) within the Fund, was approved by the Commission in April 2005, and revised in August 2009, and revised again in August 2014; and

WHEREAS, during FY 2020, the budget for the Land Acquisition program totals $8,625; and

WHEREAS, the FY 2020 budget for the Conservation Planning and Research program totals $351,726; and

WHEREAS, the FY 2020 budget for the Community Planning and Design program totals $149,604; and

WHEREAS, the FY 2020 budget for the Education and Outreach program totals $108,300; and
WHEREAS, the total budget for the Pinelands Conservation Fund during FY 2020 totals $618,255 and

WHEREAS, pursuant to N.J.S.A. 13:18A-5h, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period the Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE BE IT RESOLVED that the Pinelands Commission hereby adopts the attached Fiscal Year 2020 Budgets for the Operating Fund totaling $5,915,074; the Kirkwood Cohansey Aquifer Assessment Study Fund totaling $70,000; the Katie Trust Fund Garden Budget totaling $15,000 and the Pinelands Conservation Fund totaling $618,255.

</tbody>
</table>
1. The Governor's budget includes a FY 2020 State Appropriation to the Commission in the amount of $2,949,000. This is an increase from the FY2019 Appropriation.

2. State Supplemental Funding (Fringe Benefits) totaling $687,000 helps to offset the Commission’s health and pension costs. Since FY 2004, the Department of the Treasury has agreed to help the Commission finance its escalating health benefits premiums through an Interdepartmental Account. Beginning in FY 2009, the amount of assistance was calculated using projected health and pension costs not funded through other sources. Using this calculation, the Commission requested $838,218 in FY 2012, $837,927 in FY 2013, $844,809 in FY 2014 and $840,455 in FY 2015 but was only approved to receive $687,000. In FY 2016, only $687,000 was received and this amount was consistent for FY 2017, FY 2018, FY 2019 and will be for FY 2020.

3. Interest Income is earned in the Commissions checking account and the cash management fund designated for general use. Interest income for the Kirkwood Cohansey Aquifer Study and the Pinelands Conservation Fund is reflected in the budgets for those programs. Interest rates have fluctuated in recent years and have greatly affected interest income over several years and will continue to do so in FY 2020.

4. The Commission is entering its 25th year of the Environmental and Economic Long Term Monitoring programs. This anticipated revenue from the National Park Service is based upon that program's projected expenses during the fiscal year and unspent funds from prior years, which are reimbursed in full.

5. The anticipated revenue from the NJDEP Wetlands Permitting program that the Commission helps to administer reflects the estimated permit fees to be received and is authorized through language in the Appropriations Act.

6. Application Fees of $690,000 are anticipated to be received during FY 2020. This important component of the Commission’s Operating Budget fluctuates tremendously from month to month. This funding source will be closely monitored throughout the fiscal year.

7. The $3,650 anticipated revenue from the Microfilm Reserve equals the amount being recommended in the expenditure accounts for items relating to permanent record storage, including microfilming and document imaging. The remaining balance in the Microfilm Reserve account will be held in reserve to sustain the future costs of the long term records management project.

8. The FY 2020 anticipated revenue from the Computer Reserve estimated at $18,420 for Replacement Computers and Replacement Printers.
9. The Fenwick Manor Painting Reserve has been established to earmark funds for the future painting of Fenwick Manor. Funds will be added annually until the project is complete. The current total consists of $40,000 from FY 2015; $40,000 from FY 2016; $20,000 from FY 2017 and $20,000 from FY 2018. The Project will be moving forward during FY 2020.

10. In April 2005, the Commission adopted a financial plan for the Pinelands Conservation Fund. Included in the plan is an annual assessment of $20,000 from each of the three programs (see Pinelands Conservation Fund budget note #3). This $60,000 administrative assessment will finance costs associated with cash management activities, accounting services, procurement services and centralized support services.

11. The projected amount needed from the Undesignated Fund Balance to balance the FY2020 budget deficit is $849,964.

12. The Commission’s authorized staffing level is 66 full time equivalent positions (FTEs). Since FY 2007, unfilled vacancies have steadily increased to a total of 23 unfilled full time equivalent positions, or more than 35% of the authorized staffing level. The FY 2020 salaries and wages budgets (Operating, Kirkwood Cohansey Study and Pinelands Conservation Fund) finance only 43 of the 66 authorized full time equivalent positions.

13. The fringe benefits budget includes expenditures for the employer’s share of Social Security ($197,000), Medicare ($50,000), disability insurance ($2,000), flexible savings accounts ($1,500) and miscellaneous administrative charges ($1,000). The employer liability of pension related funds is estimated at $425,000. The Commission’s escalating health benefit premiums for active and retired employees are estimated at $1,250,000 with a $154,000 reduction for coinsurance payments from staff members. Also included is $15,000 for dental insurance premiums and $900 for participation in the Employee Advisory Service. Lastly, $200,691 of the total fringe benefits budget is projected to be funded by the Kirkwood Cohansey Study ($13,000) and the Pinelands Conservation Fund ($187,691) as shown in those budgets.

Upon Commission approval of the FY 2020 Operating Budget, the Executive Director will be authorized to pay the employer share of Social Security and Medicare at an amount not to exceed the budgeted funding of $247,000.

14. The printing and office supplies budget includes expenditures for printing; office, computer, mailing, copying, and meeting supplies; office and computer equipment with an item cost of less than $1,000; reference materials; scientific report printing/publication; and service awards. Grant-related expenses account for $11,000 of this budget.

15. The majority of the vehicular supplies budget covers gasoline for Commission vehicles. Other costs budgeted in this account include replacement tires, supplies used for routine vehicular maintenance and other miscellaneous supplies such as keys, mats, scrapers and first aid kits. In FY 2010, the Commission’s fleet was reduced from seven to five vehicles. However, high gasoline prices have offset some of the savings of a smaller fleet.
16. The household supplies budget provides for the purchase of materials to perform minor buildings and grounds maintenance, cleaning supplies, household paper products, basic kitchen supplies, household equipment costing less than $2,000 and other operating supplies.

17. The fuel and utilities budget covers expenditures for heating fuel, electricity, water and sewer. During the latter part of FY 2016, the Commission was accepted into the State’s cooperative purchasing for electricity and heating fuel.

18. The other supplies budget covers expenditures for supplies and equipment (less than $1,000) supporting map-making, scientific research, fieldwork, and photographic needs. Grant related expenditures are a significant portion (over 96%) of this account, totaling $14,303 for FY 2020.

19. The travel budget covers reimbursements to the staff for business mileage on their personal vehicles, tolls and parking, and meal allowances. The majority of the travel budget is used to reimburse Commissioners for business mileage and tolls.

20. The telephone budget includes basic service, toll charges, the service cost of a data circuit, conference calls, and cellular phone service and toll charges.

21. The postage budget finances general postage fees, parcel delivery charges and post office box rental charges. Over the last several years, this account has decreased as more correspondence is sent electronically including public outreach.

22. The insurance budget covers estimated premiums for automobiles, general liability, fire, theft, workers compensation, volunteers and the umbrella liability policy. Through the years, the Commission has realized premium savings by participating in the States Tort Claims Fund and by including the Commission’s buildings under the States property insurance.

Upon Commission approval of the FY 2020 Operating Budget, the Executive Director will be authorized to pay the State’s insurance broker an amount not to exceed the budgeted funding of $61,225.00 to cover the Commission’s insurance premiums.

23. The FY 2020 budget for information processing includes $57,475 for software maintenance agreements and data purchases, $5,000 for payroll processing, $2,600 for database administration services and $1,000 for online legal services and $1,500 for hardware maintenance. Over $9,750 of this budget is reimbursable through grants or special revenue.

24. The household services budget covers trash removal, alarm (security and fire) monitoring, and exterminating services.

25. The professional services account covers expenditures for legal fees, technical and consulting services, and other miscellaneous services. Estimated costs include $75,000 for legal fees associated with DAG services, $150,000 for labor counsel, $3,000 for the Office of Administrative Law assessment fees. Grant related technical services totaling $281,732 are budgeted.
26. Expenditures in the **other services** budget include annual subscriptions ($1,820), required memberships ($4,482), and meeting expenses ($2,500); advertising ($3,500), research related fees ($1,356), training ($15,700), and banking fees ($1,200).

27. The **maintenance buildings and grounds** budget for FY 2020 includes Repairs to the Barn Roof, Gutter replacement/repairs and Handicap Parking paver replacement. The remaining amount is available for minor maintenance services (plumbing, electrical, HVAC, etc.).

28. The **maintenance - equipment** budget provides for the inspection, maintenance and repair of certain building systems and other equipment.

29. The **maintenance vehicular** budget finances routine maintenance, vehicular fees, and repairs, including any needed body work not performed by the Commission’s Maintenance Technician.

30. Since FY 2011, several changes in the **rent other** budgets have occurred. In FY2011 a smaller postage machine was rented saving thousands in acquisition, rental and maintenance expenses. The FY 2020 budget includes $500 for the postage meter, $7,200 for the lease of (2) black and white copiers, $100 for excess copy charges, and $250 for the safe deposit box.

31. The **acquisitions - equipment** budget contains $26,600 for scientific equipment supporting grant related projects and $2,000 for unanticipated telephone system expenses.

32. The **acquisitions - information processing equipment** budget includes the replacement computers and replacement Printers anticipated to be installed in FY 2020.

33. The total estimated Operating Budget expenditures for FY 2020 equal $5,915,074. During the fiscal year, certain unforeseen and/or emergency expenditures may become necessary. The Personnel and Budget Committee has discussed this issue and recommends that the Executive Director be authorized to exceed the budget of an expenditure category (personnel, supplies, services, maintenance/rent, improvements/acquisitions) by no more than 10% provided that funds are available in other expenditure categories to ensure that the total Operating Budget is not exceeded and provided further that the combined salary budgets for the Operating Fund, Kirkwood-Cohansey Study and the Pinelands Conservation Fund do not exceed $3,471,141.

34. Several expenditure account budgets include funding for various services and benefits that are reimbursed to the State of New Jersey and are over the Executive Director’s authorized contracting limit of $40,000. These consist of employee health benefits; the employer liability assessed by the Division of Pensions and the Commission's attorney (DAG) fees. Upon Commission approval of the FY 2020 Operating Budget, the Executive Director will be authorized to pay the State of New Jersey for the aforementioned items in an amount not to exceed the budgeted funding.

</table>
1. The funds provided from the Water Supply Fund to prepare the Kirkwood Cohanse Y Aquifer Assessment and Report are kept in a separate cash account. The interest income estimated at $2,000 stays within the program and is available to help fund the project. This amount is an increase from the last few years due to interest rates slowly rising. The cumulative interest earnings are accounted for as Fund Balance.

2. It is likely that any remaining Fund Balance existing at the end of the fiscal year will be used to support the Commission’s development of water supply policies and/or regulations.

3. The FY 2020 salaries and wages budget finances salary expenses of employees who spend time working on this project and are estimated at $26,000.

4. The fringe benefits budget represents the chargeable benefits calculated using the OMB issued “Employee Benefit” reimbursement rates for FY 2019. (Rates for FY19 have been made available in Circular Letter 19-04-OMB). The Rates for FY 2020 have not been published at this time.

5. The professional services budget of $31,000 represents the continued work of USGS needed in preparation of the final report and associated Programming Services.

1. This is the anticipated Fund Balance needed to complete the Garden Project.

2. The Ground Supplies budget of $4,000.00 represents the estimated cost of the plants is $3,000.00 and Split Rail fencing added between the Garden and Springfield Road to create a perimeter. The estimated cost for the fence is $1,000.00.

3. The Professional Services budget of $10,000 represents the New Path in Concrete, Exposed Aggregate or Flagstone.

4. The Acquisitions – Furniture budget is for 2 Memorial Benches that will be purchased.

1. The funds provided from Atlantic City Electric (formerly Conectiv) and other related revenue sources are kept in four separate cash accounts, one for each program of the Fund. The FY 2020 estimated interest income totals $141,000 and is comprised of interest income from the four cash accounts. All interest income stays within the particular program and is available to help fund the various projects.

2. This revenue from the SJTA MOA executed in April of 2019 whereas the Pinelands Commission will receive $500,000.00 for the next six years (for a total of $3,000,000) for Land Acquisition.

3. The financial plan that designated the three original programs within the Fund (Land Acquisition, Conservation Planning & Research and Community Planning & Design) was approved by the Commission in April 2005 and includes a $20,000 annual assessment from each program to cover administrative expenses as described in Operating Budget note #10. The Commission amended the PCF policies in 2014 to include a fourth program, Education & Outreach, from which a $20,000 annual administrative assessment is also drawn. FY 2020 will continue to see the removal of the annual assessment from the Land Acquisition program.

4. The Land Acquisition program budget for FY 2020 totals $8,625. Personnel costs (salaries/wages and fringe benefits) are estimated at $8,625 in support of the Commission’s permanent land protection initiatives.

5. The Conservation Planning and Research program budget for FY 2020 totals $351,726. Personnel costs (salaries/wages and fringe benefits) are estimated at $310,699 to support the following initiatives and special projects: implementation of the rapid landfill assessment, implementation of the alternate septic system pilot program / septic system management, the roadside plants management project, management of threatened and endangered species data and rule making for the Black Run watershed. Rounding out the budget is the $20,000 administrative assessment mentioned above.

6. The Community Planning and Design program budget for FY 2020 totals $149,604. Personnel costs (salaries/wages and fringe benefits) are estimated at $127,500 to support the following initiatives and special projects: review and implementation of the Forest and Rural Development Area clustering rules, proposal of the Pinelands Development Credit enhancement rules, administrative responsibilities supporting the Pinelands Development Credit Bank and administration of the Pinelands Infrastructure Trust Fund. Miscellaneous expenses (software, postage, printing, supplies, meeting expenses and legal advertisements) supporting the program equal $2,104. Rounding out the budget is the $20,000 administrative assessment mentioned above.
7. The Education and Outreach program budget for FY 2020 totals $108,300. Personnel costs (salaries/wages and fringe benefits) are estimated at $82,500 to support the opening/operation of the Ashmun Exhibit Center and the Pinelands Short Course. Also included is $5,700 for supplies related to the Exhibit Center. Miscellaneous expenses (supplies and mileage) supporting the program equal $100. Rounding out the budget is the $20,000 administrative assessment mentioned above.

</table>
Good morning, Chairman Prickett and members of the Commission.

My name is Richard Dann. I work as a staff representative for the Communications Workers of America. As you know, we proudly represent the employees here at the Pinelands Commission.

I speak to you this morning because we are at a critical point in our current contract negotiations, and the budget you are scheduled to approve has become an issue in those negotiations.

For many years the employees of the Pinelands Commission have been trying to bring their salaries up to a level that would be comparable to that of other State employees, especially their peers at the Department of Environmental Protection who do similar work. It has been a slow and difficult effort, hampered at times by politicians in Trenton who were less than supportive of the employees or the mission of this agency.

I do commend the Executive Director and the Commissioners for taking steps to address salary disparities back in 2017. However, in fairness to the employees, there is still more to be done.

Our major bargaining goal currently has been to establish a system of salary progression, in addition to regular cost-of-living increases, so employees can gradually move ahead on their salary ranges and eventually reach the top. This is the same kind of system that the State of New Jersey has long used for the 55,000 career service employees in the various departments, including those at DEP, and thousands more at state colleges and elsewhere.

We thought we were closing in on a settlement earlier this summer when your negotiators offered substantial funding for merit raises. Although it was not as much as we wanted, we were willing to compromise. We therefore agreed to the money that was offered, insisting only that it be distributed equitably among the employees who had satisfactory performance evaluations.

To our surprise, management suddenly reduced its offer just weeks later, driving the two sides further apart. Management is now proposing to give employees merit raises of only 1 or 2%, depending on their performance evaluation scores.

This is completely unacceptable.

Although management told us the salary offer was reduced because of budgetary considerations, the facts do not support this rationale. When we look at the proposed budget, we find that salaries and wages for the agency as a whole are projected to increase 4.4% over last year’s total. This is more than enough to fund the raises we are anticipating.

Furthermore, we believe there is more money budgeted for certain other items than is actually needed. For example, the budget projects that health benefit premiums will increase by $25,000, when in fact the premiums for State Health Benefits are expected to decrease in 2020. We are also proposing an option that could reduce premium costs even further.

Another questionable cost is the $150,000 that is budgeted for labor counsel. This is almost seven times what dues-paying union members here at the Pinelands Commission pay annually for their union representation. It is also three times what our proposal for merit raises would cost in one year.

If management still maintains that our proposals are not affordable, please consider this an official request to meet with your fiscal staff so together we can clear up this obstacle.

In conclusion, we hope that management will act fairly toward its employees and agree to reasonable, affordable salary increases as proposed by CWA. Thank you for your consideration.
RESOLUTION OF THE NEW JERSEY PINELANDS COMMISSION

NO. PC4-19-__________

Commissioner _______________________________ moves and Commissioner _______________________________ seconds the motion that:

WHEREAS, the Pinelands Commission has reviewed the Public Development Application Reports and the recommendation of the Executive Director that the following applications for Public Development be approved with conditions:

1984-1345.008
Applicant: Jackson Township
Municipality: Jackson Township
Management Area: Pinelands Rural Development Area
Date of Report: September 20, 2019
Proposed Development: Installation of a 13.7 acre ground mounted solar energy facility on the Jackson Township Legler Landfill;

1990-0450.007
Applicant: Sunoco Retail, LLC for New Jersey Turnpike Authority
Municipality: Lacey Township
Management Area: Pinelands Preservation Area District
Date of Report: September 19, 2019
Proposed Development: Construction of a gasoline fueling station and a 3,899 square foot convenience store at the Forked River Service Area within the Garden State Parkway right-of-way; and

1990-0809.003
Applicant: Town of Hammonton
Municipality: Town of Hammonton
Management Area: Pinelands Town
Date of Report: September 18, 2019
Proposed Development: Demolition of a building, 50 years old or older.

WHEREAS, no request for a hearing before the Office of Administrative Law concerning the Executive Director’s recommendation has been received for any of these applications; and

WHEREAS, the Pinelands Commission hereby adopts the Conclusion of the Executive Director for each of the proposed developments; and

WHEREAS, the Pinelands Commission hereby determines that each of the proposed public developments conform to the standards for approving an application for public development set forth in N.J.A.C. 7:50-4.57 if the conditions recommended by the Executive Director are imposed; and

WHEREAS, pursuant to N.J.S.A. 13A-5h, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period and Governor shall approve same, in which case the action shall become effective upon such approval.
NOW, THEREFORE BE IT RESOLVED that Application Numbers 1984-1345.008, 1990-0450.007 and 1990-0809.003 for public development are hereby approved subject to the conditions recommended by the Executive Director.

Record of Commission Votes

Adopted at a meeting of the Pinelands Commission

Date: ________________________

_________________________  ______________
Nancy Wittenberg          Richard Prickett
Executive Director        Chairman
Dear Ms. Schlegel:

The Commission staff has completed its review of this application for installation of a 13.7 acre ground mounted solar energy facility on the Jackson Township Legler Landfill. Enclosed is a copy of a Public Development Application Report. On behalf of the Commission’s Executive Director, I am recommending that the Pinelands Commission approve the application with conditions at its October 11, 2019 meeting.

Any interested party may appeal this recommendation in accordance with the appeal procedure attached to this document. If no appeal is received, the Pinelands Commission may either approve the recommendation of the Executive Director or refer the application to the New Jersey Office of Administrative Law for a hearing.

Prior to any development, the applicant shall obtain any other necessary permits and approvals.

Sincerely,

Charles M. Horner, P.P.
Director of Regulatory Programs

Application No.: 1984-1345.008
Legler Landfill
Block 18702, Lot 29
Block 19001, Lots 5, 6 & 11.02
Jackson Township

This application proposes installation of a 13.7 acre ground mounted solar energy facility on the Legler Landfill located on the above referenced 118.19 acre parcel. The parcel and the landfill are owned by Jackson Township. The applicant represents the proposed solar energy facility will generate between three and four megawatts of electricity.

The Pinelands Comprehensive Management Plan (CMP) requires, with certain exceptions, that all landfills within the Pinelands Protection Area which ceased operation on or after January 14, 1981 be capped with an impermeable material. The Legler Landfill is located in the Pinelands Protection Area and ceased operation in 1980, therefore an impermeable material cap was not required. The Pinelands Commission approved a minimum two foot soil cap of the Legal Landfill on March 7, 1996 and the installation of the cap was completed in 1997. The proposed solar facility will be located on a portion of the capped landfill.

STANDARDS

The Commission staff has reviewed the proposed development for consistency with all standards of the CMP. The following reviews the CMP standards that are relevant to this application:

Land Use (N.J.A.C. 7:50-5.26)

The parcel is located in a Pinelands Rural Development Area. Solar energy facilities are permitted as a principal land use in a Pinelands Rural Development Area provided that the solar energy facility meets the siting standards specified in the CMP (N.J.A.C. 7:50-5.36). The proposed solar energy facility meets the solar energy facility siting standards specified in N.J.A.C. 7:50-5.36.
Threatened and Endangered Species Standards (N.J.A.C. 7:50-6.27 & 6.33)

The applicant completed a threatened and endangered (T&E) animal species habitat assessment on the parcel to identify animal species of concern. The habitat assessment identified three T&E animal species of concern; Northern pine snake, Pine Barrens treefrog and Barred Owl. Based on the submitted T&E animal species habitat assessment and site inspections by the Commission staff, it was determined that only suitable habitat for Northern pine snake was located on the parcel. The applicant reduced the area of the proposed solar energy facility from 20 acres to 18 acres to avoid the portion of the parcel that contained suitable habitat for Northern pine snake. As required by the CMP, the proposed development is designed to avoid an irreversible adverse impact on habitats that are critical to the survival of any local population of T&E animal species.

The applicant then performed a T&E plant habitat assessment and visual survey of the parcel. The habitat assessment identified suitable habitat for Sickle-leaved golden aster, a CMP identified T&E plant species. The applicant performed a T&E species survey for Sickle-leaved golden aster plants. The T&E species survey identified a total of approximately 56,600 Sickle-leaved golden aster plants on the parcel. The CMP requires that no development shall be carried out unless it is designed to avoid an irreversible adverse impact on the survival of a local population of a T&E plant species. Based upon the presence of the Sickle-leaved golden aster plants, the applicant further reduced the size of the proposed solar energy facility from 18 acres to 13.7 acres and redesigned the layout of the solar energy facility to avoid most areas on the landfill cap where Sickle-leaved golden aster plants were located. The proposed 13.7 acre solar energy facility will result in a loss of approximately 3,100 of the 56,600 Sickle-leaved golden aster plants.

The applicant proposes to impose a conservation deed restriction on 45.48 acres of the parcel located outside of the area proposed for development to protect the remaining population of approximately 53,500 Sickle-leaved golden aster plants on the parcel. The applicant also proposes utilization of low-impact construction equipment to limit land disturbance, fencing to limit construction impacts to only the area proposed for development and to have a qualified botanist on the parcel during construction to assist with protection of the Sickle-leaved golden aster plants.

Based upon the remaining population of approximately 53,500 Sickle-leaved golden aster plants and the measures proposed by the applicant to protect that remaining population, it has been demonstrated that the installation of the proposed solar energy facility will not result in an irreversible adverse impact to the local population of Sickle-leaved golden aster.

Vegetation Management Standards (N.J.A.C. 7:50-6.23 & 6.26)

The proposed development will be located over a capped landfill. The proposed soil disturbance is limited to that which is necessary to accommodate the proposed development.

The Landscaping and Revegetation guidelines of the CMP recommend the use of grasses that are tolerant of droughty, nutrient poor conditions. For this application, revegetation of disturbed areas is not proposed or recommended because of the potential negative impact on Sickle-leaved golden asters from competing grass species.
Stormwater Management Standards (N.J.A.C.7:50-6.84(a)6)

The applicant has demonstrated that the proposed development is consistent with the CMP stormwater management standards. To meet these standards, the application proposes to utilize two existing topographic depressions on the parcel as stormwater infiltration basins.

Cultural Resource Standards (N.J.A.C. 7:50-6.151)

The Commission staff reviewed the application for evidence of cultural resources within the project area. Based upon the lack of potential for significant cultural resources within the project area, a cultural resource survey was not required.

PUBLIC COMMENT

The applicant has provided the requisite public notices. Notice to land owners within 200 feet of the proposed development was completed on February 21, 2019. Newspaper public notice was completed on February 22, 2019. The application was designated as complete on the Commission’s website on August 27, 2019. The Commission’s public comment period closed on September 13, 2019. The Commission received one public comment (attached) regarding this application.

Public Comment: The commenter expressed support of the proposed development.

Staff Response: The Commission appreciates the commenter’s support of the proposed solar energy facility and their interest in the Pinelands Area.

CONDITIONS

1. Except as modified by the below conditions, the proposed development shall adhere to the following plans:
   
   Site Plan, consisting of three sheets, prepared by FWH Associates, P.A. and dated as follows:
   
   Sheets 1 & 2 - dated March 21, 2018 and last revised July 24, 2019
   Sheet 3 - dated March 21, 2018
   
   Pinelands Deed Restriction Plan, consisting of one sheet, prepared by FWH Associates, P.A., dated March 21, 2018 and last revised May 10, 2019

2. Disposal of any construction debris or excess fill may only occur at an appropriately licensed facility.

3. Any proposed revegetation shall adhere to the "Vegetation" standards of the CMP. Where appropriate, the applicant is encouraged to utilize the following Pinelands native grasses for revegetation: Switch grass, Little bluestem and Broom-sedge.

4. Prior to any development, the applicant shall obtain any other necessary permits and approvals.
5. The proposed solar energy facility shall be removed and the parcel shall be restored within 12 months of termination of its use.

6. The applicant shall implement the construction methods and techniques as detailed on sheet one of the Site Plan prepared by FWH Associates, P.A., dated March 21, 2018 and last revised July 24, 2019.

7. Prior to any disturbance, the applicant shall submit a recorded conservation deed restriction on the 45.48 acres of the parcel depicted on the Pinelands Deed Restriction Plan prepared by FWH Associates, P.A., dated March 21, 2018 and last revised May 10, 2019.

8. Prior to any disturbance of the existing landfill cap, the applicant shall obtain any required authorization from the New Jersey Department of Environmental Protection.

**CONCLUSION**

As the proposed development conforms to the standards set forth in N.J.A.C. 7:50-4.57, it is recommended that the Pinelands Commission **APPROVE** the proposed development subject to the above conditions.
The Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-4.91) provides an interested party the right to appeal any determination made by the Executive Director to the Commission in accordance with N.J.A.C. 7:50-4.91. An interested party is someone who has a specific property interest sufficient to require a hearing on constitutional or statutory grounds. Only appeal requests submitted by someone meeting the definition of an interested party will be transmitted to the New Jersey Office of Administrative Law for a hearing. Any such appeal must be made in writing to the Commission and received by the Commission’s office no later than 4:00 PM on October 8, 2019 and include the following information:

1. the name and address of the person requesting the appeal;
2. the application number;
3. the date on which the determination to be appealed was made;
4. a brief statement of the basis for the appeal; and
5. a certificate of service (a notarized statement) indicating that service of the notice has been made, by certified mail, on the clerk of the county, municipal planning board and environmental commission with jurisdiction over the property which is subject of this decision.

Within 15 days following receipt of a notice of valid appeal, the Executive Director shall initiate the procedures for assignment of an Administrative Law Judge to preside at the hearing pursuant to the Administrative Procedures Act, N.J.S.A. 52:14B-1 et seq., and the procedures established by the Office of Administrative Law. The time, date and location of such hearing shall be designated by the Office of Administrative Law.
My name is Peter Leighton my property backs up to the township land fill at 661 Ollie Burke RD. I would like to let the commission know that I'm in favor of the location of the solar farm there. My phone number is 732-928-4259.

Re: Application # 1990-0450.007
Garden State Parkway
Forked River Service Area
Lacey Township

Dear Mr. Lira:

The Commission staff has completed its review of this application for construction of a gasoline fueling station and a 3,899 square foot convenience store at the Forked River Service Area within the Garden State Parkway right-of-way. Enclosed is a copy of a Public Development Application Report. On behalf of the Commission’s Executive Director, I am recommending that the Pinelands Commission approve the application with conditions at its October 11, 2019 meeting.

Any interested party may appeal this recommendation in accordance with the appeal procedure attached to this document. If no appeal is received, the Pinelands Commission may either approve the recommendation of the Executive Director or refer the application to the New Jersey Office of Administrative Law for a hearing.

Prior to any development, the applicant shall obtain any other necessary permits and approvals.

Sincerely,

Charles M. Horner, P.P.
Director of Regulatory Programs

Enc: Appeal Procedure
c: Secretary, Lacey Township Planning Board (via email)
Lacey Township Construction Code Official (via email)
Lacey Township Environmental Commission (via email)
Secretary, Ocean County Planning Board (via email)
Daniel T. Sehnal, PE (via email)
This application proposes construction of a gasoline fueling station and a 3,899 square foot convenience store at the Forked River Service Area within the Garden State Parkway right-of-way in Lacey Township.

The applicant also proposes the demolition of two structures that are less than 50 years old, an existing gasoline fueling station and a 2,574 square foot convenience store. The demolition of a structure less than 50 years old does not require application to the Commission.

STANDARDS

The Commission staff has reviewed the proposed development for consistency with all standards of the Pinelands Comprehensive Management Plan (CMP). The following reviews the CMP standards that are relevant to this application:

Land Use (N.J.A.C. 7:50-5.35)

The proposed development is located in the CMP designated Parkway Overlay District and underlain by the Pinelands Preservation Area District. As an accessory facility to the Garden State Parkway, the proposed development is a permitted land use in the Parkway Overlay District.

Vegetation Management Standards (N.J.A.C. 7:50-6.23 & 6.26)

The proposed development will be located within existing developed, paved and landscaped areas. The proposed soil disturbance is limited to that which is necessary to accommodate the proposed development.
The Landscaping and Revegetation guidelines of the CMP recommend the use of grasses that are tolerant of droughty, nutrient poor conditions. The existing Forked River Service Area is comprised of pavement and existing maintained lawn areas. The site of the proposed gas station and convenience store building is surrounded by existing pavement. The applicant proposes to plant native and non-native grass species totaling less than 4,520 square feet, immediately adjacent to the proposed convenience store.

Water Quality Standard (N.J.A.C. 7:50-6.83)

The existing convenience store is serviced by public sanitary sewer. The proposed convenience store will be serviced by public sanitary sewer.

Cultural Resource Standards (N.J.A.C. 7:50-6.151)

The New Jersey State Historic Preservation Office (SHPO) previously determined that the Garden State Parkway was eligible for the National Register of Historic Places. The two buildings proposed for demolition are not contributing resources to the register eligible Garden State Parkway Historic District. A noncontributing resource means any building which is not an integral component of an historic district because they neither date from a time period for which the historic district is significant, nor represent an architectural style, period or construction method for which the historic district is significant. Because the two buildings proposed for demolition are not contributing resources to the register eligible Garden State Parkway Historic District, no Certificate of Appropriateness is required for this application.

PUBLIC COMMENT

The applicant has provided the requisite public notices. Newspaper public notice was completed on July 22, 2019. The application was designated as complete on the Commission’s website on August 28, 2019. The Commission’s public comment period closed on September 13, 2019. No public comment was submitted to the Commission regarding this application.

CONDITIONS

1. Except as modified by the below conditions, the proposed development shall adhere to the plan, consisting of 26 sheets, prepared by Dynamic Engineering and dated January 14, 2019 and revised to May 6, 2019.

2. Disposal of any construction debris or excess fill may only occur at an appropriately licensed facility.

3. Any proposed revegetation shall adhere to the "Vegetation" standards of the CMP. Where appropriate, the applicant is encouraged to utilize the following Pinelands native grasses for revegetation: Switch grass, Little bluestem and Broom-sedge.

4. Prior to any development, the applicant shall obtain any other necessary permits and approvals.
CONCLUSION

As the proposed development conforms to the standards set forth in N.J.A.C. 7:50-4.57, it is recommended that the Pinelands Commission APPROVE the proposed development subject to the above conditions.
The Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-4.91) provides an interested party the right to appeal any determination made by the Executive Director to the Commission in accordance with N.J.A.C. 7:50-4.91. An interested party is someone who has a specific property interest sufficient to require a hearing on constitutional or statutory grounds. Only appeal requests submitted by someone meeting the definition of an interested party will be transmitted to the New Jersey Office of Administrative Law for a hearing. Any such appeal must be made in writing to the Commission and received by the Commission’s office no later than 5:00 PM on October 7, 2019 and include the following information:

1. the name and address of the person requesting the appeal;

2. the application number;

3. the date on which the determination to be appealed was made;

4. a brief statement of the basis for the appeal; and

5. a certificate of service (a notarized statement) indicating that service of the notice has been made, by certified mail, on the clerk of the county, municipal planning board and environmental commission with jurisdiction over the property which is subject of this decision.

Within 15 days following receipt of a notice of valid appeal, the Executive Director shall initiate the procedures for assignment of an Administrative Law Judge to preside at the hearing pursuant to the Administrative Procedures Act, N.J.S.A. 52:14B-1 et seq., and the procedures established by the Office of Administrative Law. The time, date and location of such hearing shall be designated by the Office of Administrative Law.

Application No.: 1990-0809.003
Block 2421, Lot 2.03
Town of Hammonton

This application proposes demolition of a building, 50 years old or older, located on the above referenced 0.25 acre parcel in the Town of Hammonton.

STANDARDS

The Commission staff has reviewed the proposed development for consistency with all standards of the Pinelands Comprehensive Management Plan (CMP). The following reviews the CMP standards that are relevant to this application:

Land Use (N.J.A.C. 7:50-5.27)

The parcel is located in the Pinelands Town of Hammonton. The demolition of a building is permitted in the Pinelands Area.

Cultural Resource Standards (N.J.A.C. 7:50-6.151)

The Commission staff reviewed the application for evidence of cultural resources on the parcel. Based upon the lack of potential for significant cultural resources on the parcel, a cultural resource survey was not required.

PUBLIC COMMENT

The CMP defines the proposed development as “minor” development. The CMP does not require public notice for minor public development applications. The application was designated as complete on the Commission’s website on August 13, 2019. The Commission’s public comment period closed on September 13, 2019. No public comment was submitted to the Commission regarding this application.
CONDITIONS

1. Prior to any demolition, the applicant shall obtain any other necessary permits and approvals.

2. Disposal of any demolition debris may only occur at an appropriately licensed facility.

3. This application is for the proposed demolition only. Any future development of the parcel shall be governed by the Town of Hammonton's certified land use ordinance and the CMP.

CONCLUSION

As the proposed demolition conforms to the standards set forth in N.J.A.C. 7:50-4.57, it is recommended that the Pinelands Commission APPROVE the proposed demolition subject to the above conditions.
The Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-4.91) provides an interested party the right to appeal any determination made by the Executive Director to the Commission in accordance with N.J.A.C. 7:50-4.91. Any such appeal must be made in writing to the Commission and received by the Commission’s office no later than 5:00 PM on October 7, 2019 and include the following information:

1. the name and address of the person requesting the appeal;
2. the application number;
3. the date on which the determination to be appealed was made;
4. a brief statement of the basis for the appeal; and
5. a certificate of service (a notarized statement) indicating that service of the notice has been made, by certified mail, on the clerk of the county, municipal planning board and environmental commission with jurisdiction over the property which is subject of this decision.

Within 15 days following receipt of a notice of valid appeal, the Executive Director shall initiate the procedures for assignment of an Administrative Law Judge to preside at the hearing pursuant to the Administrative Procedures Act, N.J.S.A. 52:14B-1 et seq., and the procedures established by the Office of Administrative Law. The time, date and location of such hearing shall be designated by the Office of Administrative Law.
RESOLUTION OF THE NEW JERSEY PINELANDS COMMISSION

NO. PC4-19-____________

TITLE: Approving With Conditions Applications for Public Development (Application Numbers 2018-0036.001 & 2018-0095.001)

Commissioner _______________________________ moves and Commissioner _______________________________ seconds the motion that:

WHEREAS, the Pinelands Commission has reviewed the Public Development Application Reports and the recommendation of the Executive Director that the following applications for Public Development be approved with conditions:

2018-0036.001
Applicant: Atlantic County
Municipality: Galloway Township
Management Area: Pinelands Regional Growth Area
Date of Report: September 18, 2019
Proposed Development: Road improvements within the Jimmie Leeds Road right-of-way;

2018-0095.001
Applicant: Atlantic County and Stockton University
Municipality: Galloway Township
Management Area: Pinelands Regional Growth Area
Date of Report: September 19, 2019
Proposed Development: Improvements to the intersection of Pomona Road and Vera King Farris Drive.

WHEREAS, no request for a hearing before the Office of Administrative Law concerning the Executive Director’s recommendation has been received for any of these applications; and

WHEREAS, the Pinelands Commission hereby adopts the Conclusion of the Executive Director for each of the proposed developments; and

WHEREAS, the Pinelands Commission hereby determines that each of the proposed public developments conform to the standards for approving an application for public development set forth in N.J.A.C. 7:50-4.57 if the conditions recommended by the Executive Director are imposed; and

WHEREAS, pursuant to N.J.S.A. 13A-5h, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period and Governor shall approve same, in which case the action shall become effective upon such approval.
NOW, THEREFORE BE IT RESOLVED that Application Numbers 2018-0036.001 and 2018-0095.001 for public development are hereby approved subject to the conditions recommended by the Executive Director.

Northfield, NJ 08224

Re: Application # 2018-0036.001
Jimmie Leeds Road
Galloway Township

Dear Mr. Shourds:

The Commission staff has completed its review of this application for road improvements within the Jimmie Leeds Road right-of-way. Enclosed is a copy of a Public Development Application Report. On behalf of the Commission’s Executive Director, I am recommending that the Pinelands Commission approve the application with conditions at its October 11, 2019 meeting.

Any interested party may appeal this recommendation in accordance with the appeal procedure attached to this document. If no appeal is received, the Pinelands Commission may either approve the recommendation of the Executive Director or refer the application to the New Jersey Office of Administrative Law for a hearing.

Prior to any development, the applicant shall obtain any other necessary permits and approvals.

Sincerely,

Charles M. Horner, P.P.
Director of Regulatory Programs

Enc: Appeal Procedure

c: Secretary, Galloway Township Planning Board (via email)
Galloway Township Construction Code Official (via email)
Galloway Township Environmental Commission (via email)
Atlantic County Department of Regional Planning and Development (via email)
This application proposes road improvements within the Jimmie Leeds Road right-of-way located in Galloway Township.

The applicant proposes to widen Jimmie Leeds Road for approximately 5,000 linear feet between Vera King Farris Drive and Laurel Avenue. Jimmie Leeds Road is currently paved to a width ranging from 27 feet to 46 feet within the project area. The proposed widening will result in Jimmie Leads Road having a paved width ranging from 47 feet to 55 feet to accommodate center turn lanes and increased road shoulder widths to improve traffic safety.

STANDARDS

The Commission staff has reviewed the proposed development for consistency with all standards of the Pinelands Comprehensive Management Plan (CMP). The following reviews the CMP standards that are relevant to this application:

Land Use (N.J.A.C. 7:50-5.26(b)10 & 5.28)

The proposed development is located in a Pinelands Rural Development Area and a Pinelands Regional Growth Area. The proposed road improvements are a permitted land use in a Pinelands Rural Development Area and a Pinelands Regional Growth Area.

Vegetation Management Standards (N.J.A.C. 7:50-6.23 & 6.26)

The proposed road improvements will be located in existing dirt and grass road shoulders. The proposed soil disturbance is limited to that which is necessary to accommodate the proposed road improvements.

The Landscaping and Revegetation guidelines of the CMP recommend the use of grasses that are tolerant of droughty, nutrient poor conditions. The applicant proposes to utilize a seed mixture which
meets that recommendation.

**Stormwater Management Standards (N.J.A.C. 7:50-6.84(a)6)**

The applicant has demonstrated that the proposed road improvements are consistent with the stormwater management standards contained in the CMP. To meet the stormwater management standards, the applicant will be constructing an underground stormwater infiltration system comprised of perforated piping within stone trenches.

**Cultural Resource Standards (N.J.A.C. 7:50-6.151)**

The Commission staff reviewed the application for evidence of cultural resources within the project area. Based upon the lack of potential for significant cultural resources within the project area, a cultural resource survey was not required.

**PUBLIC COMMENT**

The applicant has provided the requisite public notices. Newspaper public notice was completed on June 24, 2019. The application was designated as complete on the Commission’s website on August 22, 2019. The Commission’s public comment period closed on September 13, 2019. No public comment was submitted to the Commission regarding this application.

**CONDITIONS**

1. Except as modified by the below conditions, the proposed development shall adhere to the plan, consisting of 38 sheets, prepared by the Atlantic County Division of Engineering and dated as follows:

   Sheet 1 - undated; last revised August 9, 2019
   Sheets 2, 4 & 9-23 - June 7, 2019; last revised August 9, 2019
   Sheet 3 - June 7, 2019
   Sheet 5 - January 28, 2016
   Sheets 6-8, 27-30 & 32-38 - November 17, 2017
   Sheets 24-26 & 31 - January 25, 2018

2. Disposal of any construction debris or excess fill may only occur at an appropriately licensed facility.

3. Any proposed revegetation shall adhere to the "Vegetation" standards of the CMP. Where appropriate, the applicant is encouraged to utilize the following Pinelands native grasses for revegetation: Switch grass, Little bluestem and Broom-sedge.

4. Prior to any development, the applicant shall obtain any other necessary permits and approvals.

**CONCLUSION**

As the proposed development conforms to the standards set forth in N.J.A.C. 7:50-4.57, it is recommended that the Pinelands Commission **APPROVE** the proposed development subject to the above conditions.
The Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-4.91) provides an interested party the right to appeal any determination made by the Executive Director to the Commission in accordance with N.J.A.C. 7:50-4.91. An interested party is someone who has a specific property interest sufficient to require a hearing on constitutional or statutory grounds. Only appeal requests submitted by someone meeting the definition of an interested party will be transmitted to the New Jersey Office of Administrative Law for a hearing. Any such appeal must be made in writing to the Commission and received by the Commission’s office no later than 5:00 PM on October 7, 2019 and include the following information:

1. the name and address of the person requesting the appeal;
2. the application number;
3. the date on which the determination to be appealed was made;
4. a brief statement of the basis for the appeal; and
5. a certificate of service (a notarized statement) indicating that service of the notice has been made, by certified mail, on the clerk of the county, municipal planning board and environmental commission with jurisdiction over the property which is subject of this decision.

Within 15 days following receipt of a notice of valid appeal, the Executive Director shall initiate the procedures for assignment of an Administrative Law Judge to preside at the hearing pursuant to the Administrative Procedures Act, N.J.S.A. 52:14B-1 et seq., and the procedures established by the Office of Administrative Law. The time, date and location of such hearing shall be designated by the Office of Administrative Law.
Dear Mr. West & Mr. Peterson:

The Commission staff has completed its review of this application for improvements to the intersection of Pomona Road and Vera King Farris Drive in Galloway Township. Enclosed is a copy of a Public Development Application Report. On behalf of the Commission’s Executive Director, I am recommending that the Pinelands Commission approve the application with conditions at its October 11, 2019 meeting.

Any interested party may appeal this recommendation in accordance with the appeal procedure attached to this document. If no appeal is received, the Pinelands Commission may either approve the recommendation of the Executive Director or refer the application to the New Jersey Office of Administrative Law for a hearing.

Prior to any development, the applicant shall obtain any other necessary permits and approvals.

Sincerely,

Charles M. Horner, P.P.
Director of Regulatory Programs

Enc: Appeal Procedure
c: Secretary, Galloway Township Planning Board (via email)
Galloway Township Construction Code Official (via email)
Galloway Township Environmental Commission (via email)
Atlantic County Department of Regional Planning and Development (via email)
Beth-Ann Grasso, PE, CME, CFM (via email)
This application proposes improvements to the intersection of Pomona Road and Vera King Farris Drive in Galloway Township. Vera King Farris Drive provides access to Stockton University.

This application proposes to widen approximately 1,250 linear feet of Pomona Road from an existing paved width of 23 feet to a maximum paved width of 43 feet. This widening will accommodate a dedicated access ramp from eastbound Pomona Road onto Vera King Farris Drive and a left turn lane from westbound Pomona Road onto Vera King Farris Drive.

In addition, approximately 295 linear feet of Vera King Farris Drive will be widened from an existing paved width of 24 feet to a maximum paved width of 44 feet. This widening will accommodate dedicated left and right turn lanes onto Pomona Road.

The applicant has indicated that the proposed development will improve traffic safety at the intersection.

**STANDARDS**

The Commission staff has reviewed the proposed development for consistency with all standards of the Pinelands Comprehensive Management Plan (CMP). The following reviews the CMP standards that are relevant to this application:
Land Use (N.J.A.C. 7:50-5.26(b)10 & 5.28(a))

The project is located partially in a Pinelands Rural Development Area and partially in a Pinelands Regional Growth Area. The proposed intersection improvements are permitted in a Pinelands Rural Development Area and a Pinelands Regional Growth Area.

Vegetation Management Standards (N.J.A.C. 7:50-6.23 & 6.26)

The proposed road improvements will be located within existing grass road shoulders and within an oak/pine forested area. The proposed improvements will disturb approximately 1.5 acres of forested land. The proposed clearing and soil disturbance is limited to that which is necessary to accommodate the proposed intersection improvements.

The Landscaping and Revegetation guidelines of the CMP recommend the use of grasses that are tolerant of droughty, nutrient poor conditions. To stabilize the disturbed areas, the applicant proposes to utilize a seed mixture which meets that recommendation.

Stormwater Management Standards (N.J.A.C.7:50-6.84(a)6)

The applicant has demonstrated that the proposed road improvements are consistent with the CMP stormwater management standards. To meet the stormwater management standards, the applicant will be constructing a stormwater infiltration basin.

Cultural Resource Standards (N.J.A.C. 7:50-6.151)

The Commission staff reviewed the application for evidence of cultural resources within the project area. Based upon the lack of potential for significant cultural resources within the project area, a cultural resource survey was not required.

PUBLIC COMMENT

The applicant has provided the requisite public notices. Newspaper public notice was completed on July 10, 2019. Notice to required land owners within 200 feet of the proposed development was completed on July 16, 2019. The application was designated as complete on the Commission’s website on August 15, 2019. The Commission’s public comment period closed on September 13, 2019. No public comment was submitted to the Commission regarding this application.

CONDITIONS

1. Except as modified by the below conditions, the proposed development shall adhere to the plan, consisting of 33 sheets, prepared by Pennoni Associates Inc., and dated as follows:

   Sheets 1-3, 5, 6, 9, 10, 13, 14, 16-29, 32 & 33 - May 17, 2019
   Sheets 4, 7, 8, 11, 12, 15, 30 & 31 - May 17, 2019; last revised July 15, 2019

2. Disposal of any construction debris or excess fill may only occur at an appropriately licensed facility.
3. Any proposed revegetation shall adhere to the "Vegetation" standards of the CMP. Where appropriate, the applicant is encouraged to utilize the following Pinelands native grasses for revegetation: Switch grass, Little bluestem and Broom-sedge.

4. Prior to any development, the applicant shall obtain any other necessary permits and approvals.

**CONCLUSION**

As the proposed development conforms to the standards set forth in N.J.A.C. 7:50-4.57, it is recommended that the Pinelands Commission **APPROVE** the proposed development subject to the above conditions.
PINELANDS COMMISSION

APPEAL PROCEDURE

The Pinelands Comprehensive Management Plan (N.J.A.C. 7:50-4.91) provides an interested party the right to appeal any determination made by the Executive Director to the Commission in accordance with N.J.A.C. 7:50-4.91. An interested party is someone who has a specific property interest sufficient to require a hearing on constitutional or statutory grounds. Only appeal requests submitted by someone meeting the definition of an interested party will be transmitted to the New Jersey Office of Administrative Law for a hearing. Any such appeal must be made in writing to the Commission and received by the Commission’s office no later than 5:00 PM on October 7, 2019 and include the following information:

1. the name and address of the person requesting the appeal;
2. the application number;
3. the date on which the determination to be appealed was made;
4. a brief statement of the basis for the appeal; and
5. a certificate of service (a notarized statement) indicating that service of the notice has been made, by certified mail, on the clerk of the county, municipal planning board and environmental commission with jurisdiction over the property which is subject of this decision.

Within 15 days following receipt of a notice of valid appeal, the Executive Director shall initiate the procedures for assignment of an Administrative Law Judge to preside at the hearing pursuant to the Administrative Procedures Act, N.J.S.A. 52:14B-1 et seq., and the procedures established by the Office of Administrative Law. The time, date and location of such hearing shall be designated by the Office of Administrative Law.
MEMORANDUM

To: Members of the Pinelands Commission

From: Susan R. Grogan
Chief Planner

Date: September 30, 2019

Subject: No Substantial Issue Findings

During the past month, we reviewed one master plan amendment that we found to raise no substantial issues with respect to the standards of the Pinelands Comprehensive Management Plan. This amendment was:

**Beachwood Borough Planning Board Resolution 2019-30** – adopts a report entitled General Reexamination of the Master Plan, dated May 2019. The Master Plan Report includes: an update on the major problems and objectives related to land development identified in the Borough’s previous Master Plan (2000); updated demographic information; a discussion of the changes in policies and objectives since the prior report; and a summary of recommended changes to the master plan and municipal land development regulations. Among these recommendations are the development of a new sustainability element, a new housing element and fair share plan and revisions to bulk standards, permitted and conditional uses, signs, fences, parking, landscaping, home occupations, accessory structures, wireless facilities, and noise standards.
WHEREAS, Section 502 of the National Parks and Recreation Act of 1978 (Pub. L. 95-625) authorizes the United States Secretary of the Interior to provide financial assistance to the State of New Jersey for planning and land acquisition activities in support of the Pinelands protection effort; and

WHEREAS, Section 502 of the 1978 National Parks and Recreation Act originally authorized a total of $26 million in support of the Pinelands Commission’s activities, including $23 million for acquisition of lands in the Pinelands; and

WHEREAS, the federal government subsequently authorized an increase in funding for land acquisition in the Pinelands to a total of $40 million, of which approximately $32 million has been appropriated and expended to date; and

WHEREAS, in 1980, the Pinelands Commission, the New Jersey Department of Environmental Protection and the United States Department of the Interior executed a Memorandum of Agreement for purposes of implementing the provisions of Section 502 as they pertain to grants for both planning and land acquisition; and

WHEREAS, in accordance with the 1980 Memorandum of Agreement:

- The Department of Environmental Protection is responsible for overall administration of the Section 502 Land Acquisition Program, including submission of all applications for Section 502 funding, grant management and monitoring; and
- The Pinelands Commission is required to evaluate all proposed land acquisitions for conformance with Section 502 and the Comprehensive Management Plan; and
- The Secretary of the Interior is responsible for approving the expenditure of Section 502 funds after consultation with DEP and the Commission; and

WHEREAS, lands eligible for acquisition are those that have critical ecological values in danger of being adversely affected or destroyed, as well as acquisitions that are undertaken pursuant to the Comprehensive Management Plan and serve to further the preservation, conservation, recreation and/or cultural objectives of the Pinelands National Reserve; and

WHEREAS, to guide the State’s acquisition efforts, the Pinelands Commission designated target areas throughout the Pinelands that met these criteria, based on their strategic ecological value related to watershed protection, wildlife corridors and contiguity with existing State-owned land; and

WHEREAS, in April 1980, the Department of Environmental Protection acquired 192 acres within the Bass River Section 502 target area using a combination of Green Acres Bond funds and Section 502 acquisition funds; and

WHEREAS, the acquired lands (Block 45, Lot 1; Block 51, Lot 4.01; and Block 52, Lot 6.05) are located in the Pinelands Preservation Area District and Pinelands Forest Area of Barnegat Township and have been managed by the Division of Parks and Forestry as part of Bass River State Forest since their acquisition by the State; and
WHEREAS, the Department of Environmental Protection is now proposing to transfer ownership of these lands to Ocean County in exchange for approximately 269 acres of County-owned land that is also located in the Pinelands Preservation Area District and Pinelands Forest Area; and

WHEREAS, the 1980 Memorandum of Agreement specifies that changes in use or management of lands acquired using Section 502 funding require concurrence by the Pinelands Commission and approval by the United States Department of the Interior; and

WHEREAS, the exchange of lands will allow the County to expand its holdings around the historic Cedar Bridge Tavern site in Barnegat Township, thereby facilitating opportunities for public education and better stewardship of the area; and

WHEREAS, the exchange of lands will also allow the Department of Environmental Protection to fill gaps in State ownership in Barnegat and Stafford townships, thus creating a larger contiguous parcel for administration as part of the State’s park system; and

WHEREAS, all lands involved in the transfer will remain in public ownership and restricted to conservation and recreation, with all future development subject to approval by the Pinelands Commission in accordance with the Comprehensive Management Plan; and

WHEREAS, the Commission’s CMP Policy & Implementation Committee reviewed the Department of Environmental Protection’s request and recommended its endorsement by the Pinelands Commission; and

WHEREAS, the Commission finds that the State’s conveyance of Barnegat Township Block 45, Lot 1; Block 51, Lot 4.01; and Block 52, Lot 6.05 to Ocean County will further the preservation, conservation, recreation and cultural objectives of the Pinelands National Reserve and is otherwise consistent with the Comprehensive Management Plan, Section 502 of the National Parks and Recreation Act of 1978 and the 1980 Memorandum of Agreement; and

WHEREAS, pursuant to N.J.S.A. 13:18A-5h, no action authorized by the Commission shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Commission has been delivered to the Governor for review, unless prior to expiration of the review period the Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE BE IT RESOLVED that the Pinelands Commission hereby concurs with the New Jersey Department of Environmental Protection’s proposed conveyance of Barnegat Township Block 45, Lot 1; Block 51, Lot 4.01; and Block 52, Lot 6.05 to Ocean County and recommends that the United States Department of the Interior approve the change in ownership and management of these lands.

Re: Proposed Conveyance of Section 502-Funded Land from the New Jersey Department of Environmental Protection to the County of Ocean
Block 45, Lot 1, Block 51, Lot 4.01 and Block 52, Lot 6.05
Township of Barnegat, Ocean County

Dear Ms. Wittenberg,

I am writing to seek your assistance in obtaining the concurrence of the Pinelands Commission with the proposed conveyance of the above-referenced parcels by the New Jersey Department of Environmental Protection to Ocean County as part of a land exchange. As explained in more detail below, the Commission’s concurrence is needed because these properties were purchased in part with federal Pinelands preservation funds provided to NJDEP under Section 502 of the “National Parks and Recreation Act of 1978” (Pub. L. 95-625). Under Section 502 and the 1980 funding agreement between the NJDEP, the Commission and the U.S. Department of the Interior (acting through the National Park Service), the Commission’s concurrence is needed before the NPS can approve the proposed land exchange.

Background

The pending proposal involves the exchange of approximately 269 acres of land owned by the County in Barnegat and Stafford Townships for approximately 192 acres of land owned by the NJDEP in Barnegat Township (hereafter, “the NJDEP Tract”). The County’s
general objective for the proposed land exchange is to expand its holdings around the historic Cedar Bridge Tavern Site in Barnegat Township. The NJDEP’s general objectives are to fill gaps in State ownership in Barnegat and Stafford Townships and create a larger contiguous parcel for administration as part of the State park system.

The NJDEP Tract was acquired by NJDEP from the New Jersey Conservation Foundation through the Green Acres program in April 1980 for $84,000 using 1974 Green Acres Bond funds and federal Pinelands preservation funds provided to the NJDEP under Section 502 of the “National Parks and Recreation Act of 1978” (Pub. L. 95-625). Once acquired, the NJDEP Tract was assigned to the NJDEP’s Division of Parks and Forestry for management as part of Bass River State Forest. There are no structures or developed recreational facilities on any portion of the NJDEP Tract.

Within the NJDEP Tract, approximately 156 acres of land are located within the Forest Area of the Pinelands (Block 51, Lot 4.01, and Block 52, Lot 6.05) and the remaining 36 acres are located within the Preservation Area of the Pinelands (Block 45, Lot 1) (as such areas are currently designated under the Pinelands Comprehensive Management Plan.) The parcels are zoned PA (Preservation Area) and PF (Preserved Forest Pinelands) by Barnegat Township.

Transfer of the NJDEP Tract to the County will enable the County to re-assemble most of the original Cedar Bridge Tavern historic site. Currently, the County owns the Tavern structure itself on a 5-acre parcel (Block 51 Lot 4.02), but not the surrounding acreage. The larger site will allow the Ocean County Parks Department to more fully educate the public about, and interpret the history of, the Cedar Bridge Tavern. For the past several years the County has received a special use permit from NJDEP for use of portions of Bass River State Fcrest, within the NJDEP Tract, adjacent to the Tavern. This permit has allowed for the use of 0.25-acre area for temporary parking, and has also authorized archaeological research and construction of interpretive walking trails. Transfer of the NJDEP Tract will allow the County to better serve the public and conduct stewardship activities on these properties. The County also plans to make the Cedar Bridge Tavern site a trail head for a regional trail network, while showcasing the history of the Pine Barrens. In addition, with a permanent presence at the Cedar Bridge Tavern site, the County will be able to more easily and regularly patrol the area that has been previously used as an illegal dump site and an illegal camp ground.

In May 2018, the NJDEP and the Ocean County conducted four public hearings on the proposed land exchange. The hearings were required under N.J.S.A. 13:1D-51 et seq. (known as the "Ogden Rooney" statute), N.J.S.A. 40A:12-1 (known as the Local Lands and Buildings Law) and N.J.S.A. 40A:12-15.4 (the statute authorizing the County to collect and expend open space taxes). The hearings were also intended to satisfy the
public hearing requirements for transfer of Green Acres encumbered properties by local government units (under N.J.S.A. 13:8C-34 and N.J.A.C. 7:36-25.5.) The Secretary of the State House Commission participated in one of the hearings as required by N.J.S.A. 52:31-1.1.

Prior to the hearings, as required by the Ogden Rooney statute and the Local Lands and Buildings Law, the NJDEP and the County prepared and released a report analyzing the proposed land exchange from an environmental, recreational and economic perspective. A copy of the report, its attachments, and transcripts of the two public hearings required by the Ogden Rooney statute may be found at:

https://www.state.nj.us/dep/greenacres/archive_hearings.html#2018 (scroll down to May 2018 entry).

After the required public hearings concluded with no adverse public comments being received, NJDEP Commissioner McCabe approved the proposed land exchange on August 30, 2018 and referred the proposal to the State House Commission. The State House Commission approved the proposed exchange on September 27, 2018. However, neither the NJDEP Commissioner nor the State House Commission have jurisdiction over the issue of whether the NJDEP Tract can be transferred to Ocean County under Section 502. We now seek the Pinelands Commission's concurrence in the proposed transfer so we can obtain final approval of the proposed transfer from the National Park Service.

Section 502 Requirements and Analysis

Section 11(a) of the 1980 funding agreement between NJDEP, the Commission and Interior/NPS provides in part:

(11) Retention and Use of Acquired Properties—It is the intention of Section 5C2 and of this agreement that acquisition funds mad available pursuant to Section 5C2 will be used to further the preservation, conservation, recreation and/or cultural objectives of the National Reserve and of the CMP. It is agreed that the National Reserve concept and the approved CMP may best be served by a program which utilizes acquisition funds in a creative and flexible manner, provided that the program is consistent with Section 502 and other applicable federal laws and the terms of this agreement.

(a) Changes in Use and Management—Properties acquired with Section 502 assistance shall be retained, used and managed in accord with the approved program of use and management. Proposed changes in such
program must serve the purpose of furthering preservation, conservation, recreation and/or cultural objectives of the Reserve.

It is agreed that the Interior Department shall allow changes in the use or management of properties so acquired if such proposed changes are in accord with the findings and recommendations of the CMP, Section 502 objectives, and the requirements of this agreement. Pinelands Commission concurrence in such proposed changes will be required prior to Interior Department consideration of such requests. Changes in use or management may entail a change in the ownership, provided that such change of ownership will not be in conflict with Section 502 objectives and as provided herein. [emphasis supplied]

The proposed land exchange between the NJDEP and Ocean County is an “apples to apples” swap of preserved lands in close proximity to each other, with the general objective of putting County properties on one side of the NJDEP/County ownership border and NJDEP properties on the other, thereby improving management of both sides. The Ogden Rooney report clearly stated the intention for all lands involved in the proposed exchange to remain preserved:

On both sides of the transaction, the lands proposed to be exchanged will remain as preserved open space after the exchange is completed. Any lands acquired by the NJDEP from the County will be preserved by statute (as replacement for lands originally purchased with Green Acres funds), and future conveyance of these lands will be governed by the Green Acres bond acts and the NJDEP property conveyance statute at N.J.S.A. 13:1D-51 through N.J.S.A. 13:1D-58. If the proposed land exchange is completed, the County has agreed to accept any lands acquired from the NJDEP with a deed clause limiting their future use to “recreation and conservation” purposes (as that term is defined in the Green Acres statutes and rules, including, but not limited to, N.J.A.C. 7:36-2.1.) Once acquired, these lands would then be listed on any future Recreation and Open Space Inventories (ROSIe) prepared by the County as part of future Green Acres funding applications.

While most attributes of the proposed exchange are substantially similar on both sides of the transaction, three issues that might bear upon the Commission’s review were noted in the Ogden Rooney report:
• Atlantic White Cedar: The proposed land exchange will cause a net increase in acreage of Atlantic white-cedar wetlands under State ownership by the NJDEP by NJDEP conveying approximately 16 acres of white-cedar wetlands and accepting ownership of 82 acres of white-cedar wetlands. The areas to be gained by the NJDEP have had active cedar management ongoing for at least 80 years. The younger portions of the cedar wetlands on the County Tract appear to be in good condition. The older portions require some attention to remain as cedar due to recent hardwood encroachment. Overall, this action would be beneficial in enhancing the NJDEP’s holdings of the Atlantic white-cedar resource, and would provide continuity with existing Atlantic white-cedar forest owned by the State.

• Forested Areas: The proposed land exchange would also result in a net increase in acres of non-cedar forest owned by the State. The State will give up 110 acres of non-cedar forest, while acquiring 182 acres.

• Historic and Cultural Resources: As part of the NJDEP’s internal review of the proposed land exchange, the State Historic Preservation Office determined that the continued use of the State lands to be conveyed to Ocean County for recreation and conservation purposes will not adversely affect any historic or archaeological resources. However, the SHPO is opposed to any kind of future development altering the viewshed of the adjacent Cedar Bridge Tavern, which is listed on the National Register of Historic Places. Since this structure is already owned by the County and is listed on the New Jersey Register of Historic Places, then any future alterations to it are already subject to New Jersey Register review by the SHPO under the application process at http://www.nj.gov/dep/hpo/2protection/njreview.htm. The SHPO has been involved with Ocean County’s restoration of the Cedar Bridge Tavern and understands that the proposed land exchange will also allow the County to address Pinelands environmental issues with their restoration work. Overall, the SHPO favors the proposed land exchange because the parcels that would be conveyed to the State are archaeologically sensitive.

Based on the above, we do not see the proposed land exchange as altering, in any meaningful way, the preservation status or future management of the lands involved on either side of the transaction. Therefore, it is our hope that, consistent with Section 11(a) of the 1980 Agreement, the Commission can find that the proposed change in ownership does not conflict with the objectives of Section 502 and/or the CMP.

It is my understanding that for this request to be considered by the full Commission, it must first undergo review by the Commission’s CMP Policy and Implementation
Committee, which is scheduled to meet next on September 27th. If any additional information is needed to place this matter on the Committee's agenda, please have your staff contact Judeth Yeany, Chief of our Bureau of Legal Services and Stewardship, at (609) 984-0500 or Judeth.Yeany@dep.nj.gov. We appreciate your assistance with this request.

Sincerely,

[Signature]

STATUTORY REFERENCES

For the State Lands:

Under L. 1993, c. 38, codified at N.J.S.A. 13:1D-51 through N.J.S.A. 13:1D-58, no lands acquired or developed by the State with Green Acres funds, or developed by the State in any other manner and administered by the New Jersey Department of Environmental Protection (“NJDEP”), may be conveyed unless the NJDEP first prepares a report on the proposed conveyance in accordance with N.J.S.A. 13:1D-52a(1), transmits the report to the individuals listed at N.J.S.A. 13:1D-52a(2), makes the report available to the public in accordance with N.J.S.A 13:1D-52a(3) and conducts one or more public hearings as required by N.J.S.A. 13:1D-52a(4). Public notice requirements for the hearings are specified at N.J.S.A. 13:1D-53 and –54. A summary and/or transcript of the public hearing(s) is provided to the NJDEP Commissioner, the State House Commission and the public under N.J.S.A. 13:1D-55. The methodology for valuing lands to be conveyed and the terms of such conveyances are governed by N.J.S.A. 13:1D-56.

Section 13 of L. 1993, c. 38 also amended N.J.S.A. 52:31-1.1 [Sale, conveyance of State's interest; terms; conditions; public hearing; proceeds] to require the State House Commission to conduct a public hearing at least 90 days in advance of determining the terms and conditions of any sale or conveyance for which the NJDEP is required to follow the public notice and hearing process at N.J.S.A. 13:1D-51 through N.J.S.A. 13:1D-58. In addition to any other applicable requirements of law, rule, or regulation concerning notice for its public hearings, the State House Commission is required to provide notice of the public hearing at least 30 days in advance of the date of the hearing in the same manner and according to the same procedures prescribed for the NJDEP pursuant to N.J.S.A. 13:1D-53 and -54. At its November 13, 2017 meeting, the State House Commission adopted a procedural resolution for the implementation of N.J.S.A. 52:31-1.1. The resolution provides that the State House Commission Secretary will represent the Commission at the second required NJDEP hearing, that the second hearing will be a joint NJDEP/State House Commission hearing, and that the joint NJDEP/State House Commission hearing is intended to satisfy the requirements of N.J.S.A. 52:31-1.1.¹

Once these procedural requirements have been met, the conveyance proposed in this report requires the approval of the NJDEP Commissioner and the State House Commission. N.J.S.A. 13:1D-55; N.J.S.A. 13:8A-48; N.J.S.A. 13:8C-1 et seq.

¹ A copy of the resolution adopted by the Commission may be found at: http://www.state.nj.us/treasury/statehouse-commission/pdf/9-20-2017update.pdf
For the County Lands:

Under N.J.S.A 40A:12-16, the governing body of any county by resolution may exchange any lands owned by the county for other lands or rights or interests therein desired for public use. The public notice and hearing requirements for such exchanges are specified at N.J.S.A. 40A:12-13.5.

Under N.J.S.A. 40A:12-15.4, lands acquired with county open space trust funds may be conveyed or transferred, subject to the requirements therein, including the requirement to conduct one public hearing.

The proposed conveyance of County land is also subject to the procedural requirements for transfers of Green Acres encumbered parkland at N.J.S.A. 13:8C-34 and N.J.S.A. 7:36-25.5.

**RATIONALE FOR CONVEYANCE**

The County of Ocean ("County") and the NJDEP propose to exchange approximately 269 acres of land owned by the County for approximately 192 acres of land owned by the NJDEP. As detailed below, the County’s general objective for the proposed land exchange is to expand its holdings around the historic Cedar Bridge Tavern Site in Barnegat Township. The NJDEP’s general objectives are to fill gaps in State ownership in Barnegat and Stafford Townships and create a larger contiguous parcel for administration as part of the State park system.

The specific parcels proposed to be exchanged are as follows:

<table>

A general location map of the properties proposed to be exchanged is attached as Figure 1. An aerial map of the properties proposed to be exchanged is attached as Figure 2.

On both sides of the transaction, the lands proposed to be exchanged will remain as preserved open space after the exchange is completed. Any lands acquired by the NJDEP from the County will be preserved by statute (as replacement for lands originally purchased with Green Acres funds), and future conveyance of these lands will be governed by the Green Acres bond acts and the NJDEP property conveyance statute at N.J.S.A. 13:1D-51 through N.J.S.A. 13:1D-58. If the proposed land exchange is completed, the County has agreed to accept any lands acquired from the NJDEP with a deed clause limiting their future use to “recreation and conservation” purposes (as that term is defined in the Green Acres statutes and rules, including, but not limited to, N.J.A.C. 7:36-2.1.) Once acquired, these lands would then be listed on any future Recreation and Open Space Inventories (ROSIs) prepared by the County as part of future Green Acres funding applications.

In addition, as required by N.J.S.A. 13:1D-56, the deed for the conveyance of the NJDEP Tract to the County will include statutory language requiring compensation to the State if the property is rezoned within 25 years of the purchase in a manner that increases the value of the lands.

Upon successful completion of the public hearing process, the proposed conveyance will require the approval of the NJDEP Commissioner and the State House Commission under N.J.S.A. 13:8A-48 and N.J.S.A. 13:8C-31. The NJDEP believes that the earliest it could obtain these approvals is September 2018.
**Description of the NJDEP Tract**

The NJDEP property proposed for conveyance to the County consists of 192.86+/- acres of vacant land located in Barnegat Township off both sides of Cedar Bridge Road (hereafter, the “NJDEP Tract”). This tract is comprised of three individual lots which form the north easterly limits of the Bass River State Forest. The lots are currently designated for tax purposes as Block 45, Lot 1, Block 51, Lot 4.01 and Block 52, Lot 6.05.

All three lots have paved or gravel road frontage, as follows:

- **Block 45, Lot 1**: Old Halfway Road and Yellow Dam Road (727 feet)
- **Block 51, Lot 4.01**: Old Cedar Bridge-Barnegat Road (2,280 feet)
- **Block 52, Lot 6.05**: Old Cedar Bridge-Barnegat Road (3,100 feet)

The NJDEP Tract was acquired from the New Jersey Conservation Foundation through the Green Acres program in April 1980 for $84,000 using 1974 Green Acres Bond funds and federal Pinelands preservation funds provided under Section 502 of the “National Parks and Recreation Act of 1978” (Pub. L. 95-625). Once acquired, the NJDEP Tract was assigned to the NJDEP’s Division of Parks and Forestry for management as part of Bass River State Forest. There are no structures or developed recreational facilities on any portion of the NJDEP Tract.

Within the NJDEP Tract, approximately 156 acres of land are located within the Forest Area of the Pinelands (Block 51, Lot 4.01, and Block 52, Lot 6.05) and the remaining 36 acres are located within the Preservation Area of the Pinelands (Block 45, Lot 1) (as such areas are designated under the Pinelands Comprehensive Management Plan.) The parcels are zoned PA (Preservation Area) and PF (Preserved Forest Pinelands) by Barnegat Township. The PA and PF zones are intended to preserve and protect the valuable resources of the Pinelands.²

The NJDEP Tract is made up of gently rolling contours, low-lying wetlands and stream corridors (associated with the Oswego River and Yellow Dam Branch) and some uplands. GIS aerial imagery of the NJDEP Tract illustrates that a Forest Area Wetlands buffer impacts a considerable ratio of the upland acreage. [Figure 4]

Block 45, Lot 1 borders an unnamed artificial lake. The parcel is approximately 2.98 acres. As indicated on Figure 4, this parcel is entirely uplands. The parcel is a mixed forest, more than 50% of which is deciduous.

As indicated on Figure 4, both the Oswego River and Yellow Dam Branch, which have surface water classifications of PL (the general surface water classification applied to Pinelands waters), run through the remainder of the NJDEP Tract (Block 51, Lot 4.01 and Block 52, Lot 6.05.) Both parcels contain wetlands complexes associated with the stream corridors.

Block 52, Lot 6.05 is 70.50 acres and contains an unnamed artificial lake. The parcel is a mixed forest, more than 50% of which is coniferous. This lot is heavily populated with pitch pine forest, deciduous wooded wetlands and Atlantic White Cedar stands. The front of the parcel has 1.59 acres of coniferous wooded wetlands and 1.25 acres of mixed wooded wetlands. The northern part

² Further information on the zoning designations may be found at:
of the parcel has small areas, less than one acre, of mixed scrub and shrub wetlands (mostly coniferous). Including the lake, this parcel is approximately 25-30% wetlands and another 25-30% Pinelands buffers.

Block 51, Lot 4.01 is 119.38 acres of mixed forest, more than 50% of which is deciduous. As indicated on Figure 4, the parcel is significantly wet, consisting of about 50-55% wetlands. The 300-foot regulatory buffers associated with those wetlands cover an additional 30% or more of the property. The wetlands on this parcel consist of the following: (1) a large 420-acre wetlands complex on the western edge of the property, consisting of approximately 24 acres of Atlantic White cedar wetlands, 10 acres of deciduous scrub/shrub wetlands and 8 acres of deciduous wooded wetlands; (2) approximately 10 acres of mixed wooded wetlands along the frontage of Old Cedar Bridge-Barnegat Road and (3) approximately 3 acres of mixed wooded wetlands at the back (southern edge) of this parcel. The three acres of mixed wooded wetland on the southern edge of the lot are part of a larger 28-acre wetlands complex that extends onto a portion of the adjacent County Tract (Block 51, Lot 10).

The three lots in the NJDEP Tract surround a five-acre County-owned property containing the historic Cedar Bridge Tavern (Block 50, Lot 9.) The circa 1816 Cedar Bridge Tavern of Barnegat, New Jersey is on both the New Jersey and National (8-7-2014) Registers of Historic Places. The County purchased the tavern in December 2007. Under contract, Historic Buildings Architects (HBA) of Trenton completed the successful nomination to the Registers and a comprehensive preservation plan for Cedar Bridge Tavern (dated January 14, 2013.) Under a separate contract, HBA is currently completing construction documents and permitting for the renovation of the structure.

**Description of the County Tract**

The County property proposed for conveyance to the NJDEP consists of 269.49+/- acres located in Barnegat and Stafford Townships (hereafter, the “County Tract.”) This tract is comprised of four individual lots: Block 50, Lots 5 and 9 in Barnegat Township; Block 51, Lot 10 in Barnegat Township and Block 2, Lot 6 in Stafford Township. The County Tract is known locally as the Wading River East Branch property.

Three of the four lots have paved or gravel road frontage, as follows:

- **Block 50, Lot 5**: Route 539 (3,317 feet)
- **Block 50, Lot 9**: No Road Frontage, off Yellow Dam Road
- **Block 51, Lot 10**: Route 539 (3,643 feet) Cedar Bridge-Warren Grove Road (1,531 feet)
- **Block 2, Lot 6**: Cedar Bridge-Warren Grove Road (747 feet) County Road 539 (335 feet)

The County Tract was purchased from Railroad Road, LLC, a private owner, in December 2014. The acquisition was made by the County through the Ocean County Natural Lands Trust Fund, a dedicated open space tax program. The purchase price for the County Tract was $1,250,000 and

---

3 Railroad Road, LLC is a corporate affiliate of Scarborough Properties, Railroad, LLC and Route 539, LLC.
the entire purchase was funded solely through the Natural Lands Trust Fund. There are no structures or developed recreational facilities on any portion of the County Tract.

Prior to acquiring the County Tract in 2014, the County forwarded the owner’s application and interest in sale of the property for review by the NJDEP. At that time, the NJDEP informed the County that it was interested in acquiring the property, but did not have funding available for the purchase. Based on the NJDEP’s expression of interest, the County pursued acquisition with the understanding that this property could be transferred to the NJDEP at a future date. This intention was memorialized in the authorization for acquisition by the Ocean County Board of Chosen Freeholders on June 14, 2014. [Appendix 2.]

Within the County Tract, approximately 164 acres of land are located within the Forest Area of the Pinelands (Block 51, Lot 10, and Block 2, Lot 6) and the remaining 105 acres are located within the Preservation Area of the Pinelands (Block 50, Lots 5 and 9) (as such areas are designated under the Pinelands Comprehensive Management Plan.) The parcels are zoned PA (Preservation Area) and PF (Preserved Forest Pinelands) by Barnegat Township and Stafford Township. The PA and PF zones are intended to preserve and protect the valuable resources of the Pinelands.4

The County Tract is made up of gently rolling contours, low-lying wetlands and stream corridors (associated with the Oswego River and Yellow Dam Branch) and some uplands.

As indicated on Figure 4, both the Oswego River and Yellow Dam Branch, which have surface water classifications of PL (the general surface water classification applied to Pinelands waters), run through portions of County Tract (Block 50, Lot 5 and Block 51, Lot 10.) Both parcels contain wetlands complexes associated with the stream corridors.

Block 50, Lot 5 in Barnegat Township is approximately 100.82 acres. As indicated on Figure 4, this parcel is approximately 80% wetlands, and another 10% pineland buffers. The wetland portion of this parcel is made up of mostly Atlantic White Cedar wetlands, with some mixed wooded wetlands. The upland portion of this parcel is coniferous forest. This parcel is surrounded on three sides by NJDEP property (Bass River State Forest). The northeast side of Block 50, Lot 5 is adjacent to Block 50, Lots 2 and 3, a privately-owned property being actively used by Eastern Concrete Materials, Inc. for sand mining. Although the tax map boundary between Block 50, Lot 5 and Block 50, Lots 2 and 3 appears to show the quarry operation encroaching on Block 50, Lot 5, the survey prepared for the County as part of the proposed land exchange shows that there is no encroachment. [Figure 5]

Block 50, Lot 9 in Barnegat Township is 5.14 acres. The parcel is a made up of coniferous forest, coniferous wooded wetlands, and deciduous wooded wetlands. As indicated on Figure 4, this parcel is almost 100% wetlands. According to mapping on file with the NJDEP, this parcel is part of a larger 257-acre tract of potential vernal habitat area, with possibly 10 current vernal pool locations.5 This parcel is an isolated inholding in Bass River State Forest and is completely surrounded by property owned by the NJDEP. This parcel does not have frontage on a paved or gravel road.

---

4 Further information on the zoning designations may be found at: http://clerkshq.com/default.ashx?clientsite=Barnegat-nj
5 http://www.nj.gov/dep/gis/geowebsplash.htm
Block 51, Lot 10 in Barnegat Township is approximately 147.91 acres. As indicated on Figure 4, the parcel is 15% wetlands and another 10 to 20% Pineland buffers. The wetlands are mostly made up of Atlantic White Cedar wetlands. The upland portion of this parcel consists of coniferous forest to the north and to the west, and deciduous forest to the south and to the east. This parcel is located to the southwest of the NJDEP Tract. Due to the presence of an area of questionable title between the County Tract and the NJDEP Tract, Block 51, Lot 10 is adjacent to, but not touching, a portion of the NJDEP Tract (Block 51, Lot 4.01), other NJDEP property (Block 51, Lot 3 in Barnegat Township) to the northern and the northeastern edges of the parcel. To the southwest, Block 51, Lot 10 is bordered by several privately-owned lots and another NJDEP parcel (Block 3, Lot 11 in Stafford Township.) To the west and the south, Block 51, Lot 10 borders other lots within the County Tract.

Block 2, Lot 6 in Stafford Township is approximately 15.62 acres of mixed forest, more than 50% of which is deciduous. As indicated on Figure 4, the parcel is less than 5% wetlands and another 10% wetlands buffers. The wetlands on this parcel consist of less than one acre of mixed coniferous wooded wetlands. This parcel is contiguous to Block 51, Lot 10 in Barnegat Township and is surrounded on three sides by either the remainder of the County Tract or land owned by the NJDEP.

A detailed description of the County Tract may be found in the appraisals included in this report as Appendices 4 and 5.

ADVANTAGES AND DISADVANTAGES

For the NJDEP:

In exchange for the conveyance of the NJDEP Tract, which is not a contiguous part of Bass River State Forest, the NJDEP will acquire 269.49 acres currently owned by Ocean County. The proposed land exchange would fill gaps in State ownership and create a larger, contiguous parcel for management purposes, as well as consolidate passive recreational activities in that area of Bass River State Forest. The NJDEP Tract will remain permanently preserved for recreation and conservation purposes. The acreage being acquired by the NJDEP, adjacent to Bass River State Forest, will be more manageable for the State Division of Parks and Forestry than the area proposed to be transferred to the County.

In the past, the County has reported instances of illegal camping and illegal dumping in this area to the NJDEP. With a permanent presence at the Cedar Bridge Tavern site, the County will be able to more easily and regularly patrol this area, allowing the NJDEP to focus its limited enforcement resources on other portions of Bass River State Forest.
For the County:

Transfer of the NJDEP Tract to the County will enable the County to re-assemble most of the original Cedar Bridge Tavern Site. The larger site will allow the Ocean County Parks Department to more fully educate, interpret, and the history of the Cedar Bridge Tavern.

The Cedar Bridge Tavern is a historic treasure that offers a unique window into the European experience in the New Jersey Pinelands. From about 1740, a saw mill existed on the nearby branch of the Wading River and the town grew around the intersection of a major east/west thoroughfare and a southern route to reach Egg Harbor and Tuckerton. Eventually, two taverns in this hamlet served the travelers, hunters and rural region. Historic maps from about 1750 show Pettit’s or Cedar Bridge as a named place on state and wider regional maps. A rich collection of traveler and academic references speak to the importance of this long-overlooked community.

On December 27, 1782, forces for the new republic led by Captains Richard Shreve and Edward Thomas were informed that notorious Loyalist John Bacon was in the vicinity of the tavern. They engaged Bacon and his Loyalist bandits (known now as "Refugees") at Cedar Bridge. A brief exchange of gunfire took place, and Bacon and his men were able to escape. One Patriot was killed, and four were wounded. Four Loyalists were also wounded, including Bacon. A ceremony commemorating this last documented land engagement of the American Revolution is held on the site each year on the Sunday closest to December 27.

For the past several years the County has received a special use permit with NJDEP for use of portions of Bass River State Forest, the NJDEP Tract, adjacent to the Tavern. This permit has allowed for the use of 0.25-acre area for temporary parking, and has also authorized archaeological research and construction of interpretive walking trails. Transfer of the NJDEP Tract will allow the County to better serve the public and the stewardship of these properties. The County also plans to make the Cedar Bridge Tavern site a trail head for a regional trail network, while showcasing the history of the Pine Barrens.

With a permanent presence at the Cedar Bridge Tavern site, the County will be able to more easily and regularly patrol the area that has been previously used as an illegal dump site and an illegal camp ground. There are no known disadvantages to this transfer from the County’s perspective.
Assessment of Environmental Impact and Impact on Plants and Endangered and Non-Game Species

Due to their close proximity and shared boundary between the two Tracts, the environmental assessment contained herein pertains to both sides of this proposed transaction.

The proposed land exchange has undergone an internal review by the affected programs within the Department’s Natural and Historic Resource Group, including the Nongame and Endangered Species Program, the State Historic Preservation Office (“SHPO”), the State Forest Service, the State Forest Fire Service and the Office of Natural Lands Management. This review did not raise any objections to the proposal.

The NJDEP is not aware of any specific reported sightings of threatened or endangered plant or animal species on the properties proposed for conveyance by the NJDEP to the County. However, the NJDEP’s GeoWeb mapping indicates that there is a potential for multiple threatened and endangered species to exist on these parcels, specifically flora and fauna. [Figure 3] Much of the land lies proximate to Natural Heritage Priority Sites and Historic Sites, such as the West Plains Fireshed Macrosite, the Little Plains, and the East Plains Fireshed Macrosite. These parcels may also contain globally imperiled rare plants and animals, including Barred Owl, Cooper’s Hawk, Timber Rattle Snake, Pine Barrens Treefrog, Northern Pine Snake, Brown Thrasher, Fowler's Toad, and Carpenter’s Frog.

According to the NJDEP’s GeoWeb mapping, the County Tract may contain several threatened and endangered species, including timber rattlesnke, northern pine snake, Pine Barrens tree frog, and barred owl.

The proposed land exchange will cause a net increase in acreage of Atlantic white-cedar wetlands under State ownership by the NJDEP conveying approximately 16 acres of white-cedar wetlands and accepting ownership of 82 acres of white-cedar wetlands. The areas gained by the NJDEP have had active cedar management ongoing for at least 80 years. The younger portions of the cedar wetlands on the County Tract appear to be in good condition. The older portions require some attention to persist as cedar due to recent hardwood encroachment.

The proposed land exchange would also result in a net increase in acres of non-cedar forest owned by the State. The State will give up 110 acres of non-cedar forest, while acquiring 182 acres. Overall, this action would be beneficial in enhancing the NJDEP's holdings of the Atlantic white-cedar resource, and would provide continuity with existing Atlantic white-cedar forest owned by the State.

As part of the NJDEP’s internal review of the proposed land exchange, the SHPO determined that the continued use of the State lands to be conveyed to Ocean County for recreation and conservation purposes will not adversely affect any historic or archeological resources. However, the SHPO is opposed to any kind of future development altering the viewseshd of the adjacent Cedar Bridge Tavern, which is listed on the National Register of Historic Places. Since this structure is already owned by the County and is listed on the New Jersey Register of Historic
Places, then any future alterations to it are already subject to New Jersey Register review by the SHPO under the application process at http://www.nj.gov/dep/hpo/2protection/njrrevew.htm.

The SHPO has been involved with Ocean County’s restoration of the Cedar Bridge Tavern and understands that the proposed land exchange will also allow the County to address Pinelands environmental issues with their restoration work. Overall, the SHPO favors the proposed land exchange because the parcels that would be conveyed to the State are archaeologically sensitive.

**Assessment of Recreational Impact**

The NJDEP does not anticipate that the proposed land exchange will have a negative recreational impact on either side of this transaction. As noted above, there are no recreational facilities on either the NJDEP Tract or the County Tract. All the properties involved in the proposed land exchange will remain permanently preserved for recreation and conservation purposes, will continue to be managed as parkland, and will remain available for public access and use.

Transfer of the NJDEP Tract to the County is expected to improve the recreational use of this area, both through interpretive programming to be offered at the re-assembled Cedar Bridge Tavern site and through the County’s plans to improve the trail network in this area.

**ECONOMIC ASSESSMENT**

Under N.J.S.A. 13:1D-56a, any NJDEP property of more than one acre that is proposed to be conveyed in fee (for any purpose), must be valued as follows:

a. For the purpose of determining the amount of consideration to be paid or transferred to the State in exchange for conveying lands acquired or developed by the State with Green Acres funds, or acquired or developed by the State in any other manner and administered by the department, the value of such lands shall be based upon their intended use upon conveyance or upon their highest and best use, whichever shall provide to the State the greatest value in return. [emphasis supplied]

Ocean County commissioned two appraisals for each tract, using appraisers from the NJDEP’s Green Acres Program’s list of approved appraisers and a scope of appraisal reviewed and approved by the NJDEP. The appraisals, which were completed in August 2017, are attached as Appendices 4 and 5. The appraisals were then reviewed by the NJDEP’s Green Acres Program. Based on that review, the NJDEP’s review appraisers certified the market value for each property. [Appendix 3.]

Although the County has agreed to accept title to the NJDEP Tract with a deed clause limiting future use of the property to “recreation and conservation purposes,” both appraisers valued both the NJDEP Tract and the County Tract as unrestricted properties.
**Valuation of NJDEP Tract**

The NJDEP Tract was purchased in April 1980 from the New Jersey Conservation Foundation for $84,000. The NJDEP Tract has a certified market value of $972,000 (or $5062 per acre) as of August 2017. The basis for this determination is set forth in the Appraisal Review Memo at Appendix 3.

**Valuation of County Tract**

The County Tract was purchased in December 2014 from Railroad LLC for $1,250,000. The County Tract has a certified market value of $1,272,000 (or $4729 per acre) as of August 2017. The basis for this determination is set forth in the Appraisal Review Memo at Appendix 3.

**Analysis**

The NJDEP review appraiser has reviewed and certified the values above and has determined that the proposed exchange is an equitable one for the State of New Jersey. While the market values associated with the proposed conveyance favor the NJDEP, the overall benefit to the County is substantial and equitable for the citizens of Ocean County.

As discussed above, on both sides of the transaction, the lands proposed to be exchanged will remain as preserved open space after the exchange is completed. Any lands acquired by the NJDEP from the County will be preserved by statute (as replacement for lands originally purchased with Green Acres funds), and future conveyance of these lands will be governed by the Green Acres bond acts and the NJDEP property conveyance statute at N.J.S.A. 13:1D-51 through N.J.S.A. 13:1D-58. If the proposed land exchange is completed, the County has agreed to accept any lands acquired from the NJDEP with a deed clause limiting their future use to “recreation and conservation” purposes (as that term is defined in the Green Acres statutes and rules, including, but not limited to, N.J.A.C. 7:36-2.1.) Once acquired, these lands would then be listed on any future Recreation and Open Space Inventories (ROSIs) prepared by the County as part of future Green Acres funding applications.

In addition, under N.J.S.A. 13:1D-56, the NJDEP is required to include in the deed for the conveyance of the NJDEP Tract to the County statutory language requiring compensation to the State if the property is rezoned within 25 years of the purchase in a manner that increases the value of the lands.

Based on the above, the NJDEP and the County believe the proposed land exchange represents an equitable transaction for the public from an economic perspective. Although the overall fair market value of the County Tract is higher than the NJDEP Tract, the per acre values of the properties are comparable. The County has elected to transfer more land to the NJDEP than it is receiving in order to achieve both its objectives for future management of the Cedar Bridge Tavern site and the NJDEP’s management objectives for Bass River State Forest. Since all lands involved in the proposed land exchange with remain preserved and open to all State residents, none of the real estate value involved in this transaction is being transferred for a private benefit.

PUBLIC HEARINGS

In accordance with N.J.S.A. 13:1D-52a(4), N.J.S.A. 52:31-1.1 and N.J.S.A 40A:12-16, public hearings on the proposed conveyances are scheduled as follows:

A public hearing on the **proposed conveyance of the County Tract** will be held:

**May 16, 2018 at 4:00 PM**

Stafford Township Historical Society, Old Baptist Church
120 N. Route 9
Manahawkin, NJ 08050
(609) 597-2237

A public hearing on **the proposed conveyance of both the NJDEP Tract and County Tract** will be held:

**May 16, 2018 at 7:00 PM**

Cloverdale County Park, Education Center
34 Cloverdale Road
Barnegat, NJ 08005
(609) 607-1861

[NOTE: The first May 16, 2018 public hearing will be conducted by the County in accordance with N.J.S.A 40A:12-16, but NJDEP representatives will be present to answer questions about the proposed land exchange. The second May 16, 2018 public hearing will be conducted jointly by the NJDEP and the County in compliance with the requirements of N.J.S.A. 13:1D-52a(4) (as to the NJDEP) and N.J.S.A 40A:12-16 (as to the County.)]

A public hearing on the **proposed conveyance of the County Tract** will be held:

**May 30, 2018 at 4:00 PM**

Cattus Island County Park
Cooper Environmental Center
1170 Cattus Island Blvd
Toms River, NJ 08753

[NOTE: The May 30, 2018 public hearing will be conducted by the County in accordance with N.J.S.A 40A:12-16, but NJDEP representatives will be present to answer questions about the proposed land exchange.]
A public hearing on the **proposed conveyance of the NJDEP Tract** will be held:

**May 31, 2018 at 3:30 PM**

New Jersey Department of Environmental Protection  
501 East State Street  
4th Floor Large Conference Room  
Trenton, NJ 08625  
(609) 984-0500

[NOTE: The May 31, 2018 public hearing will be conducted jointly by the NJDEP and the State House Commission in compliance with the requirements of N.J.S.A. 13:1D-52a(4) (as to the NJDEP) and N.J.S.A. 52:31-1.1 (as to the State House Commission.) Representatives of the County will be present to answer questions about the proposed land exchange.]

Please refer to the Public Hearing Notices, Appendix 1, for information about submitting written public comments on the proposed conveyances.
