New Jersey Smart Growth Planning and Program Resources

Technical and Financial Assistance

This document contains a variety of grant, loan and technical assistance programs that are relevant to planning and infrastructure support in New Jersey. The format is designed to assist communities with preparing a Planning and Implementation Agenda (PIA) (See Appendix 1) as part of a petition for Plan Endorsement by the New Jersey State Planning Commission. However, anyone involved in the field of planning should find this document useful. Seven categories have been created to group related programs as shown below. An eighth category - Other Funding Sources - has also been included to provide links to the Internet.

<i>Categories</i>	<i>Page</i>
Brownfields	2
Economic Development	6
Farming and Agriculture	24
Housing	26
Land Use & Environmental Protection	43
Parks, Recreation & Historic Resources	56
Transportation	62
Additional Funding Sources	68

Information is provided to enable you to contact the programs directly to seek application forms and to inquire further about funding availability, deadlines and overall eligibility requirements. Each program is also characterized as either a “planning” (assistance with the plan preparation process) or an “implementation” (funding for the bricks and mortar) program. Additionally, this information will be used to identify those programs that have the potential to be included within a “Priority for Plan Endorsement” package for those communities pursuing Plan Endorsement. Please note that legislative, regulatory, or policy modifications may be required in order for these programs to receive Plan Endorsement Priority.

This report is also available on our web site at www.njsmartgrowth.com, under Publications. If you have any questions on the Planning Resources database, please feel free to contact Paul M. Drake, PP/AICP, State Planning Unit Manger at 609-292-3730.

Please Note: Programs in this publication are subject to particular programmatic requirements, appropriation by State and Federal statutes and general availability of funds. Some programs provide funds based on formula criteria while others are competitive in nature. Some have funds available periodically, depending on appropriations and release of Federal funding. Please contact the appropriate office to obtain details regarding current availability of funds.

Brownfields redevelopment is a strategic driver for Smart Growth throughout the state. The Department of Community Affairs (DCA) Brownfields Program facilitates brownfields redevelopment, promoting coordination among state agencies and maximizing the impact of state brownfields resources and providing a forum for state brownfields policy. This is where the planning, the regulatory programs, the financial and technical support, the infrastructure for redevelopment, and other state incentives come together to work with brownfields project managers, municipalities and counties to implement the best possible redevelopment as quickly as possible.

The Brownfields Redevelopment Task Force, the NJ Brownfields Redevelopment Interagency Team (BRIT) and the state's brownfields inventory (SiteMart and C-MAP programs) are managed through this office.

Individual Development Accounts (IDAs) are matched savings accounts designed to help low-income and low-wealth families accumulate a few thousand dollars for high return investments in education, homeownership and small business ownership. IDA account holders save regularly from earned income, usually over a one to three year period. Their savings are matched by public or private funds. State and local governments, financial institutions, foundations, churches, and private donors fund the matches to the personal savings of account holders, usually at a rate ranging from \$1: to \$4 for each dollar saved. Local organizations counsel and monitor participants, provide money management and financial skills building and training in how to acquire assets. They also control match funds and authorize the withdrawal of money.

Main Street is a comprehensive revitalization program that promotes the historic and economic redevelopment of traditional business districts in New Jersey.

The Main Street New Jersey Program was established in 1989 to encourage and support the revitalization of downtowns throughout the state. Every two years the New Jersey Department of Community Affairs accepts applications and designates selected communities to join the program. These communities receive valuable technical support and training to assist in restoring their Main Streets as centers of community and economic activity.

HMFA's Market Oriented Neighborhood Investment (MONI) program was designed to encourage economic diversity by helping developers and non-profit housing sponsors construct housing that contains a mix of market-rate, moderate-income and low-income units. Geared toward home ownership, MONI will help stabilize targeted neighborhoods and stimulate economic growth. The program is not limited to the development of large tracts of land. Building in-fill housing and rehabilitating abandoned, vacant structures are encouraged to further revitalization efforts. By focusing on well-planned development, MONI will be instrumental in keeping New Jersey's cities and towns vibrant well into the future.

The Neighborhood Revitalization Tax Credit Program's mission is to foster the revitalization of New Jersey's low and moderate-income neighborhoods through comprehensive strategies driven by residents and other public and private stakeholders within the neighborhood; specifically. The NRTC Program offers business entities a fifty percent (50%) tax credit against various New Jersey state taxes. Credits are provided to business entities that invest in the revitalization of low and moderate-income neighborhoods in eligible cities. A total of \$10 million per year is available in tax credits, generating a total neighborhood revitalization investment of \$20 million.
