New Jersey Bicycle Map & Resource Guide

Using the Map

This Map and Resource Guide provides a wealth of information and resources for bicycle travelers. The information is based on traffic volumes, traffic speeds, outside conditions, and other factors. The suitability measures are geared to an average or typical bicycle. They are intended to provide guidance on the level of comfort and smoothness of the road surface for a typical bicycle. A 10-point scale is used for bicycle and motor vehicle use. The suitability measures are based on traffic volumes, traffic speeds, outside conditions, and other factors. The suitability measures are geared to an average or typical bicycle. They are intended to provide guidance on the level of comfort and smoothness of the road surface for a typical bicycle. A 10-point scale is used for bicycle and motor vehicle use.

NJDOT’s Construction Updates webpage provides the most current information on trails, contact www.njdot.state.nj.us for more information.
