The agency proposal follows:

Summary
N.J.A.C. 17:16-23 permits the Director to invest the monies of any eligible fund in bank loans. The heading of the subchapter is proposed to be amended from “Bank Loans” to “Global Diversified Credit Investments” to more accurately describe the contents of the subchapter after incorporation of the proposed amendments. Accordingly, the proposed amendments to N.J.A.C. 17:16-23.2(a)(2), 23.2(d), and 23.4(a) include revision of the term bank loan in these provisions to the broader proposed category of global diversified credit investments.

The proposed amendments include the addition of definitions to N.J.A.C. 17:16-23.1 for credit structured products, global diversified credit investments, mezzanine debt, mortgage-backed securities, and whole loans which are proposed to be added as permissible investments in N.J.A.C. 17:16-23.2.

N.J.A.C. 17:16-23.2(a)(1) requires that all bank loans must be payable as to both principal and interest in United States dollars. This requirement is proposed to be deleted to allow for investment in international bank loans denominated in foreign currency to provide for expanded investment opportunities and the opportunity for increased risk-adjusted returns.

Proposed N.J.A.C. 17:16-23.2(a)(2) will provide that the separate accounts, funds-of-funds, commingled funds, co-investments, and joint ventures, that primarily invest in global diversified credit investments, must primarily consist of investment grade securities at the time of purchase or commitment. N.J.A.C. 17:16-23.2(b), as proposed for amendment, will provide for investment in high yield global diversified credit investments. The requirement that investment in separate accounts, funds-of-funds, commingled funds, co-investments, and joint ventures are subject to the further provisions contained in N.J.A.C. 17:16-63 is recodified from N.J.A.C. 17:16-23.2(a)2 to N.J.A.C. 17:16-23.2(a)2ii.

N.J.A.C. 17:16-23.2(b) provides that up to five percent of the combined assets of all of the Pension and Annuity Funds may be invested in corporate obligations, international corporate obligations, collateralized notes and mortgages, bank loans, non-convertible preferred stock, and mortgage-backed pass-through securities that do not meet the minimum credit ratings set forth in N.J.A.C. 17:16-12.2, 16.2, 19.2, 23.2, 40.2, and 58.2, respectively. The proposed amendment to N.J.A.C. 17:16-23.2(b), concurrent with the proposed amendments to the other subchapters published elsewhere in this issue of the New Jersey Register, will raise the five percent cap to eight percent and expand the high yield category to include global diversified credit investments to provide the
opportunity for increased risk-adjusted returns. The proposed amendment also clarifies that corporate obligations means corporate obligations of U.S. based corporations.

Proposed N.J.A.C. 17:16-23.2(e) will provide that the Director may exercise the rights or conversion privileges of any security acquired under the subchapter and retain any distribution received as a result of a corporate action, even if the distribution does not meet the requirements of the subchapter.

Proposed N.J.A.C. 17:16-23.2(e) will provide that nothing in the subchapter shall preclude the Director from investing the moneys of any eligible fund in individual collateralized notes and mortgages pursuant to N.J.A.C. 17:16-19 and individual mortgage-backed senior debt securities pursuant to N.J.A.C. 17:16-58.

The proposed amendment to N.J.A.C. 17:16-23.3 will delete Common Pension Fund E as an eligible fund so that all global diversified credit investments are made through Common Pension Fund B.

N.J.A.C. 17:16-23.4(a)1 provides that not more than 10 percent of the market value of the assets of any eligible fund shall be invested in bank loans. The proposed amendment will provide that not more than seven percent of the market value of the combined assets of all of the Pension and Annuity Funds shall be invested in global diversified credit investments to provide the opportunity for increased risk-adjusted returns and state the limitation in a manner which is consistent with the asset allocation plan.

Because the Division is providing a 60-day comment period on this notice of proposal, this notice is exempted from the rulemaking calendar requirement pursuant to N.J.A.C. 1:30-3.3(a)5.

Social Impact
The proposed amendments shall have a positive social impact because the opportunity for increased overall risk-adjusted returns for the State-administered funds will benefit the funds’ beneficiaries and will lessen the long-term burden on the State’s taxpayers.

Economic Impact
The proposed amendments shall have a positive economic impact by providing an opportunity for increased risk-adjusted returns of the State-administered funds.

Federal Standards Statement
A Federal standards analysis is not required because the investment policy rules of the State Investment Council are not subject to any Federal requirements or standards.

Jobs Impact
The State Investment Council and the Division of Investment do not anticipate that any jobs will be generated or lost by virtue of the proposed amendments.

Agriculture Industry Impact
The proposed amendments will have no impact on the agriculture industry.

Regulatory Flexibility Statement
A regulatory flexibility analysis is not required since the proposed amendments will have no effect on small businesses as the term is defined in the Regulatory Flexibility Act, N.J.S.A. 52:14B-16 et seq., but regulate only the Director of the Division of Investment.

Housing Affordability Impact Analysis
The proposed amendments will have no impact on the affordability of housing in the State of New Jersey. The proposed amendments will expand permissible global diversified credit investments thereby providing an opportunity for increased risk-adjusted returns of the State-administered funds.

Smart Growth Development Impact Analysis
The proposed amendments are not anticipated to have an impact on the availability of affordable housing or housing production within Planning Areas 1 or 2, or within designated centers, under the State Development and Redevelopment Plan in New Jersey. The proposed amendments will expand permissible global diversified credit investments thereby providing an opportunity for increased risk-adjusted returns of the State-administered funds.

The proposed amendment to N.J.A.C. 17:16-40.2(c) also clarifies that corporate obligations means corporate obligations of U.S. based corporations.

N.J.A.C. 17:16-40.2(b) provides that up to five percent of the combined assets of all of the Pension and Annuity Funds may be invested in corporate obligations, international corporate obligations, collateralized notes and mortgages, bank loans, non-convertible preferred stock, and mortgage backed pass-through securities that do not meet the minimum credit ratings set forth in N.J.A.C. 17:16-12.2, 16.2, 19.2, 23.2, 40.2, and 58.2, respectively. Agriculture Industry Impact

The proposed amendments will have no impact on the agriculture industry.

Housing Affordability Impact Analysis

The proposed amendments will modify investment in non-convertible preferred stocks of U.S. corporations thereby providing an opportunity for increased risk-adjusted returns of the State-administered funds.

Smart Growth Development Impact Analysis

The proposed amendments are not anticipated to have an impact on the availability of affordable housing or housing production within Planning Areas 1 or 2, or within designated centers, under the State Development and Redevelopment Plan in New Jersey.
