## 1. Purpose

This Quick Reference Guide (QRG) provides step-by-step instructions on how to register your company as a vendor in NJSTART. After that, your company's Seller Administrator will be able to establish and maintain user access to NJSTART for additional employees of your company.

Registration is required only once. Reading through this guide before you start will help you identify and gather the information you will need.

If you have any questions on what a field means, click on the **question mark icon**  on the top right-hand corner of your screen. A new tab will open in your browser containing the online Help Manual for the Seller and Seller Administrator roles.

Quick Reference Guides for managing your NJSTART vendor portal profile, and many other topics, can be found at the New Jersey Division of Purchase and Property **Vendor Support Page** at <http://www.nj.gov/treasury/purchase/njstart/vendor.shtml>.

If you have questions regarding this registration process, you may contact a New Jersey State Vendor Administrator at (609) 341-3500 or email [njstart@treas.nj.gov](mailto:njstart@treas.nj.gov).

## 2. NJSTART 24/7 Availability

You can access your NJSTART vendor profile whenever you like, 24/7, to begin the registration process, create and set up quotes, complete and attach forms, conduct searches, and update non-financial categories and certifications.

### 2.1 Certain NJSTART Functions Only Available During Weekday Hours

Certain NJSTART functions require validation through the New Jersey Comprehensive Financial System (NJCFIS). NJCFIS is only available each weekday from **7:00 AM** until **7:00 PM** and is unavailable when conducting regular batch processing during evenings and weekends. As a result, the following NJSTART functionality is limited to weekday hours due to the need for NJCFIS validation:

- Completing your registration, as described in Section 4.4 of this guide;
- Entering or editing mandatory Office of Management and Budget categories, as described in Section 5.4;
- Adding or editing an address, as described in Section 5.3; and
- Processing purchase orders.

### 2.2 What Happens If You Try To Use These Functions on Evenings or Weekends

Attempting to use any of the functions listed in Section 2.1 above will not harm your profile in any way; however, you will receive the following red system error messages:

```
System Error(s)
• com.periscope.service.ServiceException: Unexpected error processing vendor message: BrokerError Interface: NEWJERSEY
• java.lang.RuntimeException: com.periscope.service.ServiceException: Unexpected error processing vendor message: BrokerError...
```

The failed transactions will not be processed and NJSTART will not automatically try to send the transaction again the next day when NJCFS comes back online. Simply close NJSTART and log in again during weekday hours to automatically clear the error messages.

### 3. Why Every Vendor Should Register in NJSTART

Registering with NJSTART has several benefits. In order to receive notifications about bid opportunities, receive contract awards, or to be issued purchase orders through NJSTART, you must be registered in the new system – even if you have previously done business with the State of New Jersey.

Registering your company in NJSTART allows you to specify information about the goods or services offered by your company to facilitate search results and assist in other aspects of the procurement process. You will be required to select one or more of your employees as Seller Administrators during the vendor registration process. Seller administrators maintain your company's information in NJSTART.

Below are some of the many benefits that vendors will enjoy by registering in NJSTART:

- Review all bids, solicitations, and awarded contracts online;
- Receive direct notifications about opportunities to offer goods and/or services;
- View screens to select appropriate business categories to ensure proper payment;
- See snapshots of the certifications needed for a vendor to do business with the State;
- Vendor profiles, including registered commodities and services, will be accessible by all State procurement staff;
- Registered vendors are searchable by specific categories to assist with procurement functions such as bid notification and quote solicitation;
- Registered vendors are also searchable by certain categories to facilitate networking and subcontracting for business opportunities based on factors such as goods and/or services offered, small/minority/women/veteran-owned business status, and location, which will become particularly useful in the future for cooperative purchasing.

### 4. How to Begin Registering Your Company in NJSTART

## 5. Complete Your Registration and Set Up Your NJSTART Vendor Profile

The remainder of this guide provides instructions on how to complete your NJSTART registration and set up your Vendor Profile.

### 5.1 Complete the Company Information Tab

If not already selected, click on the Company Information tab. Some information will be populated using information you supplied during pre-registration. The information you enter on this tab establishes your identity and contact information in NJSTART.

Before proceeding, make sure that each of these items has been entered accurately. Companies located in New Jersey are encouraged to enter their county information in the optional field. It will be important for you to keep all of your Vendor profile information up-to-date whenever there are changes.

### 5.1.1 Enter Your Company Name or Names

Your company name must be entered correctly so that your NJSTART records can be found by using the vendor search tools. In addition, your entry in the **Vendor Legal Name** field must exactly match the *Taxpayer Name* on your State of New Jersey Business Registration Certificate, before you can be awarded a contract, issued a purchase order, or receive payments.

The following example indicates which values from your BRC should be entered in the fields provided on the Company Information tab. If you did not register a trade name, then enter your BRC taxpayer name in both fields.

Click **Add Another Address** and the following screen appears. Complete the required information.

The Address Type dropdown allows you to designate an address as: Bid Mailing Address, Emergency Mailing Address, Purchase Order Mailing Address, Remit Address, or Sales Address.

**Note:** Address Line 1 has a limit of 25 characters, including spaces.

#### 5.3.2 Creating an EFT-enabled Remit Address

If your company wishes to receive electronic payments from the State of New Jersey for processed invoices, you must provide EFT-related information corresponding to a Remit Address. You may also create multiple EFT-enabled Remit addresses for separate bank accounts. Receiving payments electronically is the preferred option. It is faster, more convenient and easy to set up.

**Note:** This is a two-step process. After completing your registration, you must log in again before you can set up the address to receive payments by electronic funds transfer (EFT). Skip this step for now and complete all of the remaining steps in the guide that are required for registering in NJSTART and building your vendor profile. Then log back in to resume EFT setup by completing the additional remit address fields shown below.

When you are ready to set up an EFT-enabled remit address, click on the **Address** tab.

Click on the **Remit Address** to which you would like to add your banking information . Then scroll down to the **EFT Enabled?** box and check it. Complete ALL required fields (marked with an asterisk\*), then click **Save and Continue** or **Save and Exit**.

*NOTE: The IAT (International ACH Transactions) Flag checkbox should be checked ONLY if the financial institution receiving your electronic funds payment is a foreign bank or is acting as an agent of a foreign bank on your behalf.*

In addition to completing the fields shown above for an EFT-enabled address, you must navigate to the Terms & Categories section and ensure that the first box is selected in the Vendor Category Electronic Funds Transfer Certification to receive electronic payments (see Section 5.4.4 of this guide).

You may continue adding addresses by clicking **Save and Add Another**. Once you are finished adding addresses, you may continue registration by clicking **Save and Continue Registration**.

### 5.4 Complete OMB Categories and Certifications

*Vendor Categories* capture specific information that must be completed by you as a Seller Administrator.

The first five categories on this tab relate to information collected on behalf of the Office of Management and Budget (OMB) for payment processing purposes. These categories must be completed to ensure timely and proper payment for your goods and service.

While still in the Register view, select the **Categories and Certifications** tab, indicated in red.

*NOTE: Filling in values for the four mandatory categories presented in this section is required to complete vendor registration in NJSTART. You will not be able to conduct business using NJSTART until your registration is complete and your profile is set up.*

*Entering or editing values for the four mandatory OMB categories can be completed only during weekday hours (7:00 AM – 7:00 PM). These categories are described in Sections 5.4.1, 5.4.3, 5.4.4 & 5.4.5 beginning on the next page. Please refer to Section 2.0 for additional information.*

### 5.5 Commodity/Service Codes Tab

When State procurement specialists are searching NJSTART for potential suppliers of goods and services they will filter their search results using the National Institute of Government Purchasing (NIGP) commodity code catalog. Your company will only appear in the results of these searches if your NJSTART vendor profile lists the NIGP code for all of the goods and services being sought. It is in your best interest to ensure that each of the applicable NIGP codes are added to your profile using the instructions provided in this section.

To complete registration, you must select at least one code applicable to your organization.

If you are familiar with the NIGP code, you may use the drop-down links for the NIGP Class and NIGP Class Item to select the code(s). If you are not familiar with the NIGP code or cannot find the code(s) that apply to your organization via the drop-down, then you may use the keyword search to find the applicable code(s).

Complete your selections on the Commodity/Service Codes tab as shown on the next page.
