**EBSCONET® Subscription Management**

Your simple solution for managing the entire subscription life cycle

**With EBSCONET Subscription Management, you can …**

**Organize all of your subscription-related tasks**
From a central location, you can select, acquire, administer, evaluate, and renew your subscriptions.

**Choose the best resources**
Pricing and access options are available for more than 355,000 titles from more than 95,000 publishers worldwide.

**Streamline workflow and eliminate duplicate work**
A high level of integration among EBSCO’s management and discovery tools and with your integrated library system makes subscription details available when and where you need them.

**Evaluate your collection**
A wide variety of reports and online tools allow you to analyze expenditures, subject coverage, usage data, and management information.

**Stay abreast of changes**
Publisher and title changes are provided in real time.

**Renew with ease**
E-packages, e-journals, and print subscriptions all can be renewed via a single interface — early-renewal options are available, too!

**EBSCONET® Subscription Management** is a major component of The Complete Management Solution™ from EBSCO, which also includes EBSCONET® Usage Consolidation, EBSCONET® E-Package Renewals, and EBSCONET® ERM Essentials®. For more information about these and other EBSCO products and services, contact your EBSCO representative.

Your One-Stop Shop for Subscription-Related Tasks

EBSCO has partnered with more than 95,000 publishers worldwide to offer 355,000-plus titles via EBSCONET® Subscription Management. Specifically designed to simplify every aspect of the subscription life cycle, this industry-leading tool provides the vital functionality you need to efficiently handle all of the tasks related to placing and managing orders through EBSCO. From a single platform, EBSCONET allows you to:

- Handle renewals for e-packages, e-journals, and print subscriptions.
- Easily identify titles that have merged or changed names.
- Make sound renewal choices by identifying your most- and least-used resources via EBSCONET® Usage Consolidation.
- Obtain pricing and access options for more than 355,000 title listings.
- Get title details, including bibliographic data, available formats, and publisher package information — all updated in real time.
- View your library’s complete holdings details for titles, as managed in EBSCO A-to-Z®.
- Order e-packages, e-journals, and print journals via a secure online platform.
- View detailed information about packages ordered through EBSCO.
- Access a searchable five-year history of your EBSCO orders.
- Choose from a variety of reports designed to help you manage and evaluate your collection.
- Customize reports to include the data elements you need.
- Access usage data and perform instant cost-per-use analysis at your point of need with Usage Consolidation.
- Interface with your ILS for uploading claims and downloading invoices.
- Leverage the power of EBSCO’s integrated knowledge base.
- Maximize the value of EBSCO’s management and discovery tools, including EBSCO A-to-Z® with LinkSource®, EBSCONET® ERM Essentials®, and more.
- Handle check-ins, submit claims, and check claim statuses.
- Track e-journal registration, activation, and licensing.
- Receive automatic notification of changes to e-packages and e-journals.
Simplify E-Package Management

EBSCO understands the complexities of managing e-packages, so EBSCONET® Subscription Management is designed to handle all of your package-related efforts — at every stage.

EBSCO’s comprehensive e-package management services work for you by:

- Providing title lists for more than 400 journal packages.
- Allowing you to view titles included in your existing package orders.
- Tracking content moving in and out of packages.
- Advising you when a title you currently order is available as part of a package.
- Enabling you to run reports that help you analyze potential package upgrades or new purchases.

Renewals are less stressful, too!

In partnership with select publishers — including Springer, Wiley, Taylor & Francis, Sage, and others — EBSCO has developed a collection management tool designed to significantly increase the efficiency of your current e-package renewal process. **EBSCONET® E-Package Renewals** brings together in a single Web interface all the information you need to complete the renewal of your licensed e-package collections, reducing the process time from weeks to hours. This tool also gives you the option to renew earlier with estimated pricing, allowing you to complete renewals in a time frame that is more in line with the regular subscription renewal process using pricing based on your contract terms with each publisher.

For more information about our comprehensive e-package management solutions, contact your EBSCO representative.

Analyze and Evaluate Your Collection with Ease

EBSCONET provides customizable features that offer useful data for developing, analyzing, and evaluating your collection. Detailed analysis of your subscribed titles is easy with multiple options for harvesting specific data about your orders.

- Select from more than two dozen reports that cover collection development, serials management, and financial analysis.
- View holdings and usage data — via **EBSCONET® Usage Consolidation** — along with other details so you can make well-informed collection development decisions.

Improve Efficiency through Integration

EBSCO’s integrated knowledge base powers a comprehensive suite of Web-based tools, all of which ensure that details about your e-resource collection are shared among our wide range of products and services designed to help you manage resources and provide access to content. With this high level of integration …

- Your orders are automatically updated and approximately 100 data elements are auto-populated into **EBSCONET® ERM Essentials®** — so you can ensure the accuracy of subscription details and save valuable staff time.
- Full-text links to your journal content are enabled for SmartLinks™ in EBSCOhost databases, and that content is also searchable through EBSCOhost® Integrated Search™ and **EBSCO Discovery Service™** — so you can provide seamless access to and maximize the value of your collection.
How EBSCONET® Works for You!

Access full bibliographic information about titles, in addition to order history.

Find access and registration information, license details, and more via easy-to-navigate tabbed interface.

Compare available formats for each title.

Determine if a title is part of a publisher package.

Check publisher terms and conditions.

View holdings and usage data.

Rely on World-Class Support and Training

Every page on EBSCONET offers links to help pages and online tutorials. Plus, you can receive personal assistance for any features on EBSCONET by contacting us directly.

- Access context-sensitive help screens and interactive how-to demonstrations.
- View contact information for customer service representatives, technical support, and more.
- Register for online training sessions covering all areas of EBSCONET functionality.

Get Replacement Issues

If you’re missing an issue of a publication or if an issue arrives damaged beyond use, the EBSCO Missing Copy Bank is your source for a replacement issue — at no additional charge. The Missing Copy Bank offers a one- to two-year back file of more than 2,000 popular serial titles. You can link directly to the Missing Copy Bank from EBSCONET, search for the issues you need, and order them online at any time.
