

SCHEDULE F – Ethernet Services

(updated 10/5/2020)

Ethernet Virtual Private Line (EVPL) SES:

EVPL SES services provide point-to-point Ethernet Virtual Circuits (EVCs) to connect switched Ethernet networks within a LATA market. EVCs are offered in bandwidth increments that range from 1 Mbps up to 1000 Mbps

Pricing elements for Ethernet Virtual Private Line Service (EVPL) are:

Monthly:

- UNI
- EVC
- InterOffice Facility (IOF) Mileage charge in excess of 20 miles**

Non-recurring charge

- UNI
- EVC

** IOF mileage charges are assessed when the IOF mileage- which is defined as the distance between the Local Serving office and the Verizon CO housing the Ethernet switch- exceeds 20 miles. If this is the case, there is a charge of \$100 per mile for every mile above 20. This differs from the current contract that charges for all IOF mileage.

As with all Ethernet services, State of NJ is liable for any Special Construction costs for extraordinary network build. These costs will be provided prior to installation, and the State may opt to cancel the order without penalty.

For this contract, installation charges for all EVPL and ELAN components are waived however in the event the state removes a service in the first 12 months, Verizon reserves the right to charge install charges.

EVPL UNI		
	MRC	NRC
10meg EVPL	\$590.00	\$ 1,300.00
100Meg EVPL	\$790.00	\$ 1,300.00

1000M EVC Bandwidth	\$675		

INSTALLATION CHARGE: \$200 per EVC

Miscellaneous Charges (Applicable for both EVPL and ELAN)		
	MRC	NRC
IOF Mileage**	\$100.00	N/A
Domain Change	N/A	\$400

IOF Mileage- \$100/mile/mo for > 20 IOF miles

Ethernet LAN (ELAN):

E-LEN provides multipoint-to-multipoint connectivity among the locations via native Ethernet ports within a LATA. ELAN ports are available in bandwidths of 10M, 100M, and 1G.

The pricing elements of an ELAN service are:

Monthly:

- UNI
- IOF Mileage in excess of 20

Non-recurring charge

- UNI

**IOF mileage charges are assessed when the IOF mileage- which is defined as the distance between the Local Serving office and the Verizon CO housing the Ethernet switch- exceeds 20 miles. If this is the case, there is a charge of \$100 per mile for every mile above 20. This differs from the current contract that charges for all IOF mileage.

As with all Ethernet services, State of NJ is liable for any Special Construction costs for extraordinary network build. These costs will be provided prior to installation, and the State may opt to cancel the order without penalty.

For the contract, installation charges for all EVPL and ELAN components are waived however in the event the State removes a service in the first 12 months, Verizon reserves the right to charge install charges.

ELAN		
	MRC	NRC
10M	\$800.00	\$ 1,300.00
100M	\$18,00.00	\$ 1,300.00
GigE	\$3,200.00	\$ 1,300.00

Miscellaneous Charges (Applicable for both EVPL and ELAN)		
	MRC	NRC
IOF Mileage**	\$100.00	N/A
Domain Change	N/A	\$400

IOF Mileage- \$100/mile/mo for > 20 IOF miles

Ethernet Virtual Private Line (EVPL) National Service

EVPL National services provide point-to-point Ethernet Virtual Circuits (EVCs) to connect switched Ethernet networks between LATA markets. EVC's are offered in bandwidth increments from 1 Mbps up to 1000 Mbps

Pricing elements for EVPL National service are:

Monthly Charges:

- Local Access
- Fixed Mileage Charge
- Per Mile Charge

Installation Charges

- Non Recurring Charge for Local Access

Installation charges are waived however in the event the state removes a service in the first 12 months, Verizon reserves the right to charge install charges.

As with all Ethernet services, State of NJ is liable for any Special Construction costs for extraordinary network build. These costs will be provided prior to installation, and the State may opt to cancel the order without penalty.

LOCAL ACCESS CHARGES:

Local access charges vary according to bandwidth and location. Verizon has provided a spreadsheet with all current CLLI codes in New Jersey and the applicable access charge for each bandwidth and CLLI. Charges for the local access portion of EVPL National service can be found in this spreadsheet.

EVPL National

Bandwidth	Per Mile (0-49 miles)	Fixed (0-49 miles)	Fixed (50 - 249 miles)	Per Mile (50-249 miles)	Fixed (250 & Up)	Per Mile (250 - 499)	Per Mile (500 – 999 miles)	Per Mile (1000 - 1999)	Per Mile (2000+ miles)

Ethernet Private Line (EPL) (IntraLATA)

Ethernet Private Line intraLATA service provides a point-to-point Ethernet circuit between two locations at native Ethernet speeds. The service is provided by Verizon New Jersey within a LATA.

EPL IntraLATA service can also terminate on a Dedicated SONET Ring. Under this option, the Channel Extension charge is replaced by the DSR Port charge included on the table.

Pricing elements for EPL service are:

Monthly Charges:

- Channel Extension charge (based on speed and handoff type)
- Fixed Mileage Charge for Inter-Office Facilities (IOF) based on circuit speed
- Per Mile Charge for Inter-Office Facilities (IOF) based on circuit speed

Installation Charges

- Non Recurring Charge for Local Access

Installation charges are waived however in the event the state removes a service in the first 12 months, Verizon reserves the right to charge install charges.

As with all Ethernet services, State of NJ is liable for any Special Construction costs for extraordinary network build. These costs will be provided prior to installation, and the State may opt to cancel the order without penalty.

Ethernet Private Line- National (InterLATA)

Ethernet Private Line National service provides a point-to-point Ethernet circuit between two locations in different LATA's at native Ethernet speeds. The service is provided by Verizon Business Network Services.

Pricing elements consist of the following:

Monthly:

- Local Access
- Fixed Mileage Charge
- Variable Mileage Charge

Installation:

- Local Access

Installation charges are waived however in the event the state removes a service in the first 12 months, Verizon reserves the right to charge install charges.

LOCAL ACCESS CHARGES:

Local access charges vary according to bandwidth and location. Verizon has provided a spreadsheet with all current CLLI codes in New Jersey and the applicable access charge for each bandwidth and CLLI. Charges for the local access portion of the EVPL National service can be found in this spreadsheet.

OPTIONAL SERVICE: MANAGED ROUTER

Managed Router service is available for Ethernet services. Under this service, Verizon will manage the network router terminating the Ethernet service.

MANAGED ROUTER SERVICE			
Managed WAN MRC SUMMARY MRC Per Router			
Cisco/Adtran/Juniper Router Series			
	Small Standard	Medium Standard	Large Standard
Full Management	98	\$126	\$211

Managed WAN Installation Charges	NRC
Managed Implementation	\$550.00 /Rtr

Implementation Change Management	Price
Expedite Charge - if Customer requests in writing to activate Managed Devices within 15 days or less.	\$1,100
Rescheduling Charge - if Customer reschedules a Managed Device activation within 48 hours of the originally scheduled date.	\$300
After Hours Charge - if Customer requests work after normal business hours.	\$600

Changing Levels of Managed WAN Service	NRC per Managed Device
Upgrade	\$200.00
Downgrade	\$200.00

OPTIONAL SERVICE: Professional Services

Verizon is including labor rates for Professional Services that can be procured for conduit placement and circuit extensions, VOIP network assessment and consultation, and VOIP-related implementation.

Services	
Structured Cabling/Wiring	\$133/hr = Apprentice
Structured Cabling/Wiring	\$170/hr = Journeyman
Structured Cabling/Wiring	\$191.34/hr = Foreman

Rates are for normal working hours, 7:00am to 3:30pm, Monday to Friday, excluding holidays. Minimum 8 hours.

Services	
Network Consulting	\$133/hr = Apprentice
Network Consulting	\$170/hr = Journeyman
Network Consulting	\$191.34/hr = Foreman

Rates are for normal working hours, 7:00am to 3:30pm, Monday to Friday, excluding holidays. Minimum 8 hours.

National Switched E-LINE Service

National Switched E-LINE services provide point-to-point Ethernet Virtual Circuits (EVCs) to connect switched Ethernet networks between LATA markets. EVC's are offered in bandwidth increments from 1 Mbps up to 10,000 Mbps

Pricing elements for EVPL National service are:

Monthly Charges:

- Local Access
- E-LINE EVC Charge

Installation Charges

- Non Recurring Charge for Local Access

Installation charges are waived however in the event the state removes a service in the first 12 months, Verizon reserves the right to charge install charges.

As with all Ethernet services, State of NJ is liable for any Special Construction costs for extraordinary network build. These costs will be provided prior to installation, and the State may opt to cancel the order without penalty.

LOCAL ACCESS CHARGES:

Local access charges vary according to bandwidth and location. Verizon has provided a spreadsheet with all current CLLI codes in New Jersey and the applicable access charge for each bandwidth and CLLI. Charges for the local access portion of EVPL National service can be found in this spreadsheet.

NATIONAL SWITCHED E-LINE

Bandwidth	Service Type	Monthly Rate	NRC
1 Mbps	Switched E-Line	\$142.00	\$0.00
