FORWARD

The office of the notary public is a vital public function. Notaries public are called upon to perform many valuable services for New Jersey's business, legal and financial communities. Effective notary services help to ensure that documents are properly executed, that facts are duly certified, and above all, that the public is protected from fraud. Notarization is essential for many official documents including mortgages, deeds, contracts, and various corporate transactions. This manual is designed to provide notaries public with practical guidance on how to perform notary services.

By following the manual's guidelines, notaries public will operate on a structured procedural foundation and thereby help foster the levels of diligence and accuracy required for the ongoing success of the office. The Division of Revenue and Enterprise Service’s Business Services Bureau serves as the administrative unit for the Notary Public program in New Jersey.

CHAPTER 1. PURPOSE
This manual is designed to implement the provisions of P.L. 2021, c.179 and N.J.A.C. 17:50. The rules streamline the commissioning process, clarify, and expand upon the requirements for notarial acts, provide for the use of new technologies for notarization and enhance the transparency and accountability of the office. In implementing these improvements, the Department of the Treasury intends to: foster improved notarial service levels State-wide; place New Jersey on a strong footing in the notarial practice space nationally; and bolster the reliability and integrity of New Jersey notarial practices in general. The ultimate beneficiaries of these advancements will be New Jersey citizens and the State’s business and legal communities that rely on notarial services.

Note: As outlined above, the focus of this document is on the commissioning process and notarial practices. For more information on commercial and legal uses/acceptance of records notarized by New Jersey notaries public, please consult the governing statute found here: https://www.njleg.state.nj.us/2020/Bills/PL21/179_.PDF. Finally, note that the content of this manual does not constitute legal advice relative to the application of the law to specific legal transactions.

(g) Any appeal of the final agency decision shall be solely to the Appellate Division of the Superior Court within time limits allowed by New Jersey Court Rule 2:2-3. The final agency decision shall include notice to the appellant of the right to file an appeal to the Appellate Division, the time frames and related procedures.

CHAPTER 6. GENERAL REQUIREMENTS FOR NOTARIAL ACTS

In lieu of maintaining a journal, a notary public who is an attorney-at-law admitted to practice in this State or who is employed by an attorney-at-law, or who is employed by or acting as an agent for a title insurance company licensed to do business in this State pursuant to P.L.2001, c.210 (N.J.S.A. 17:22A-26 et seq.), may maintain a record of notarial acts in the form of files regularly maintained for the attorney’s law practice or the title insurance company’s business activities, as the case may be.

CHAPTER 7. FORMS OF IDENTIFICATION AND COPY CERTIFICATION REQUIREMENTS

Copy Certification Requirements
A notarial officer who certifies or attests to a copy of a record or an item that was copied shall determine that the copy is a full, true, and accurate transcription or reproduction of the record or item.

Forms of Identification
A notarial officer who takes an acknowledgment or verification of a record or who witnesses or attests to a signature, shall determine, from personal knowledge or satisfactory evidence of the identity of the individual, that the individual appearing before the officer and making the acknowledgment has the identity claimed and that the signature on the record is the signature of the individual.
Satisfactory forms of identification are as follows:

1. **Personal Knowledge** - A notarial officer has personal knowledge of the identity of an individual appearing before the notarial officer if the individual is personally known to the notarial officer through dealings sufficient to provide reasonable certainty that the individual has the identity claimed.

2. **Documentation** - A notarial officer has satisfactory evidence of the identity of an individual appearing before the notarial officer if the notarial officer can identify the individual by means of:
   
i. A passport, driver’s license, or government-issued, non-driver identification card, which is current or expired not more than three years before the performance of the notarial act; or
   
ii. Another form of government-issued identification, which is current or expired not more than three years before the performance of the notarial act, and which:

A notarial officer may require an individual to provide additional information or identification credentials necessary to assure the notarial officer of the identity of the individual.

**CHAPTER 8. USE OF COMMUNICATION TECHNOLOGY**

**General Provisions and Definitions**

If a notarial act relates to a statement made in, or a signature executed on, a record, the individual making the statement or executing the signature shall appear personally before the notarial officer or shall use communication technology to appear before the notarial officer.

This Chapter does not apply to a record to the extent it is governed by a law governing the creation and execution of wills or codicils, except as to tangible records that are governed by a law governing the creation or execution of wills and codicils, in which this chapter shall apply.

1. **As used in this Chapter:**

2. “Biometric identification” means using a human’s physical or behavioral human features to digitally identify a person. Examples of biometric identification includes systems that use fingerprints and facial and voice patterns.

3. “Communication technology” means an electronic device or process that:
i. allows a notarial officer and a remotely located individual to communicate with each other simultaneously by sight and sound; and

ii. when necessary and consistent with other applicable law, facilitates communication with a remotely located individual who has a vision, hearing, or speech impairment.

4. “Digital Public key certificate” means an electronic credential issued by a trusted third party that is used to identify a person who signed an electronic record.

5. “Dynamic knowledge-based authentication assessment” means identifying a person by asking the person a set of questions derived from public or private data sources for which the person has not been provided prior answers.

6. “Foreign state” means a jurisdiction other than the United States, a state, or a federally recognized Indian tribe.

7. “Identity proofing” means a process or service by which a third person provides a notarial officer with a means to verify the identity of a remotely located individual by a review of personal information from public or private data sources.

8. “Outside the United States” means a location outside the geographic boundaries of the United States, Puerto Rico, the United States Virgin Islands, and any territory, insular possession, or other location subject to the jurisdiction of the United States.

9. “Remotely located individual” means an individual who is not in the physical presence of a notarial officer performing a notarial act.

Before a notary public performs the notary public’s initial notarial act under this section, the notary public must notify the State Treasurer electronically at www.nj.gov/njbgs that the notary public will be performing such notarial acts and identify the technologies the notary public intends to use.

A remotely located individual may comply with this Chapter and subsections a. and b. of N.J.S.A. 46:14-2.1 (officers authorized to take acknowledgements and proofs) by using communication technology to appear before a notarial officer.

A notarial act performed using communication technology for a remotely located individual is deemed performed in New Jersey and is governed by New Jersey law.

Requirements for Notarial Acts Using Communication Technology
A notarial officer located in this State may perform a notarial act using a communication technology for a remotely located individual, regardless of whether the individual is physically located in this State if the notarial officer:

1. Ensures the remote session is interactive and secure, meaning the notary and person are viewing each other directly in real time and that the session cannot be viewed and/or recorded by an unauthorized party.
